## Attachment D: Required CFSP Quality Metrics

Section VII. Attachment D. Required CFSP Quality Metrics is meant to provide the Department with a complete picture of the CFSP's processes and performance as described in Section V.F. Quality and Value. The measures below include a set of Medicaid Adult and Child Core measures, measures required for accreditation, and a select set of additional measures, including administrative measures aligned with key Department interventions.

The Department will review and update the quality measures annually in January and reflect any updates in the NC Medicaid Managed Care Technical Specifications document posted on the NC DHHS Quality Management and Improvement website, as necessary, to align with the annual January update.

The CFSP shall begin to track the updated measures when posted annually in January. The CFSP shall not be required to report on the updated measures posted in January until the end of the subsequent Contract Year following the annual posting to the NC DHHS Quality Management and Improvement website in accordance with Second Revised and Restated Section VII. Attachment I. Reporting Requirements (e.g., for updates to the quality metrics posted in January 2023, the CFSP would report the results in June 2024).

The CFSP will also be required to report the 1915(i) measures listed in Section VII.D. Table 3: 1915(i) Service Performance Measures. The quality measures will be reviewed and updated annually. The Department will monitor other measures that are not included in the tables below and may engage with CFSP around these performance measures.

## Attachment E: CFSP Network Adequacy Standards

At a minimum, Contractor’s network shall consist of hospitals, physicians, advanced practice nurses, SUD and mental health treatment providers, I/DD providers, emergent and non-emergent transportation services, safety net hospitals, and all other provider types necessary to support capacity to make all services sufficiently available as described in *Section V.E.1. Provider Network*.

For the purposes of this attachment and the CFSP Network Adequacy Standards, “urban” is defined as non-rural counties, or counties with average population densities of two hundred fifty (250) or more people per square mile. This definition includes twenty (20) counties that are categorized by the North Carolina Rural Economic Development Center as “regional cities or suburban counties” or “urban counties which will be covered by the CFSP.” “Rural” is defined as a county with average population density of less than two hundred fifty (250) people per square mile.

More background information is available at: [http://www.ncleg.net/documentsites/committees/BCCI-6678/4-6-16/NCRC3%20Rural Center Impacts Report.pdf4-6-16.pdf](http://www.ncleg.net/documentsites/committees/BCCI-6678/4-6-16/NCRC3%20Rural%20Center%20Impacts%20Report.pdf4-6-16.pdf). The Department will issue updated analysis of urban and rural counties defined by the North Carolina Rural Economic Development Center based on the most recently available U.S. Census population data.

In order to ensure that all Members have timely access to all covered health care services, Offeror shall ensure its network meets, at a minimum, the following time/distance standards as measured from the Member’s residence for adult and pediatric providers separately through geo-access mapping at least annually. Certain service types are not subject to separate adult and pediatric provider standards. These service types are marked with a (\*) and include: hospitals, pharmacies, occupational, physical, or speech therapists, LTSS, and nursing facilities.

For purposes of Network Adequacy Standards for physical health providers/services, except as otherwise noted, adult services are those provided to a Member who is 21 years of age or older and pediatric (child/children) services are those provided to a Member who is less than 21 years of age.

For purposes of network adequacy standards for SUD and mental health treatment providers, except as otherwise noted, adult services are those provided to a Member who is 18 years of age or older and pediatric/adolescent (child/children) services are those provided to a Member who is less than 18 years of age.

The CFSP is required to use the definitions of service categories for BH time/distance standards found in *Distance Standards for BH service types in Section VII. Attachment E. Table 2: Definition of Service Category for Behavioral Health Time/Distance Standards*

Payments due to the Indian Health Service, an Indian Tribe, Tribal Organization, or Urban Indian Organization, or a health care IHCP through referral under contract health services for the furnishing of an item or service to an Indian who is eligible for assistance under the Medicaid program may not be reduced by the amount of any Enrollment fee, premium, or similar charge, and no deduction, copayment, cost sharing, or similar charge. ### 5. Enrollee Option to Select the IHCP as Primary Health Care IHCP.

