 The North Carolina Department of Health and Human Services (NCDHHS) collaborated with our contracted actuary, Mercer Government Human Services Consulting (Mercer), to perform an analysis to assess NCDHHS' available State Plan, 1915 (c) waivers and managed care contract services to determine which meet the definition of HCBS direct care worker within the Senate Bill and calculate equitable rate increases at the procedure code level to fully allocate the available funds (\$210 million). These rate increases, which are based on a uniform dollar amount per 15-minute unit, adjusted for amount of service delivered by a direct care worker in each service category, are intended to be permanent. The April - June 2022 rates reflect the legislative permanent HCBS DCW increase.
 ***** Rates are scheduled to end July 15th, 2022. For July 16th going forward the rates will be released prior to July 15th.
