North Carolina Division of Health Benefits		
North Carolina Medicaid and Health Choice Preferred Drug List (PDL)		
Effective: January 1, 2021		
Trial and failure of two Preferred drugs are required unless only one Preferred option is listed or is otherwise indicated.		
Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to		
trial and failure criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until reviewed by the PDL Panel. These drugs are listed as NOT REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:		
https://www.nctracks.nc.gov/content/public/providers/pharmacy.html
