SUBJECT: State Plan Amendment
Title XIX, Social Security Act
Transmittal #2021-0009

Dear Mr. Scott:

Please find attached an amendment for North Carolina's State Plan under Title XIX of the Social Security Act for the Medical Assistance Program. The affected section is 1932a State Plan Preprint, Attachment 3.1-F. This State Plan Amendment change outlines that North Carolina Medicaid amends the current PCCM SPA that implements the CCNC program to account for the implementation of the standard plans under Medicaid transformation. In the state's analysis, the block of spending for care management will not change through the SPA. This is an operational change and will have no financial impact (e.g., increase in costs or utilization).

This amendment is effective July 1, 2021.

Your approval of this state plan amendment is requested. If you have any questions or concerns, please contact me or Betty J. Staton at 919-527-7093.

Sincerely,

A handwritten signature in black ink that reads "Mandy K. Cohen".

1932(a)(1)(A)

A. Section 1932(a)(1)(A) of the Social Security Act.

The State of North Carolina enrolls Medicaid beneficiaries on a mandatory basis into managed care entities (managed care organization [MCOs], primary care case managers [PCCMs], and/or PCCM entities) in the absence of section 1115 or section 1915(b) waiver authority. This authority is granted under section 1932(a)(1)(A) of the Social Security Act (the Act). Under this authority, a state can amend its Medicaid state plan to require certain categories of Medicaid beneficiaries to enroll in managed care entities without being out of compliance with provisions of section 1902 of the Act on statewideness (42 CFR 431.50), freedom of choice (42 CFR 431.51) or comparability (42 CFR 440.230).

This authority may *not* be used to mandate enrollment in Prepaid Inpatient Health Plans (PIHPs), Prepaid Ambulatory Health Plans (PAHPs), nor can it be used to mandate the enrollment of Medicaid beneficiaries described in 42 CFR 438.50(d).

Where the state's assurance is requested in this document for compliance with a particular requirement of 42 CFR 438 et seq., the state shall place a check mark to affirm that it will be in compliance no later than the applicable compliance date. All applicable assurances should be checked, even when the compliance date is in the future. **Please see Appendix A of this document for compliance dates for various sections of 42 CFR 438.**

Case management services for the pregnant woman population was previously fee for service and is now being moved to the managed care model.

CCNC operates the Care Coordination for Children program (CC4C) which provides care/case management for high risk and high cost children aged birth up to age 5, excluding Early Intervention. Eligible children receive population management, care management, and coordination of treatment and prevention. This program is outcome driven and measured. The following are examples of the performance measures and may change over time:

- Increase rate of first visits by NICU graduates within 1 month of discharge;
- Increase rate of comprehensive assessments completed; and
- Increase number of children who have a medical home that have special health care needs and/or are in foster care.

Case management services for high risk children aged birth up to age 5 was previously fee for service and is now being moved to the managed care model.

The PM/PM for care/case management of the pregnant women and children birth up to age 5 was based on the current fee for service cost of the maternal care coordination targeted case management program and the child service coordination case management program. The total expenditures in the base year were divided by the total beneficiary population to establish the PM/PM rate. These rates were actuarially certified as being developed in accordance with generally accepted actuarial practices and are appropriate for the Medicaid covered populations and services under the managed care contract and PMPM rates

DHB shall set forth all payments to the provider including enhanced services reimbursement and enhanced management fees and that the contracts must be reviewed and approved by CMS.

42 CFR 438.50(b)(4)

C. Public Process.

Describe the public process including tribal consultation, if applicable, utilized for both the design of the managed care program and its initial implementation. In addition, describe what methods the state will use to ensure ongoing public involvement once the state plan managed care program has been implemented. (*Example: public meeting, advisory groups.*)

If the program will include long term services and supports (LTSS), please indicate how the views of stakeholders have been, and will continue to be, solicited and addressed during the design, implementation, and oversight of the program, including plans for a member advisory committee (42 CFR 438.70 and 438.110)

The CCNC PCCM program was founded with input from the medical provider community and other agencies involved in public service delivery. Physician and physician professional organizations have always been instrumental in developing initiatives and direction for the program. As community networks were being developed, social service agencies, physicians, and hospitals became participants in planning at the community level how Medicaid beneficiaries could best be served with quality medical care and care management. Each network has a steering committee whose membership includes representatives from the department of social services, physicians, etc. Networks also have local medical management committees whose membership is composed of representatives from the medical community, i.e., physicians, hospital etc. Each network medical director participates on the statewide Medical Management Committee that advises the PCCM program on a statewide level. A provider satisfaction survey using an external vendor will be conducted every two years to maintain continued input from providers who

participate in the program but who may not be part of an advisory committee.

NC Medicaid regularly consults with our federally recognized tribal representatives on all changes to the Medicaid program prior to submission to CMS, as required in our tribal consultation process, including changes affecting our PCCM.

