Upcoming Changes to the Roche Rebate program for preferred Roche Diabetic Supplies

North Carolina Division of Medical Assistance (DMA) will no longer be providing the Roche Rebate directly to providers via NCTracks beginning **April 1, 2015**. DMA will continue to provide the State reimbursement and Roche will provide the Roche Provider Rebate.

In order to be eligible for the Roche Provider Rebate, providers must sign a Roche Provider Fee-For-Service Medicaid Program (Rebate) Agreement via the RxVP website by March 31st, 2015 at <https://rxvp.accu-chek.com>. Instructions for signing up are below.

The following chart outlines ACCU-CHEK products covered by North Carolina Medicaid along with the specific reimbursement/rebate amounts:

ACCU-CHEK Products	NDC #	List Price to Wholesaler*	NC State Reimbursement	Roche Provider Rebate
Aviva Plus Test Strips – 50 ct	65702-0407-10	\$70.97	\$29.46	\$43.07
SmartView Test Strips – 50 ct	65702-0492-10	\$70.97	\$29.46	\$43.07
Compact Test Strips – 51 ct	50924-0988-50	\$72.83	\$29.46	\$44.93
Softclix Lancing Device Kit (Blue)	50924-0957-01	\$22.50	\$17.55	\$5.08
Softclix Lancing Device Kit (Black)	65702-0400-10	\$22.50	\$17.55	\$5.08
Multiclix Lancing Device Kit	50924-0446-01	\$22.50	\$17.55	\$5.08
Multiclix Lancets – 102 ct	50924-0450-01	\$12.38	\$10.69	\$2.38
Softclix Lancets – 100 ct	50924-0971-10	\$11.00	\$10.69	\$2.25
Fastclix Lancets – 102 ct	50924-0288-10	\$12.38	\$10.69	\$2.38
Fastclix Lancing Device Kit	65702-0481-10	\$9.99	\$17.55	\$0.00
Aviva Glucose Control Solution (2 levels)	65702-0107-10	\$7.00	\$11.13	\$0.00
Compact Plus Glucose Control Solution (2 levels)	65702-0369-10	\$7.00	\$11.13	\$0.00
Compact Plus Clear Glucose Control Solution (2 levels)	65702-0468-10	\$7.00	\$11.13	\$0.00
SmartView Glucose Control Solution (1 level)	65702-0488-10	\$4.25	\$11.13	\$0.00

* List Price subject to wholesaler mark-ups

After the contract is signed online:

- Beginning April 1st, 2015, Roche will begin collecting North Carolina Medicaid rebate claims, either directly from providers, or via one of Roche's approved Medicaid switch vendors, which include: eRx Network (Emdeon), EZ-DME (Freedom Data Services), OmniSYS, and QS/1 (Powerline).
- Providers not using one of Roche's approved Medicaid switch vendors may submit manual rebate claims available on the RxVP website, or may be requested by emailing: indianapolis.retail_contracts@roche.com.

This revised process will not impact the Net Price or Rebate Program for Medicare Part B patients if providers are currently enrolled.

For RxVP enrollment questions, please contact us at indianapolis.retail_contracts@roche.com. Emails will be responded to within 24 hours Monday through Friday. If email is not an option,

you may contact us at 317-521-7576. Voicemail messages left at this number will be responded to within 48 hours Monday through Friday. We appreciate your continued support of ACCU-CHEK products.

NC Medicaid

RxVP Instructions for Current Medicare Part B Rebate or Net Price Customers

To be eligible for rebates from Roche for North Carolina Medicaid patients, providers must be enrolled in our Medicaid Rebate program. Please follow these instructions:

Log into RxVP account, <https://rxvp.accu-chek.com>

1. Click on the “Click here to sign in” link.

2. Enter original email/password used to create account.
If you have forgotten your password, click on the link as shown below and you will receive an email with a new temporary password:

3. Once on the Home page of your account, go to the Headquarters Section and click the “**Edit**” button.

4. In the Headquarters Section:
 - Click the “Yes” button in the “Accepts Medicaid” section

- Review and validate remaining information in section
- Click on “Save Changes” button

5. A box will appear which states “We believe you may be eligible to enroll in a new RxVP program. If all of your data is updated, click below to process these changes.” Click “Process” button to enroll in new programs.

