1.) North Carolina Physician Fee Schedule rates are posted at the following link (last accessed May 13, 2026): https://ncdhhs.servicenow.com/fee_schedules.

2.) Medicare non-facility payment rates were calculated using RVUs, GCPIs, and conversion factors from the National Physician Fee Schedule Relative Value File Calendar Year 2025D time period (<https://www.cms.gov/medicare/payment/fee-schedules/physician/pfs-relative-value-files>).

3.) Historical Medicaid paid claims and beneficiary counts are based on fee-for-service information from the NC MMIS for service dates January 1, 2025 through December 31, 2025 with payment runout through January 31, 2026. Claim and beneficiary counts are limited to non-facility places of service and are distributed between provider types based on the rendering provider taxonomy associated with the claim. An asterisk (*) indicates that counts smaller than 11 have been suppressed.

4.) The following care management codes from the CMS E&M code list have been excluded from this comparison as there is not a comparative service offered in the State's FFS delivery system. Care management for eligible individuals receiving services through the FFS delivery system is provided through a primary care case management model, which is a form of managed care: 99402, 99403, 99404, 99412, 99415, 99416, 99424, 99425, 99426, 99427, 99437, 99439, 99484, 99487, 99489, 99490, 99491, 99495, 99496, 99497, and 99498.

5.) The State's Local Health Department and Children Developmental Services Agency fee schedules contain codes on the E&M code list. However, these rates have been excluded from the comparison as they are similar to FQHC/RHC or clinic type settings, where the fee schedule rates include additional funding beyond the cost of the service.
