# Penalties and Interest Assessments Implemented by the Medicaid Program as a Result of N.C. General Statute 147-86.10

This article serves as a reminder of the Medicaid program's responsibility for effective management of funds as stated in NCGS 147-86.10 and the impact of this legislation on the provider community.

Effective October 1, 1999, the Medicaid program implemented the legislation enacted by NCGS 147-86.10. The legislation requires state agencies to devise techniques and procedures for the receipt, deposit, and disbursement of moneys coming into their control and custody, which are designed to maximize interest-bearing investment of cash, and to minimize idle and nonproductive cash balances.

As a result of this legislation, all balances due to the Medicaid program NOT returned or paid within 30 days will automatically be assessed a one-time 10 percent penalty and interest on an accumulative basis. The assessed interest rate is based on the variable rate set by the N.C. Department of Revenue (NC DOR). The current interest rate is 8 percent. To ensure compliance with any changes made by the NC DOR, the interest rate will be updated.

The following list summarizes the primary changes initiated as a result of NCGS 147-86.10. Special Bulletin V issued in October 1999 provides additional details and examples of these processing changes.

- 1. <u>Penalty and Interest Assessments</u> Medicaid adjustments or other types of money due to the Medicaid program, whether identified by the Division of Medical Assistance (DMA), or initiated through audits and edits of the Medicaid program, or at the request of or known by the provider, which are not paid-in-full by claim payment or refunds within 30 days of processing are assessed a one-time 10 percent penalty and 8 percent interest on the outstanding balance. Interest is assessed on the total outstanding balance every subsequent 30-day period until the total balance is paid-in-full. DMA's Financial Operations section will consider provider's requests for a payment plan only in cases of extreme financial hardship. In such cases, DMA will establish the payment amount and a schedule for repayment.
- 2. <u>Transfers of Adjustment Balances</u> Any aged adjustment balance will be transferred from an inactive provider (no claims payment) to an active provider (claims payment) if it has been determined that a provider is operating under the same identification number and, therefore, the same tax entity. Additionally, the appropriate assessment of penalty and interest will be applied and transferred. Interest will continue to accumulate on the transferred balance until the total balance is paid-in-full. Balances will be transferred for immediate collection based on the following criteria:
  - No payment has been received and the adjustment balance is more than 30 days old.
  - Only partial payment has been received and the adjustment balance is more than 60 days old.
  - If another provider with the same tax identification exists within the Medicaid program.
  - A provider with the same tax identification number is actively submitting claims and receiving payment from Medicaid
- 3. <u>Medicaid Remittance and Status Advice (RA) Modifications and New Explanation of Benefit</u> For each change noted above, the Medicaid RA has been modified to detail all financial transactions to support reconciliation between payment and claims transaction data.

This article summarizes the primary changes initiated as a result of the legislation enacted by NCGS 147-86.10. Refer to Special Bulletin V issued in October 1999 for additional details and examples of these changes.

James B. Hunt Jr., Governor

H. David Bruton, M.D., Secretary

December 1, 2000

Dear Fellow Physicians,

We have been running our Medicaid program on the belief that if we provide our physicians with correct information, they will practice clinically appropriate medicine. We have a problem of rapidly increasing drug costs. This is a complex problem that is not fully understood. Please read the following report summary prepared by Dr. Kenneth Fink, RWJ Clinical Scholar at the University of North Carolina-Chapel Hill.

We must all work together to prove that good clinical medicine is cost effective.

Sincerely,

H. Wind Brotom

H. David Bruton, M.D.

A study was recently conducted evaluating the prescription expenditures in North Carolina's Medicaid program. Three continuous years of data from July 1, 1997 through June 30, 2000 were analyzed to identify the factors contributing to the rapidly rising prescription expenditures. In 1998, Medicaid prescription costs totaled \$461 million which increased to \$748 million in 2000 - a 62% increase. The factors that were evaluated in the study included the number of people enrolled in Medicaid during the year, the length of enrollment, the number of prescriptions written, the costs of the medications, and physicians' prescribing patterns.