The Managed Care Plan shall allow any Indian otherwise eligible to receive services from an IHCP to choose the IHCP as the Indian's primary health care provider if the IHCP has the capacity to provide primary care services to such Indian, and any referral from such IHCP shall be deemed to satisfy any coordination of care or referral requirement of the Managed Care Plan. Section 1932(h)(1) of the Social Security Act, 42 C.F.R. § 438.14(b)(3) and 457.1209.

### 6. Agreement to Pay IHCP.

- a. The Managed Care Plan shall pay the IHCP for covered Medicaid managed care services in accordance with the requirements set out in Section 1932(h) of the Social Security Act, (42 USC 1396u-2(h)), 42 C.F.R. §§ 438.14 and 457.1209.
- b. The State shall make a supplemental payment to the IHCP to make up the difference between the amount the Plan pays and the amount the IHCP would have received under FFS or the applicable

Encounter rate published annually by the IHS if the amount the IHCP receives from the Plan is less than the amount they would have received under FFS or the applicable Encounter rate.

**7. Persons Eligible for Items and Services from IHCP.**

- a. Nothing in this agreement shall be construed to in any way change, reduce, expand, or alter the eligibility requirements for services through the IHCP's programs, as determined by federal law including the IHCA, 25 U.S.C. § 1601, et seq. and/or 42 C.F.R. Part 136.
- b. No term or condition of the Managed Care Plan's network provider agreement or any addendum thereto shall be construed to require the IHCP to serve individuals who are ineligible for services from the IHCP. The Managed Care Plan acknowledges that pursuant to 45 C.F.R. § 80.3(d), an individual shall not be deemed subjected to discrimination by reason of his/her exclusion from benefits limited by federal law to individuals eligible for services from the IHCP. IHCP acknowledges that the nondiscrimination provisions of federal law may apply.

**8. Applicability of Federal Laws not Generally Applicable to other Providers.**

Certain federal laws and regulations apply to IHCPs, but not other providers. IHCPs cannot be required to violate those laws and regulations as a result of serving MCO enrollees. Applicable provisions may include, but are not limited to, those laws cited within this Addendum.

**9. Non-Taxable Entity.**

To the extent the IHCP is a non-taxable entity, the IHCP shall not be required by a Managed Care Plan to collect or remit any federal, state, or local tax.

**10. Insurance and Indemnification.**

- a. **Indian Health Service.** The Indian Health Service (IHS) shall not be required to obtain or maintain insurance (including professional liability insurance), provide indemnification, or guarantee that the Managed Care Plan will be held harmless from liability. This is because the IHS is covered by the Federal Tort Claims Act (FTCA), which means that the United States consents to be sued in place of federal employees for any damages to property or for personal injury or death caused by the negligence or wrongful act or omission of federal employees acting within the scope of their employment. Nothing in the Managed Care Plan network provider agreement (including any addendum) shall be interpreted to authorize or obligate any IHS employee to perform any act outside the scope of his/her employment.
- b. **Indian Tribes and Tribal Organizations.** A provider which is an Indian tribe or a tribal organization operating under a contract or compact to carry out programs, services, functions, and activities (or portions thereof) of the IHS pursuant to the ISDEAA, 25 U.S.C. § 450, or employee of a tribe or tribal organization (including Contractors) shall not be required to obtain or maintain insurance (including professional liability insurance), provide indemnification, or guarantee that the Managed Care Plan will be held harmless from liability. This is because Indian tribes and tribal organizations operating under a contract or compact to carry out programs, services, functions, and activities, (or programs thereof) of the IHS pursuant to the ISDEAA, 25 U.S.C. § 450, are covered by the FTCA, which means the United States consents to be sued in place of employees of a tribe or tribal organization (including Contractors) for any damages to property or for personal injury or death caused by the negligence or wrongful act or omission of employees acting within the scope of their employment. Nothing in the Managed Care Plan network provider agreement (including any addendum) shall be interpreted to authorize or obligate such provider, any employee of such provider, or any personal services Contractor to perform any act outside the scope of his/her employment.
- c. **Urban Indian Organizations.** A provider which is an urban Indian organization shall not be required to obtain or maintain insurance (including professional liability insurance), provide indemnification, or guarantee that the Managed Care Plan will be held harmless from liability to the extent the provider attests that it is covered by the FTCA. Nothing in the Managed Care Plan network provider agreement

or any addendum thereto shall be interpreted to authorize or obligate such provider or any employee of such provider to perform any act outside the scope of his/her employment.

