Pharmacy Point of Sale Override Code 18

Effective Nov. 10, 2019, NC Medicaid now accepts code “18” in the Submission Clarification Code field (420-DK) for early refill alerts related to long term care patient admissions/readmissions. By entering this code, the pharmacy is indicating that the transaction is for new dispensing of medication due to the patient’s admission or readmission status. Pharmacies should ensure the code is used only when appropriate and make sure that supportive documentation is maintained as part of the pharmacy record.

As a reminder, if a brand is preferred with a Non-Preferred generic equivalent, “medically necessary” is NOT needed on the face of the prescription in order for the brand product to be covered. Claims for preferred brands with non-preferred generics will be reimbursed with a generic product dispensing fee. Claims for preferred brands with no generic or preferred brands with preferred generics will be reimbursed with a brand dispensing fee.

When a PDL class has a preferred brand with a non-preferred generic, providers requesting prior approval for the non-preferred generic should give a clinical reason why the beneficiary cannot use the brand.

72-Hour Emergency Supply Available for Pharmacy Prior Authorization Drugs

Pharmacy providers are encouraged to use the 72-hour emergency supply allowed for drugs requiring prior approval. **Federal law requires that this emergency supply be available to Medicaid beneficiaries for drugs requiring prior approval** (Social Security Act, Section 1927, [42 U.S.C. 1396r-8\(d\)\(5\)\(B\)](#)). Use of this emergency supply will ensure access to medically necessary medications.

The system will bypass the prior approval requirement if an emergency supply is indicated. **Use a “3” in the Level of Service field (418-DI) to indicate that the transaction is an emergency fill.**

Note: Copayments will apply and only the drug cost will be reimbursed. There is no limit to the number of times the emergency supply can be used.