Compared to 1998, 2.3% (27,543) more people were served by the Medicaid program in 2000, and the average length of enrollment increased by 5.5% (0.5 months) to 9.6 months. These factors accounted for 14% of the increase in prescription expenditures. In 1998, a patient enrolled in Medicaid for the entire year filled an average of 13.0 prescriptions. This increased to an average of 15.5 prescriptions filled in 2000. This could suggest the physicians were prescribing more frequently. This change accounted for 36% of the increase in prescription expenditures from 1998 to 2000. The total number of patient visits and complexity of visits were measured to potentially explain the apparent rise in prescribing, but the levels remained unchanged or decreased.

The costs of the medications increased during this period. The average price per dose for the twenty drugs with the greatest expenditures increased by about 4.2% annually, or just slightly above the rate of inflation. However, the average cost per prescription increased by 27% from \$39 in 1998 to \$49 per prescription in 2000. This phenomenon reflects the change in prescribing patterns to favor more expensive drugs (Table 1). For example, the number of tablets dispensed of H<sub>2</sub>-blockers (i.e. Zantac and Pepcid) is decreasing while the number of tablets dispensed of proton pump inhibitors (i.e. Prilosec and Prevacid) is increasing. This finding would suggest that physicians are more frequently prescribing proton pump inhibitors as first line therapy. In another example, the selective cyclo-oxygenase-2 inhibitors (i.e. Celebrex and Vioxx) introduced in 1999 have become among the most frequently prescribed medications in 2000. This change in prescribing patterns accounted for 50% (\$143 million) of the increase in prescription expenditures. The more expensive medications are often more effective; some have been shown to reduce physician visits and hospitalizations and to improve patients' quality of life. The key factor in this, however, is that the correct medication needs to be prescribed for the right person.

The North Carolina Medicaid program has an open formulary, like all states, as required by the 1990 OBRA legislation. However, North Carolina's program does not restrict its formulary by using strategies such as prior authorization or therapeutic interchange, that are utilized by other states. The manner in which this state's Medicaid prescription program is conducted reflects the state's trust that physicians prescribe appropriately and judiciously. If prescription expenditures continue to increase, the state may need to implement strategies to control costs, which may interfere with physicians' autonomy. Physicians can potentially avoid this by prescribing appropriately and judiciously.

## Attention: All Prescribers

# Conversion from UPIN Numbers to DEA Numbers on Pharmacy Prescriptions and Claims

The Division of Medical Assistance (DMA) is now requiring DEA numbers on all recipient pharmacy claims instead of UPIN numbers. Providers must have their DEA registration number on file. Failure to do so may result in denied claims. If a prescriber does not have a DEA number and needs to issue prescriptions to recipients served by the Medicaid program, the prescriber should contact the DUR Section at 919-733-3590.

An identification number (ID) will be issued in lieu of the DEA number. The ID number, following the same format as the DEA number, will always begin with a Z (for example, ZF1234567). Prescribers will need to enter this number on their Medicaid prescriptions. This number is referred to as a MEDICAID IDENTIFICATION NUMBER only and should not be referred to as a DEA number.

If EDS Provider Enrollment does not have your updated information, please copy, complete, and return the following form for each prescriber in your practice. Please send the information to the following address:

## Tax Identification Information

#### <u>Alert – Tax Update Requested</u>

North Carolina Medicaid must have the proper tax information for all providers. This ensures correct issuance of 1099 MISC forms each year and that the correct tax information is provided to the IRS. Inappropriate information on file can result in the IRS withholding 31% of a provider's Medicaid payments. **Be sure the individual responsible for maintenance of tax information receives the following information.** 

#### How to Verify Tax Information

The last page of the Medicaid Remittance and Status Advice (RA) indicates the provider tax name and number that Medicaid has on file. Refer to the Medicaid RA throughout the year for each provider number to ensure Medicaid has the correct tax information on file. The tax information needed for a group practice is as follows: (1) Group tax name and group tax number (2) Attending Medicaid provider numbers in the group. If a Medicaid RA is needed, call EDS Provider Services 919-851-8888 or 1-800-688-6696 to verify the tax information on file for each provider number.

