Target Populations for Referrals¹

Child with Special Health Care Needs (CSHCN) - Defined as a child at increased risk for a chronic physical, developmental, behavioral, or emotional condition that has lasted or is expected to last at least 12 months and who requires health and related services of a type or amount beyond that required by children generally.
Specific concern: _____
If developmental concern, has child been referred for Early Intervention Services? Yes No

Child in Foster Care

Infant in Neonatal Intensive Care Unit (NICU)

Child Exposed to Toxic Stress.
*Toxic stress includes, but is not limited to:

- Current domestic/family violence
- Caregiver unable to meet infant's health and safety needs/neglect
- Parent(s) has history of parental rights termination
- Incarcerated parent or guardian
- Active alcohol or substance use by caregiver
- CPS Plan of Safe Care referral for "Substance Affected Infant"
- Unstable home
- Unsafe where child lives
- Parent/guardian suffers from depression or other mental health condition
- Homeless or living in a shelter
- Other Please specify: _____

Medical Home Referral²

Check here if primary care provider (listed above) would like to make a direct referral for CMARC.
Specify reason for referral if not indicated above: _____

Notes:
¹ If any of the boxes under "Target Populations for Referral" is checked, the child is eligible for CMARC and will receive a comprehensive health assessment.
² If the Medical Home provider checks the "direct referral" box, the child is automatically referred for CMARC. The CMARC care manager may contact the Medical Home to clarify the need, as appropriate.
