**New Clinical Criteria for Medications**

**New DMA Pharmacy Generic Dispensing Rate Report Available**

**72-Hour Emergency Supply Available for Pharmacy Prior Authorization Drugs**

**Updated Federal Upper Limit Reimbursement List**

Published by CSC, fiscal agent for the North Carolina Medicaid Program  
1-866-246-8505

## **New Clinical Criteria for Medications**

Effective August 1, North Carolina Medicaid now requires prior authorization on the following medications: Zubsolv, Juxtapid, Sovaldi, and Olysio. New quantity limits are in place for Epi-Pen, and updates to Botox, Xolair, Kalydeco, Narcotic Analgesics, Triptans, and sedative hypnotics are also in place. Please read the criteria listed at <https://www.nctracks.nc.gov/content/public/providers/pharmacy/pa-drugs-criteria-new-format.html>.

## **New DMA Pharmacy Generic Dispensing Rate Report Available**

The new N.C. Division of Medical Assistance (DMA) Pharmacy Generic Dispensing Rate Report for pharmacy providers is available under Quick Links on the [Pharmacy Services page](#) of the NCTracks Provider Portal. The effective date of the generic dispensing fee adjustments is August 1, 2014.

## **72-Hour Emergency Supply Available for Pharmacy Prior Authorization Drugs**

Pharmacy providers are encouraged to use the 72-hour emergency supply allowed for drugs requiring prior authorization. ***Federal law requires that this emergency supply be available to Medicaid recipients for drugs requiring prior authorization.*** [Social Security Act, Section 1927, 42 U.S.C. 1396r-8(d)(5)(B)]. Use of this emergency supply will ensure access to medically necessary medications.

The system will bypass the prior authorization requirement if an emergency supply is indicated. A "3" in the Level of Service field (418-DI) should be used to indicate that the transaction is an emergency fill. ***Please Note: Co-payments will apply and only the drug cost will be reimbursed. There is no limit to the number of times the emergency supply can be used.***

## **Updated Federal Upper Limit Reimbursement List**

Certain drugs have been identified for which the Federal Upper Limit (FUL) reimbursement rate does not cover the cost of the drug. Medicaid pharmacy programs are required to reference this reimbursement information when pricing drug claims. In order to receive adequate reimbursement, pharmacy providers may use the DAW1 override to override the FUL reimbursement rate for the drugs listed on the FUL list until the FUL rate has been adjusted to adequately cover the cost of the drug.

As indicated in previous communications, use of the ***DAWI*** override code is being monitored. A claim submitted for more than the State Maximum Allowable Cost (SMAC) rate on file may lead to an identifiable overpayment. Any difference between the SMAC rate on file for the date of service and the actual rate applied to the claim (***if higher***) may be considered an overpayment and subject to recoupment.