Providers should complete a Special W-9 (see next page) for all provider numbers with **incorrect** information on file. Instructions for completing the Special W-9 are listed below.

- Fill in the North Carolina Medicaid Provider Name Block (must be completed).
- Fill in the North Carolina Medicaid Provider Number (**must be completed**).
- <u>Part I Correction field</u> Indicate tax identification number exactly as the IRS has on file for the provider's business. Do not insert a Social Security Number unless the business is a sole proprietorship or individually owned and operated.
- <u>Part II Correction field</u> Indicate tax name exactly as the IRS has on file for the provider's business.
- <u>Part III</u> Indicate the appropriate type of organization for the provider's business. If a Social Security Number is indicated as the tax identification number, select individual/sole proprietor as the type of organization.
- <u>Part IV</u> An authorized person **MUST** sign and date this form, or it will be returned as incomplete and the tax data on file with Medicaid **will not** be updated.

#### Send Completed and Signed Forms by December 8, 2000 to:

#### Change of Ownership

Contact DMA Provider Services at 919-857-4017 to report all changes in business ownership. If necessary, a new Medicaid provider number will be assigned and Provider Services will ensure the correct tax information is on file for Medicaid payments.

If DMA is not contacted and the incorrect provider number is used, that provider will be **liable for taxes** on income not necessarily received by the provider's business. DMA will assume no responsibility for penalties assessed by the IRS or for misrouted payments prior to written receipt of notification of ownership changes.

#### Group Practice Changes

When a physician leaves or a physician is added to a group practice, contact DMA Provider Services to update Medicaid enrollment and tax information.

Remember, without notifying DMA Provider Services, the incorrect tax information could remain on file and your business could become liable for taxes on Medicaid payments you did not receive.

# **C**overage of 7-Valent Pneumococcal Polysaccharide-Protein Conjugate Vaccine (PCV7)

Distribution of PCV7 (7-valent pneumococcal polysaccharide-protein conjugate vaccine, CPT code 90669) began on November 1, 2000 through the Universal Childhood Vaccine Distribution Program (UCVDP). PCV7 is available for all Medicaid-eligible children aged 0 through 59 months through the Vaccines for Children Program (VFC). Effective with dates of service November 1, 2000, the N.C. Medicaid program will reimburse providers for the administration fee (W8012) when billing criteria is met (see **Billing Information** below).

Prevnar is the brand name for PCV7 and is marketed by Wyeth Lederle Vaccines. Currently, it is the only pneumococcal polysaccharide-protein conjugate vaccine available.

Please see the Centers for Disease Control and Prevention's Advisory Committee on Immunization Practices (ACIP) Statement, released October 6, 2000, regarding usage and dosage recommendations. The document can be found on the Internet at <u>www.cdc.gov/nip</u>.

#### **Billing Information**

Providers must report PCV7 (CPT code 90669) when billing the vaccine administration fee (W8012). CPT code 90669 must be listed with the appropriate modifiers. Health departments may not bill an administration fee (W8012) if the vaccine is given on the same day as a Health Check screening. Private physicians may bill an administration fee (W8012) on any day a vaccine is administered, even if it is given on the same day as a Health Check screening.

## Attention: Inpatient Psychiatric Hospital Providers

## Reminder of Importance of Timely "Peer-to-Peer" Reviews

First Health of Tennessee (FH) performs utilization reviews of inpatient services in all psychiatric hospitals and in specified general hospitals for individuals under the age of 21, and through 64 years of age in psychiatric units of specified general hospitals. This includes preadmission and concurrent review. As a result of this review, either additional days are certified because the information is completed and the client meets criteria for continued stay, or the case is referred for a physician consultation due to insufficient information to justify the stay.