6. In the “Enroll in new Programs” section, click the “Continue” button to see the programs for which you may qualify.

7. You will be sent through the enrollment process again based on your update(s)...Questions help validate information already provided. Please review for accuracy and click “Continue.”
8. A list of the programs you have qualified for will be displayed on your screen.

9. Click “Enroll” in the program that suits your business, and click “Continue” to sign your agreement(s).

NC Medicaid

RxVP Instructions for New Customers

To be eligible for rebates from Roche reimbursement for North Carolina Medicaid patients, providers must be enrolled in our Medicaid Rebate program. Please follow these instructions:

To complete your enrollment, you will need your DEA number, Federal Tax ID, NCPDP or NPI numbers and contact information for your stores/locations. If you do not have a DEA number, please contact indianapolis.retail_contracts@roche.com for assistance in completing your enrollment.

Visit our website to complete your enrollment at <https://rxvp.accu-chek.com>

1. Click on the “Enroll Now” link.

2. Enter your email address and for your password click on “No, I am a new customer (if first time on RxVP)” and click the “Continue” button.
3. Complete the required fields and submit your information to Roche to validate your email address.
4. You will receive an email to log back into RxVP to complete the enrollment process and execute your Roche Provider Fee-For-Service Medicaid Program (Rebate) Agreement. If you do not receive the confirmation email, check your spam filter or contact us at indianapolis.retail_contracts@roche.com for assistance.

Upcoming Changes in NCPDP D.0 Claims for QMB Cost Sharing

As described in the CMS Informational Bulletin, *Payment of Medicare Cost Sharing for Qualified Medicare Beneficiaries (QMBs)* dated June 7, 2013, Medicaid is legally obligated to reimburse providers for cost sharing that is due for a QMB according to the state's CMS-approved Medicare cost-sharing payment methodology. In addition, the NCTracks system must adjudicate and reimburse providers for QMB cost sharing "without regard to whether the costs incurred were for items and services for which medical assistance is otherwise available under the plan, i.e., not covered by NC Medicaid."

Beginning March 1, 2015, NCTracks will accept values in three fields (353-NR, 351-NP, and 352-NQ) on NCPDP D.0 claims to identify the Coordination of Benefits/Other Payer for Medicare Q-class dual eligible claims. These fields will be used to identify patients' Medicare Coinsurance, Medicare Deductible, and Medicare Copayment amounts.

Providers can access the latest version of the NCPDP D.0/Pharmaceutical Drug Claims Companion Guide located on the NCTracks Trading Partners page for additional information on how to properly submit claims. The NCPDP D.0/ Pharmaceutical Drug Claims Companion Guide can be found at the following link:

<https://www.nctracks.nc.gov/content/public/providers/provider-trading-partners.html>.

Lock-In Program Updates

The beneficiary lock-in program operates in accordance with federal and state laws for the control of beneficiary overutilization of Medicaid benefits. Beneficiaries identified for the lock-in program are restricted to a single prescriber and pharmacy in order to obtain opioid analgesics, benzodiazepines and certain anxiolytics covered through the Medicaid Outpatient Pharmacy Program. Criteria for inclusion in this program can be found at <http://www.ncdhhs.gov/dma/mp/9pharmacy.pdf>.

The first beneficiaries using NCTracks were identified in December, 2014 and received notification letters in January, 2015. Providers with whom the beneficiary will be locked in were notified in February, 2015. These beneficiaries will be locked into one prescriber and one pharmacy for one year for all benzodiazepine and opioid medications beginning **March 1, 2015**. Please contact CSC at 1-866-246-8505 if you have questions.

N.C. Medicaid will reimburse an enrolled Medicaid pharmacy for a four-day supply of a prescription dispensed to a beneficiary locked into a different pharmacy and prescriber in response to an emergency situation. The system will require the pharmacy provider to place a "3" in the Level of Service Field in order to override the lock-in edit.