**11. Licensure and Accreditation.**

Pursuant to 25 USC §§ 1621t and 1647a, the Managed Care Organization shall not apply any requirement that any entity operated by the IHS, an Indian tribe, tribal organization or urban Indian organization be licensed or recognized under the State or local law where the entity is located to furnish health care services, if the entity attests that it meets all the applicable standards for such licensure or recognition. In addition, the Managed Care Organization shall not require the licensure of a health professional employed by such an entity under the State or local law where the entity is located, if the professional is licensed in another State.

**12. Dispute Resolution.**

In the event of any dispute arising under the Managed Care Plan's network IHCP agreement or any addendum thereto, the parties agree to meet and confer in good faith to resolve any such disputes. Notwithstanding any provision in the Managed Care Plan's network agreement, the IHCP shall not be required to submit any disputes between the parties to binding arbitration.

**13. Governing Law.**

The Managed Care Plan's network IHCP agreement and all addenda thereto shall be governed and construed in accordance with federal law of the United States. In the event of a conflict between such agreement and all addenda thereto and federal law, federal law shall prevail.

Nothing in the Managed Care Plan's network IHCP agreement or any addendum thereto shall subject an Indian tribe, tribal organization, or urban Indian organization to state law to any greater extent than state law is already applicable.

**14. Medical Quality Assurance Requirements.**

To the extent the Managed Care Plan imposes any medical quality assurance requirements on its network IHCPs, any such requirements applicable to the IHCP shall be subject to Section 805 of the IHCA (25 U.S.C. § 1675.)

**15. Claims Format.**

The Managed Care Plan shall process claims from the IHCP in accordance with Section 206(h) of the IHCA (25 U.S.C. § 1621e(h)), which does not permit an issuer to deny a claim submitted by a IHCP based on the format in which submitted if the format used complies with that required for submission of claims under Title XVIII of the Social Security Act or recognized under Section 1175 of such Act.

**16. Payment of Claims.**

The Managed Care Plan shall pay claims from the IHCP in accordance Section 1932(h)(2) of the Act, ((42 U.S.C. §1396u-2(h))and 42 C.F.R. §§ 438.14(c)(2) and 457.1209, and shall pay at either the rate provided under the State plan in a Fee-for-Service payment methodology, or the applicable Encounter rate published annually in the Federal Register by the Indian Health Service, whichever is higher.

**17. Hours and Days of Service.**

The hours and days of service of the IHCP shall be established by the IHCP. The IHCP agrees that it will consider input from the Managed Care Plan as to its hours and days of service. At the request of the Managed Care Plan, such IHCP shall provide written notification of its hours and days of service.

**18. Coordination of Care/Referral Requirements.**

The Provider may make referrals to in-network providers and such referrals shall be deemed to meet any coordination of care and referral obligations of the Managed Care Plan.

**19. Sovereign Immunity.**

Nothing in the Managed Care Plan’s network IHCP agreement or in any addendum thereto shall constitute a waiver of federal or tribal sovereign immunity.

**20. Endorsement.**

IHS or IHCP names and positions may not be used to suggest official endorsement or preferential treatment of the Managed Care Plan.