Beneficiaries enrolled with the PCCM managed care program have public input through the state's toll free customer service phone center which is staffed from eight to five, Monday through Friday. The toll free number for the state customer service center is 1-800-662-7030.

Beneficiaries are also able to submit concerns about the program through a written complaint process.

Enrollees have public input through a Patient Satisfaction Survey. The survey is used to collect data on satisfaction, access, health status, utilization, and trust. The tool used to collect the data is the CAHPS survey for children and adults. A patient satisfaction survey will be conducted by an external vendor every three (3) years.

The NC Medical Care Advisory Committee reviews all major program changes for the Medicaid program. Beneficiaries have an opportunity to serve on this Committee.

The North Carolina Department of Health and Human Services contracts with a vendor to provide Medicaid Managed Care Ombudsman services for the state's Medicaid beneficiaries. The Medicaid Managed Care Ombudsman will serve as a central resource to educate and inform beneficiaries about the state's move to Medicaid Managed Care through and array of events as well as help to resolve issues/complaints within the Medicaid Managed Care delivery system.

F. Enrollment Process.

Based on whether mandatory and/or voluntary enrollment are applicable to your program (see E. Populations and Geographic Area and definitions in 42 CFR 438.54(b)), please complete the below:

1. For **voluntary** enrollment: (see 42 CFR 438.54(c))
 - a. Please describe how the state fulfills its obligations to provide information as specified in 42 CFR 438.10(c)(4), 42 CFR 438.10(e) and 42 CFR 438.54(c)(3).

The Department will develop a model member handbook inclusive of required managed care terminology as defined in 42 CFR 438.10(c)(4). CCNC will use that model handbook to create a PCCM handbook for their enrolled beneficiaries. The Department issues informational notices upon eligibility determination or redetermination defining all managed care programs an individual is available to elect. The notices include required information outlined in 42 CFR 438.10(e) and 42 CFR 438.54(c)(3).

State with voluntary enrollment must have an enrollment choice period or passive enrollment. Please indicate which will apply to the managed care program:

- b. If applicable, please check here to indicate that the state provides an

enrollment choice period, as described in 42 CFR 438.54(c)(1)(i) and 42 CFR 438.54(c)(2)(i), during which individuals who are subject to voluntary enrollment may make an active choice to enroll in the managed care program, or will otherwise continue to receive covered services through the fee-for-service delivery system.

- i. Please indicate the length of the enrollment choice period:

State:

Citation	Condition or Requirement
----------	--------------------------

- c. X If applicable, please check here to indicate that the state uses a passive enrollment process, as described in 42 CFR 438.54(c)(1)(ii) and 438.54(c)(2)(ii), for individuals who are subject to voluntary enrollment.
 - i. If so, please describe the algorithm used for passive enrollment and how the algorithm and the state's provision of information meets all of the requirements of 42 CFR 438.54(c)(4),(5),(6),(7), and (8).

Caseworkers at the local department of social services (DSSs) or the DHHS/EBCI Medicaid and FNS Eligibility Office provide information about the program to potential enrollees and enroll them into the program.

The state provides an enrollment form to the county DSSs or the DHHS/EBCI Medicaid and FNS Eligibility Office. It is required to be completed at enrollment or with a change of health home. It is signed by the beneficiary or beneficiary's guardian to verify that they were given freedom of choice and the primary care provider listed on the enrollment form is the provider of choice. If the beneficiary provides the name of their chosen medical home by phone, the caseworker is permitted to complete the form and file it in the beneficiary's record without signature. If an individual does not choose a provider, the individual is auto-assigned a provider through the state's provider enrollment platform.

The State assures that default enrollment will be based first upon maintaining existing provider/patient relationships. Income maintenance caseworkers at the local DSSs or DHHS/EBCI Medicaid and FNS Office are primarily responsible for linking beneficiaries to a health home; however, certain DHB staff and designees also have the ability to link beneficiaries. Some beneficiaries, particularly Supplemental Security Income (SSI) beneficiaries, do not visit the social services office for Medicaid application and/or reapplication. In these cases, written materials describing the managed care options are mailed to them along with a deadline for notification of their PCP selection.

Attempts are made to contact beneficiaries by telephone or letter if they do not respond within the time frame; inquiries are made about existing relationships with providers when contact is made. If the beneficiary cannot be contacted, they are auto-assigned and notified of their enrollment and rights. Assignments are based on an historical

State:

relationship with a health home. If no relationship can be determined, the beneficiary is assigned to a medical home within a 30 mile radius of the beneficiary's residence. If the medical home is an IHS provider, assignment is limited to IHS eligible beneficiaries.

North Carolina has an opt-out process for enrolling dual eligible beneficiaries. Dual beneficiaries receive a letter informing them of the name, address, and phone number of the medical home to which they have been assigned unless they contact the local DSS or the DHHS/EBCI Medicaid and FNS Eligibility Office. Assignment is based on an historical relationship with a provider, and if no relationship can be determined the beneficiary is assigned to a medical home within a 30 mile radius of the beneficiary's home. The letter also informs them of their right to disenroll, change their medical home, and enroll on a month to month basis.