- The provider will be paid only for the drug cost, and the beneficiary will be responsible for the appropriate copayment.
- One emergency occurrence will be reimbursed per beneficiary during the one year lock-in period.
- Records of dispensing of emergency supply medications are subject to review by Program Integrity.
- Paid quantities for more than a four-day supply are subject to recoupment.

Prescribers Not Enrolled in Medicaid - Institutional NPI Clarification

The Affordable Care Act established a rule that prohibits Medicaid and Children's Health Insurance Programs [such as N.C. Health Choice (NCHC)] from paying for prescriptions written by prescribers who are not enrolled in Medicaid and NCHC programs.

If your system will allow it, pharmacy providers may use an institutional NPI for those providers who are not enrolled but are working for an enrolled institution. Division of Medical Assistance (DMA) is aware of this issue for patients and prescriptions, especially in our border communities servicing out of state hospitals.

72-Hour Emergency Supply Available for Pharmacy Prior Authorization Drugs

Pharmacy providers are encouraged to use the 72-hour emergency supply allowed for drugs requiring prior authorization. ***Federal law requires that this emergency supply be available to Medicaid recipients for drugs requiring prior authorization.*** [Social Security Act, Section 1927, 42 U.S.C. 1396r-8(d)(5)(B)]. Use of this emergency supply will ensure access to medically necessary medications.

The system will bypass the prior authorization requirement if an emergency supply is indicated. A "3" in the Level of Service field (418-DI) should be used to indicate that the transaction is an emergency fill. ***Please Note: Co-payments will apply and only the drug cost will be reimbursed. There is no limit to the number of times the emergency supply can be used.***

Pharmacy Pricing

Effective with a date of service of **January 1, 2015**, DMA made the following changes to pricing of medications per Session Law 2014-100, <http://ncleg.net/Sessions/2013/Bills/Senate/PDF/S744v9.pdf>. **This pricing model IS NOT programed at this time.**

Although this is effective, payments will be made according to these parameters once DMA has approval from the Centers for Medicare & Medicaid Services (CMS) and programming is completed in NCTracks.

The State Plan Amendment submitted to CMS is as follows::

1. Medications will be paid at lessor of the National Average Drug Acquisition Cost, (NADAC), or Usual and Customary, (U&C), price submitted by the pharmacy. NADAC is the Center for Medicare and Medicaid Services, (CMS), survey on drug prices, <http://medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Benefits/Prescription-Drugs/Survey-of-Retail-Prices.html>.
2. In the event that a price is not found on NADAC, the product will be priced at the lessor of Wholesale Acquisition Cost, (WAC), plus 2.7% for non-specialty medications, or State Maximum Allowable Cost, (SMAC), or U&C. Specialty drugs, product that costs more than \$1,500 for a month's supply, will be priced at lessor of WAC + 1%, or SMAC, or U&C.

3. Dispensing Fees will change to the following: \$13 for non-preferred brand product listed on the PDL and \$14 for all other medications dispensed.
4. Federal Upper Limits, (FULs), will no longer be used in the pricing logic. For generic products that you use a DAW 1 in order to be paid enough will no longer be allowed and will pay according to the pricing explained above.

Updated Federal Upper Limit Reimbursement List

Certain drugs have been identified for which the Federal Upper Limit (FUL) reimbursement rate does not cover the cost of the drug. Medicaid pharmacy programs are required to reference this reimbursement information when pricing drug claims. In order to receive adequate reimbursement, pharmacy providers may use the DAW1 override to override the FUL reimbursement rate for the drugs listed on the FUL list until the FUL rate has been adjusted to adequately cover the cost of the drug.

As indicated in previous communications, use of the *DAWI* override code is being monitored. A claim submitted for more than the State Maximum Allowable Cost (SMAC) rate on file may lead to an identifiable overpayment. Any difference between the SMAC rate on file for the date of service and the actual rate applied to the claim (*if higher*) may be considered an overpayment and subject to recoupment.
