

# Updated Timeline for CAP/C Waiver Renewal

## Updated activities associated with the timeline:

- Presenting recommendations from the small workgroups to ECBI, CAP/C Advisory Committee, CFT and executive leadership teams for their feedback and agreement to include in the waiver renewal application.
- Hosting a stakeholder meeting on Dec. 14, 2021, to report out the feedback from the small workgroups and recommendations of the division to incorporate into the waiver application.

- Drafting of the waiver application to incorporate the division's recommendations.
- Opening the public comment period by sharing the waiver application with the EBCI for their feedback and recommendations. After their review and feedback, make necessary updates and share to the public for 30-days.
- Updating the waiver application and clinical coverage policy based on feedback from the public comment period. Presenting the final waiver application to executive leadership for their approval to submit to CMS.
- Submitting the waiver application to the Centers for Medicare and Medicaid Services (CMS) for their approval.
- Submitting a waiver extension request to CMS in Feb. 2022 to extend the waiver through the CMS approval review period.
