

**Clinical Edits - Behavioral Health - Adult**

**DRAFT**

**Therapeutic Class: Behavioral Health Medications for Adults**

| <b>Clinical Edit Number</b> | <b>Long Description</b>   |
|-----------------------------|---|
| 4110 (May change)           | Quantity limit edit that is applied to atypical antipsychotics for claims identified in the adult population  |
| 4125 (May change)           | Quantity limit edit that is applied to antidepressants for claims identified in the adult population  |
| 4140 (May change)           | Quantity limit edit that is applied to ADD/ADHD and stimulant medications for claims identified in the adult population   |
| 4410 (May change)           | Therapeutic duplication edit that is applied to atypical antipsychotics for claims identified in the adult population   |
| 4420 (May change)           | Therapeutic duplication edit that is applied to antidepressants for claims identified in the adult population   |
| 4421 (May change)           | Therapeutic duplication edit that is applied to antidepressants for claims identified in the adult population   |
| 4440 (May change)           | Therapeutic duplication edit that is applied to anxiolytics for claims identified in the adult population   |
| 4610 (May change)           | Quantity limit edit that is applied to behavioral health drugs except atypical antipsychotics, antidepressants, ADD/ADHD drugs and stimulants for claims identified in the adult population |

**Eligible Beneficiaries**

NC Medicaid (Medicaid) beneficiaries shall be enrolled on the date of service and may have service restrictions due to their eligibility category that would make them ineligible for this service.

NC Health Choice (NCHC) beneficiaries, ages 6 through 18 years of age, shall be enrolled on the date of service to be eligible, and must meet policy coverage criteria, unless otherwise specified. **EPSDT does not apply to NCHC beneficiaries.**

**EPSDT Special Provision: Exception to Policy Limitations for Beneficiaries under 21 Years of Age**

**42 U.S.C. § 1396d(r) [1905(r) of the Social Security Act]**

Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) is a federal Medicaid requirement that requires the state Medicaid agency to cover services, products, or procedures for Medicaid beneficiaries under 21 years of age if the service is **medically necessary health care** to correct or ameliorate a defect, physical or mental illness, or a condition [health problem] identified through a screening examination\*\* (includes any evaluation by a physician or other licensed clinician). This means EPSDT covers most of the medical or remedial care a child needs to improve or maintain his/her health in the best condition possible, compensate for a health problem, prevent it from worsening, or prevent the development of additional health problems. Medically necessary services will be provided in the most economic mode, as long as the treatment made available is similarly efficacious to the service requested by the beneficiary's physician, therapist, or other licensed practitioner; the determination process does not delay the delivery of the needed service; and the determination does not limit the beneficiary's right to a free choice of providers.

EPSDT does not require the state Medicaid agency to provide any service, product, or procedure

**Clinical Edits - Behavioral Health - Adult**

**DRAFT**

- a. that is unsafe, ineffective, or experimental/investigational.
- b. that is not medical in nature or not generally recognized as an accepted method of medical practice or treatment.

Service limitations on scope, amount, duration, frequency, location of service, and/or other specific criteria described in clinical coverage policies may be exceeded or may not apply as long as the provider's documentation shows that the requested service is medically necessary "to correct or ameliorate a defect, physical or mental illness, or a condition" [health problem]; that is, provider documentation shows how the service, product, or procedure meets all EPSDT criteria, including to correct or improve or maintain the beneficiary's health in the best condition possible, compensate for a health problem, prevent it from worsening, or prevent the development of additional health problems.

**EPSDT and Prior Approval Requirements**

EPSDT DOES NOT ELIMINATE THE REQUIREMENT FOR PRIOR APPROVAL IF PRIOR APPROVAL IS REQUIRED. Additional information on EPSDT guidelines may be accessed at <http://www.ncdhhs.gov/dma/epsdt/>.

**Criteria:**

**Clinical Edit 4110**

**Quantities in excess of the dosages recommended by the Food and Drug Administration (FDA) for the atypical antipsychotics listed in Appendix A will be denied.**

- The quantity limits are applied based on the maximum daily doses approved by the FDA.
- The quantity limits are based on FDA approved adult age ranges.
- The quantity limits are restricted to the adult population defined as beneficiaries greater than or equal to 18 years of age.

**Clinical Edit 4125**

**Quantities in excess of the dosages recommended by the Food and Drug Administration (FDA) for the antidepressants listed in Appendix B will be denied.**

- The quantity limits are applied based on the maximum daily doses approved by the FDA.
- The quantity limits are based on FDA approved adult age ranges.
- The quantity limits are restricted to the adult population defined as beneficiaries greater than or equal to 18 years of age.

**Clinical Edit 4140**

**Quantities in excess of the dosages recommended by the Food and Drug Administration (FDA) for the ADD/ADHD medications listed in Appendix C will be denied.**

- The quantity limits are applied based on the maximum daily doses approved by the FDA.

**Clinical Edits - Behavioral Health - Adult**

**DRAFT**

- The quantity limits are based on FDA approved adult age ranges.
- The quantity limits are restricted to the adult population defined as beneficiaries greater than or equal to 18 years of age.

**Clinical Edit 4410**

**Concomitant use of three or more atypical antipsychotics listed in Appendix D will be denied.**

- The edit is applied based on 60 or more days of overlapping therapy with three or more atypical antipsychotics.
- The edit is applied to the adult population defined as beneficiaries greater than or equal to 18 years of age.

**Clinical Edit 4420**

**Concomitant use of two or more antidepressants listed in Appendix E will be denied.**

- The edit is applied based on 60 or more days of overlapping therapy with two or more antidepressants in the same chemical class.
- The edit is applied to the antidepressant chemical class selective serotonin reuptake inhibitors (SSRIs) and includes combination products.
- The edit is applied to the adult population defined as beneficiaries greater than or equal to 18 years of age.

**Clinical Edit 4421**

**Concomitant use of two or more antidepressants listed in Appendix F will be denied.**

- The edit is applied based on 60 or more days of overlapping therapy with two or more antidepressants in the same chemical class.
- The edit is applied to the antidepressant chemical class serotonin-norepinephrine reuptake inhibitors (SNRIs).
- The edit is applied to the adult population defined as beneficiaries greater than or equal to 18 years of age.

**Clinical Edit 4440**

**Concomitant use of two or more anxiolytics listed in Appendix G will be denied.**

- The edit is applied based on 60 or more days of overlapping therapy with two or more anxiolytics.
- The edit is applied to the adult population defined as beneficiaries greater than or equal to 18 years of age.

**Clinical Edits - Behavioral Health - Adult**

**DRAFT**

**Clinical Edit 4610**

**Quantities in excess of the dosages recommended by the Food and Drug Administration (FDA) for the behavioral health medications listed in Appendix H (does not include antidepressants, atypical antipsychotics, stimulants and ADD/ADHD medications) will be denied.**

- The quantity limits are applied based on the maximum daily doses approved by the FDA.
- The quantity limits are based on FDA approved adult age ranges.
- The quantity limits are restricted to the adult population defined as beneficiaries greater than or equal to 18 years of age.

**Resolution:**

A Pharmacist may override the prior authorization edit at point-of-sale after consulting the prescriber to determine the clinical need for a quantity exceeding the FDA recommended maximum or therapeutic duplication of a behavioral health medication. Documentation is to be made in the NCPDP pharmacy system or on the original prescription.
