Effective: September 1, 2020

Trial and failure of two Preferred drugs are required unless only one Preferred option is listed or is otherwise indicated.

Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to

trial and failure criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until

reviewed by the PDL Panel. These drugs are listed as NOT REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at: https://www.nctracks.nc.gov/content/public/providers/pharmacy.html

More information on the PDL can be found at: https://medicaid.ncdhhs.gov/providers/programs-services/prescription-drugs/outpatient-pharmacy-services

Yellow shade signifies a new product being added as a new to market Non-Preferred product **OR** current coverage is being clarified

Orange shade signifies a significant change to the drug, category, or a clinical recommendation

Pink Shade signifies an Off-Cycle PDL move from Preferred to Non-Preferred or vice versa

Green shade signifies a Brand / Generic switch within the same category

Purple shade signifies a product either no longer covered (rebatable) or no longer available from the manufacturer

Trial and failure of two Preferred drugs are required unless only one Preferred option is listed or is otherwise indicated.

Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to trial and failure criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until reviewed by the PDL Panel. These drugs are listed as NOT REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

Trial and failure of two Preferred drugs are required unless only one Preferred option is listed or is otherwise indicated.

Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to trial and failure criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until reviewed by the PDL Panel. These drugs are listed as NOT REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at: https://www.nctracks.nc.gov/content/public/providers/pharmacy.html

More information on the PDL can be found at: https://medicaid.ncdhhs.gov/providers/programs-services/prescription-drugs/outpatient-pharmacy-services

North Carolina Medicaid and Health Choice Preferred Drug List (PDL)

Effective: September 1, 2020

Trial and failure of two Preferred drugs are required unless only one Preferred option is listed or is otherwise indicated.

Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to trial and failure criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until reviewed by the PDL Panel. These drugs are listed as NOT REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

North Carolina Medicaid and Health Choice Preferred Drug List (PDL)

Effective: September 1, 2020

Trial and failure of two Preferred drugs are required unless only one Preferred option is listed or is otherwise indicated.

Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to trial and failure criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until reviewed by the PDL Panel. These drugs are listed as NOT REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

https://www.nctracks.nc.gov/content/public/providers/pharmacy.html More information on the PDL can be found at: https://medicaid.ncdhhs.gov/providers/programs-services/prescription-drugs/outpatient-pharmacy-services
