1. North Carolina Fee Schedule rates as of 7/1/2025 are posted at the following link (last accessed April 17, 2026): [https://ncdhhs.servicenow.com/fee\\_schedules](https://ncdhhs.servicenow.com/fee_schedules)

2. Historical Medicaid paid claims and beneficiary counts are based on fee-for-service information from the NC MMIS for service dates January 1, 2025 through December 31, 2025 with payment runout through January 31, 2026. An asterisk (\*) indicates that counts smaller than 11 have been suppressed.

3. Hour equivalent units represent total units normalized to a one-hour basis (e.g., four 15-minute units = one hourly equivalent unit). Per diem fee schedule rates have been similarly illustrated based on the State's understanding of typical average number of hours of support provided for each service type.

4. Reimbursement for Homemaker services is determined on a per-service basis rather than a set fee schedule. No hourly equivalent rate is available.

5. Adult Day Health services can be provided in a group setting within an Adult Day Care Facility. Illustrated hourly equivalent rate is shown based on payment per individual per hour.
