

CAP/C Stakeholder Engagement
Email: May 27, 2016

Thank you for providing direct feedback to me concerning the CAP/C policy recommendations. As a result of comments from you and many others, we have decided to suspend work on approval of waiver changes while we work with stakeholders to find the best solution going forward. Below is the statement we have posted to our website concerning this change. Again thank you for taking the time to write us.

Dave