At this time, FH arranges a "peer-to-peer" telephone conference between the consulting physician and the attending physician to discuss the case and to obtain more information. Reasonable attempts (two phone calls) by FH to contact the attending physician within a 24-hour period will be made.

Should the facility wish to set up a peer-to-peer review, the facility representative will provide the FH reviewer with the phone number of the client's physician. The FH customer service representative for North Carolina will then schedule a time for the completion of the peer-to-peer review. The Division of Medical Assistance requests all participants to follow through with the peer-to-peer review within a 72-hour time frame. The physician should designate a back-up to participate in the review in the event that they are unable to participate. If a conference is scheduled and it is subsequently decided that the conference is not needed, please call and cancel.

Failure of the client's physician to keep the appointment for the peer-to-peer consultation results in denial of continued stay for the client. This denial is an administrative or technical denial and there is no appeal process for the client.

# Renovation of the MMIS System – Identification Tracking Measurement Enhancement (ITME) Project

The Division of Medical Assistance (DMA) is upgrading and enhancing the Medicaid Management Information System (MMIS). The goals of the renovation, as noted in the April, 2000 Bulletin, are:

- more efficient claims processing
- improved flexibility to administer special programs and experiment with new methods for program oversight
- begin use of web-based technologies

The enhancements will include minimal changes to the Remittance and Status Advice (RA), submission of adjustment requests, prior approval, and voice response and eligibility verification systems.

Changes to the following parts are detailed in the Provider Impact section of this article.

Part I - Remittance and Status Advice Part II - Adjustment Requests – NEW FORM Part III - Prior Approval (PA) Part IV - Automated Voice Response (AVR) System and Eligibility Verification System (EVS)

#### **Implementation Schedule**

**Updated Implementation Date:** The implementation of system changes for the ITME project has been extended to February 9, 2001. The revised date of February 9, 2001 supercedes the original implementation date reflected in the September and October, 2000 ITME bulletin articles. Please note that all references to effective dates in the remainder of this article have been revised to reflect the extended date of February 9, 2001.

The RA will reflect the changes noted in Part I beginning February 9, 2001. Part II reflects the new N.C. Medicaid adjustment form. Use of this form is required as of February 9, 2001. Part III provides new instructions for submitting services that have been prior approved. Part IV addresses changes to the AVR System and EVS resulting from this enhancement.

#### Provider Impact Part I: Remittance and Status Advice (RA) - See Example 1

RA modifications/format changes will be kept to only those that are necessary in conjunction with the ITME project. Overall, the RA will look very similar to the current format. Please note the format changes on the RA sample following this article (Example 1).

#### Addition of Financial Payer Code

A financial payer code follows the claim internal control number (ICN) in the first line of the claim data reflected on the RA. This financial payer code denotes the entity responsible for payment of the claims listed on the RA. Upon implementation, N.C. Medicaid will be the only financially responsible payer; therefore, the N.C. Medicaid payer code of NCXIX (five characters) will be reflected.

#### Addition of Population Group Payer Code

The RA reflects the population payer code for each claim detail. The population payer code is printed at the beginning of each claim detail line on the RA. The population payer code denotes the special program/population group from which a recipient is receiving Medicaid benefits. Examples of population payer codes are as follows:

Code	Name	Description
CA-I	Carolina ACCESS	All recipients enrolled in Medicaid's Carolina ACCESS program
CA-II CA-II	ACCESS II	All recipients enrolled in Medicaid's ACCESS II program
CAB	ACCESS III –	All recipients enrolled in Medicaid's ACCESS III program for
	Cabarrus County	Cabarrus County
PITT	ACCESS III – Pitt	All recipients enrolled in Medicaid's ACCESS III program for
	County	Pitt County
HMOM	Health Management	All recipients enrolled in Medicaid's HMO program
	Organization (HMO)	
NCXIX	Medicaid	All recipients not enrolled in any of the above noted population
		payer programs. Any recipient not identified with Carolina
		ACCESS, ACCESS II, ACCESS III, or HMO will be assigned
		the NCXIX population payer code to identify them with the
		Medicaid fee-for-service program.