American Indians/Alaska Natives and IHS eligible are not part of the opt-out process. When making application for medical assistance, they are informed that they may enroll, disenroll, or change their medical home on a month to month basis if they opt to enroll.

With the exception of children receiving foster care services or adoption assistance, North Carolina has an-opt out process for enrolling children with special health care needs. Parents/guardians of these children receive a letter informing them of the name, address, and phone number of the health home to which assignment has been made unless they contact the local department of social services. Auto-assignment is made to a health home with which there is an historical relationship if that can be determined. If there is no relationship with a health home, the beneficiary is assigned to a health home within 30 miles of the beneficiary's residence. If the medical home is an IHS provider, assignment is limited to HIS eligible beneficiaries. The letter also informs them of their right to disenroll, change their health home, and enroll at any time.

As a result of law P.L. 110-351/H.R.6893, Fostering Connections to Success and Increasing Adoption Act of 2008, the division works closely with the North Carolina Pediatric Society, practicing pediatricians and the North Carolina Division of Social Services to enroll foster children into health homes created by the PCCM program to plan for continued medical care of children with special health care needs. The State assures that these beneficiaries will be permitted to change health homes or disenroll from the PCCM program on a month to month basis.

State:

from the plan and return to the fee-for-service delivery system:

Enrollees can disenroll from the PCCM program on a month to month basis.

2. For mandatory enrollment: (see 42 CFR 438.54(d))
- a. Please describe how the state fulfills its obligations to provide information as specified in 42 CFR 438.10(c)(4), 42 CFR 438.10(e) and 42 CFR 438.54(d)(3).

The Department will develop a model member handbook inclusive of required managed care terminology as defined in 42 CFR 438.10(c)(4). CCNC will use that model handbook to create a PCCM handbook for their enrolled beneficiaries. The Department issues informational notices upon eligibility determination or redetermination defining all managed care programs individual is available to elect. The notices include required information outlined in 42 CFR 438.10(e) and 42 CFR 438.54(c)(3).

- b. If applicable, please check here to indicate that the state provides an enrollment choice period, as described in 42 CFR 438.54(d)(2)(i), during which individuals who are subject to mandatory enrollment may make an active choice to select a managed care plan, or will otherwise be enrolled in a plan selected by the State's default enrollment process.
 - i. Please indicate the length of the enrollment choice period:

- c. If applicable, please check here to indicate that the state uses a default enrollment process, as described in 42 CFR 438.54(d)(5), for individuals who are subject to mandatory enrollment.
 - i. If so, please describe the algorithm used for default enrollment and how it meets all of the requirements of 42 CFR 438.54(d)(4), (5), (7), and (8).

Caseworkers at the local DSS Office or the DHHS/EBCI Medicaid and FNS Eligibility Office. provide information about the program to potential enrollees and enroll them into the program.

The state provides an enrollment form to the county departments of social services (DSSs). It is required to be completed at enrollment or change of health home. It is signed by the beneficiary or beneficiary's guardian to verify that they were given freedom of choice and the primary care provider listed on the enrollment form is the provider of choice. If the beneficiary provides the name of their chosen medical home by phone, the caseworker is permitted to complete the form and file it in the beneficiary's record without signature. If an individual does not choose a provider, the individual is auto-assigned a provider through the state's provider enrollment platform.

State:

The State assures that default enrollment will be based first upon maintaining existing provider/patient relationships. Income maintenance caseworkers at the local DSS Office or the DHHS/EBCI Medicaid and FNS Eligibility Office are primarily responsible for linking beneficiaries to a health home; however, certain DHB staff and designees also have the ability to link beneficiaries. Some beneficiaries, particularly Supplemental Security Income (SSI) beneficiaries, do not visit the social services office for Medicaid application and/or reapplication. In these cases, written materials describing the managed care options are mailed to them along with a deadline for notification of their PCP selection.

Attempts are made to contact beneficiaries by telephone or letter if they do not respond within the time frame; inquiries are made about existing relationships with providers when contact is made. If the beneficiary cannot be contacted, they are auto-assigned and notified of their enrollment and rights. Assignments are based on an historical relationship with a health home. If no relationship can be determined, the beneficiary is assigned to a medical home within a 30 mile radius of the beneficiary's residence. If the medical home is an IHS provider, assignment is limited to IHS eligible beneficiaries.

- d. If applicable, please check here to indicate that the state uses a passive enrollment process, as described in 42 CFR 438.54(d)(2), for individuals who are subject to mandatory enrollment.
 - i. If so, please describe the algorithm used for passive enrollment and how it meets all of the requirements of 42 CFR 438.54(d)(4), (6), (7), and (8).