## 6. CFSP Management of Inborn Errors of Metabolism Policy

- a. Identification of inherited metabolic disorders caused by a defect in the enzymes or their co-factors that metabolize protein, carbohydrate or fat are included in the Newborn Metabolic Screening Program. Inborn errors of metabolism (IEM) generally refer to gene mutations or gene deletions that alter metabolism in the body. While rare, IEM disorder may manifest at any stage of life from infancy to adulthood. Early identification of IEM correlates with significant reduction in morbidity, mortality, and associated disabilities of those affected. Once identified treatment of an IEM is referred to a specialized treatment facility. Treatment is based on symptomatic therapy which may include the following strategies; substrate restriction, stimulation or stabilization of residual enzyme activity; replacement of deficient products; removal of toxic metabolites or blocking their production; and enzyme replacement therapy. Avoidance of catabolism is essential at all treatment stages.
- b. Nutrition therapy is integral to the treatment of IEM. Nutrition therapy is used to both correct the metabolic imbalance and ensure adequate energy, protein, and nutrients for normal growth and development among affected individuals. The metabolic team at the specialized treatment facility caring for affected individual will prescribe a dietary regimen often requiring the use of specialized formulas. Continual monitoring of nutrient intake, laboratory values, and the individual's growth are needed for evaluation of the adequacy of the prescribed diet.
- c. IEM disorders are complex and affect neurological, physical, and nutritional status. The dietary regimen is crucial to the health and survival of an affected individual. Ineffective management of the disease state may result in toxicity to certain organs, brain damage, developmental impairment and central, peripheral nervous system disorders as well as death. Most of the dietary regimens for IEM require the use of special formula. It is recommended that CFSP cover the full cost of evidence-based therapeutic diets prescribed by the metabolic team. Monitoring of the compliance of the restricted diet and follow up on the growth and development status of all individuals with IEM should be part of the individualized Care Plan.
- d. Once a client is established with a specialized treatment facility a nutrition Care Plan is developed and products prescribed. The current system of product coverage is four pronged:
  - i. Clients with Health Insurance coverage fill their prescription through pharmacies or Durable Medical Equipment (DME) Centers.
  - ii. Clients with Medicaid coverage are served by Innovation Health Center (IHC). Certificate of Medical Necessity/Prior Approval Form (triplicate NC Medicaid form), Prescription and Oral Nutrition Product Request Form (NC Medicaid form) as well as completed IHC Metabolic Order Form are sent by the specialized treatment facility to IHC for ordering. Orders are shipped from the manufacturer to the main office of the local WIC agency for pick-up by the client/family. Medicaid is billed for the cost of the product. Medicaid is billed for the cost of the product by IHC. The IHC will no longer serve Medicaid Beneficiaries once they transition into managed care.
  - iii. Clients participating in WIC are served through the Nutrition Services Branch (NSB). Prescriptions and completed NSB Metabolic Order Forms are sent by the specialized treatment facility to NSB for ordering. Orders are shipped from the manufacturer to the main office of the local WIC agency for pick-up by the client/family. WIC funds are used to pay the metabolic product invoices.
  - iv. Clients with no other means of access to prescribed metabolic formulas (as determined by the specialized treatment center) are served through a State program. Prescriptions and completed NSB Metabolic Order Forms are sent by the specialized treatment facility to NSB for ordering. Orders are shipped from the manufacturer to the main office of the local WIC

agency for pick-up by the client/family. State funds are used to pay the metabolic product invoices.

- e. The CFSP will need to establish working relationships with the NSB, Specialty Treatment Centers, and metabolic formulas suppliers/manufacturers.

- f. Members with IEM will require tracking while enrolled with the CFSP. If a Member with IEM does not appear on the CFSP monthly Enrollment roster, the CFSP must follow up with the Department, to confirm disenrollment, and specialized treatment facility to assure that the Member has ongoing coverage with another provider. The IEM client requires life-long intervention and treatment and must have the added safety net of the prior CFSP confirming coverage after leaving their plan.

### 2. Scope

The provisions of this Addendum address the requirements related to admissions, authorization of services, event reporting, Grievances and Appeals pertaining to services provided by DSOHF facilities that must be included and reflected in the contract between the CFSP and DSOHF facilities.

### 3. Admissions.

If the CFSP elects to send a representative to appear in court, the representative may be a community provider or other designated provider (e.g., contracted BH provider, hospital or emergency department representative) as determined by the CFSP.*

---

<sup>23</sup> DSOHF also serves individuals with neuro-medical needs in specialized treatment centers that are carved out of Medicaid Managed Care and therefore not included in the CFSP contract.