Other population payers may be designated by DMA in the future.

#### Addition of new totals following the current claim total line

An additional line is added following each claim total line of the paid and denied claim sections of the RA for the following claim types: Medical (J), Dental (K), Home Health, Hospice and Personal Care (Q), Medical Vendor (P), Outpatient (M), and Professional Crossover (O). This additional line reflects original claim billed amount, original claim detail count, and total number of financial payers. Upon implementation February, 2001, N.C. Medicaid will be the only financial payer; these new totals will reflect the submitted claim totals.

These additional totals do not appear for claim types Drug (D), Inpatient (S), Nursing Home (T), and Medicare Crossover (W) since they are not processed at the claim detail level and will not have multiple financial payers assigned, based on current N.C. Medicaid billing policy.

#### Addition of a new summary page at end of RA

For each Medicaid population payer identified on the paper RA, a new summary page showing total payments by population payer is provided at the end of the RA. This provides population payer detail information for tracking and informational purposes.

#### New specifications for Tape RA

Updated specifications have been mailed to all Tape RA Providers. If you are currently receiving a Tape RA and have not received the updated specifications, or have questions regarding the changes, please contact Glenda Raynor, Manager of EDS Electronic Commerce Services, at 919-851-8888 extension 5-3099.

#### Part II: Adjustment Requests – NEW FORM (Example 2)

The N.C. Medicaid program will begin using a new RA format in February 2001. This new format affects the way adjustment request forms are completed by the provider and processed by EDS. The appropriate "financial payer" information found on the new RA will be required on all adjustment request forms after February 9, 2001. DMA and EDS have implemented a new adjustment request form to help with these changes. One of the predominant changes is in the "claim number" field. This area is now identified with twenty boxes, each box for one number of the referenced claim number. Until February 9, 2001, there will be five empty boxes at the end of the claim number. After the February 9, 2001 implementation of the MMIS enhancements, these spaces will be used for the financial payer code information. Providers may begin using this new adjustment request form now if it facilitates implementing these changes. (Refer to example of claim field below.) Please contact EDS Provider Services with questions about the new format and processing of an adjustment request.

Claim # field on Adjustment form from RA prior to February 9, 2001:

Claim # field on Adjustment form from RA after February 9, 2001:

#### **Part III: Prior Approval (PA)**

Effective February 9, 2001, entering the prior approval number on the claim form by the provider to receive payment for services rendered will no longer be required. This holds true for all prior approved Medicaid services, regardless of the entity giving the prior approval.

Prior approval requirements and the criteria for approval of services have not changed. Those services that previously required prior approval before the implementation of the enhanced MMIS will continue to require prior approval. If a service was approved prior to February 9, 2001 but was not provided or billed until after February 9, 2001, the original prior approval is still valid. The MMIS will verify that prior approval was obtained before claims payment can occur. If the services being submitted on the claim form require prior approval, and approval has not been obtained, that claim will be denied. The only change is that the input of the prior approval number is no longer required on the claim form by the provider as of February 9, 2001.

#### Part IV: Automated Voice Response (AVR) System and Eligibility Verification System (EVS)

These systems will be enhanced with new messages that will explain under which special Medicaid program or programs a recipient is enrolled as a participant. Additional information regarding these system enhancements will be provided in subsequent bulletin articles.

# Attention: Physicians and CRNAs Billing for Dental Anesthesia

Physicians and CRNAs administering anesthesia for dental procedures must bill procedure code 40899 appended with either modifier YA or QS. The time, in units, must be entered in block 24G of the HCFA-1500 claim form. One minute equals one unit. The detail will deny if procedure code 40899 is billed without an anesthesia modifier.
