NC Medicaid Actual Expenditure v. Budget

NC Medicaid finished SFY 2022 with a \$49m surplus, compared to a \$201m surplus in SFY 2021.

• Source: BD701 actuals as of June 2021 and June 2022

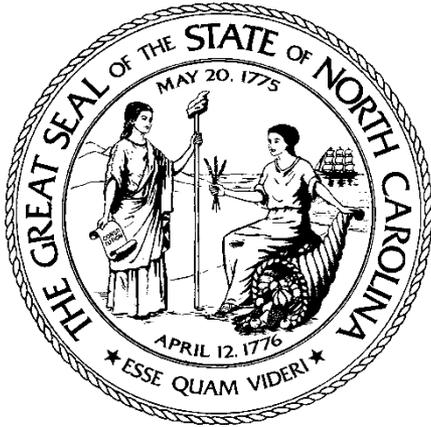

NC Medicaid ended the year with a \$49m surplus

- Extension of the public health emergency and the enhanced FMAP rate produced net gain
- Funding COVID rate increases for HCBS services with ARPA receipts offset appropriations spend
- Extending COVID rate increases for SNF, PCS through June 30, 2022 added cost
- General Assembly retroactively appropriated \$52.8 m for the SNF, PCS increases

Things to Watch in SFY 2023

Key Factors:

- **Uncertainty regarding PHE end date**
 - **Enrollment**
 - **FMAP**
- **Continuation of SNF/PCS Rates**
- **New High-cost Pharmaceuticals**
- **Implementation of Tailored Plans**
- **Medicaid Expansion**

Advanced Medical Home –Look Back FY2022

- **What is an AMH?**
 - An AMH is a primary care practice that transforms care delivery in order to reduce the cost of care, improve the quality of care, enhance patient experience, and strengthen the primary care workforce.
- **What is the AMH Program?**
 - The AMH program was developed as the primary vehicle for care management as the state transitioned to Medicaid Managed Care (launched July 1, 2021). It builds on the Carolina ACCESS program, a care management program implemented prior to the Medicaid Transformation and that is currently used with NC Medicaid Direct.
 - The AMH program was designed to encourage data-driven primary care that aligns with the Department's vision for advancing value-based payment models.
 - Under the AMH program, there are three AMH tiers, each with different responsibilities.
- **AMH Tier 3**
 - Responsible for member care management
 - Eligible for value-based payment that use a standard set of quality measures

Managed Care Beneficiaries by AMH Tier Over Time

- **Advanced Medical Home (AMH) Tier 3s assume primary responsibility for care management, either directly or through a Clinically Integrated Network (CIN)**
- **Goal is to have $\geq 80\%$ of Standard Plan members at an AMH Tier 3**
- **Under AMH Tier 1 and 2 practices, Standard Plans retain primary responsibility for care management**
