## **Medicaid Managed Care Pharmacy Billing and Contracting Information**

Beginning July 1, 2021, approximately 1.6 million NC Medicaid and NC Health Choice beneficiaries will transition to having their health care benefits through NC Medicaid Managed Care Prepaid Health Plans (PHPs). This transition includes the pharmacy benefits of these beneficiaries as well. To be able to serve these beneficiaries that will be enrolled in a PHP after 7/1/2021 a pharmacy must be enrolled as an NC Medicaid provider, in addition to being enrolled with the beneficiary's PHP. Please see below for PHPs that will serve beneficiaries, their pharmacy processing information, and provider contracting information.

# Attention: Pharmacy Providers Reminder Regarding the Naloxone Standing Order

North Carolina's standing order for naloxone, signed by the State Health Director in 2016, authorizes any pharmacist practicing in the state of North Carolina and licensed by the North Carolina Board of Pharmacy to dispense naloxone to any person who meets set criteria.

Narcan nasal spray and naloxone (ampule/syringe/vial) are listed as preferred on the North Carolina Medicaid Preferred Drug List for beneficiaries who are at risk of an opioid overdose. NC Medicaid covers Narcan/naloxone through the outpatient pharmacy benefit using either the Naloxone Standing Order or a prescription issued to a beneficiary. Pharmacies are encouraged to dispense naloxone when medically appropriate. For more information on the use of naloxone, visit www.naloxonesaves.org.

## New Preferred Drug List (PDL) Begins June 1, 2021

As a reminder, if a brand is preferred with a Non-Preferred generic equivalent, "medically necessary" is NOT needed on the face of the prescription in order for the brand product to be covered. Claims for preferred brands with non-preferred generics will be reimbursed with a generic product dispensing fee. Claims for preferred brands with no generic or preferred brands with preferred generics will be reimbursed with a brand dispensing fee.

When a PDL class has a preferred brand with a non-preferred generic, providers requesting prior approval for the non-preferred generic should give a clinical reason why the beneficiary cannot use the brand.

## 72-Hour Emergency Supply Available for Pharmacy Prior Authorization Drugs

Pharmacy providers are encouraged to use the 72-hour emergency supply allowed for drugs requiring prior approval. Federal law requires that this emergency supply be available to Medicaid beneficiaries for drugs requiring prior approval (Social Security Act, Section 1927, 42 U.S.C. 1396r-8(d)(5)(B)). Use of this emergency supply will ensure access to medically necessary medications.

The system will bypass the prior approval requirement if an emergency supply is indicated. Use a "3" in the Level of Service field (418-DI) to indicate that the transaction is an emergency fill.

**Note:** Copayments will apply and only the drug cost will be reimbursed. There is no limit to the number of times the emergency supply can be used.
