Cancellation of Password Management Initiative for NCECS Web Tool and Secure FTP Users

The *March 2013 Medicaid General Bulletin* informed providers that NCECS Web Tool and Secure FTP users must enroll in the new Password Management Capability by April 1, 2013 or risk losing connectivity to the N.C. Medicaid system. Due to the upcoming launch of the replacement Medicaid Management Information System (MMIS), the N.C. Division of Medical Assistance (DMA) has decided not to proceed with the Password Management Initiative. **Effective immediately, enrollment in the NCECS Web Tool and Secure FTP Password Management Capability is no longer required.** Providers who have not enrolled will not be adversely affected. Providers who have enrolled may continue using the new passwords they have established. If you have questions regarding this communication, contact the HP Enterprise Services ECS Unit at 1-800-688-6696, menu option 1.
