

PREGNANCY MEDICAL HOME

Presented by:

Kate Berrien, RN, BSN, MS

CCNC Pregnancy Home Project

Coordinator

Marianne Diana

HP Enterprise Services

March 2011

AGENDA

- CCNC Network
- Pregnancy Medical Home (PMH) Program Overview
- PMH Incentives
- PMH Billing
- EPSDT
- Q&A Session

COMMUNITY CARE OF NORTH CAROLINA

**Statewide program for managing
the Medicaid population**

KEY GOALS

- Primary Goal—
 - Improving care quality & health outcomes,
 - Reducing costs
- Began with the goal of increasing access to care for Medicaid patients in rural NC
- Focused initially on linking patients to medical homes to decrease unnecessary ED use
- Evolved into partnering with those providers on care quality and cost reduction

KEY STRATEGIES

- Started by targeting key chronic diseases, such as asthma, diabetes, heart failure, COPD
 - Costly complications if not well managed
 - Gaps in care between everyday standard of care and national, evidence based treatment guidelines

KEY STRATEGIES

- Created a system of supporting providers and patients

- **For Providers**

- Providing Treatment Guidelines at the Point of Care
- Providing Level 1, unbiased CME education
- Supporting improved care for all patients, not just Medicaid

- **For Patients**

- Use team of care managers (Mostly RNs) to reinforce provider's plan of care between visits
 - Home visits, practice encounters, phone calls, etc
- Connect the dots between multiple providers
- Link patients with needed services/self-management

**SHIFT IN FOCUS TO
TRANSITIONAL CARE
Aged, Blind, and Disabled**

KEY STRATEGIES-AGED, BLIND, DISABLED

- Became clear in last 2 years that we needed to do more for the sickest population on Medicaid
- Changed focus to Aged, Blind, and Disabled recipients-
 - **The 30% who cost 70%, multiple chronic diseases, in and out of hospital**
- Focus on evidence-based strategies to improve transition from hospital to home, prevent readmits

KEY STRATEGIES—TRANSITIONAL CARE

- Acting as a low tech Health Information Exchange—
 - See patient bedside & Conduct home visit within 3 days of discharge
 - Reconcile medications to discharge paperwork, team of PharmDs review for discrepancies
 - Alert PCP of discrepancies, (avg 4.6), and other findings
 - Link patients back to PCP for follow up and to other services (mental health, home health, etc.)
 - Once stable, provide ongoing education on self-management, medications, equipment, red flags of worsening conditions, etc.
- Goal is to prevent unnecessary hospitalizations, readmits and ED visits

STRUCTURE

Statewide Program of 14 Local
Networks

HOW THIS IS OPERATIONALIZED

- 14 local Networks across all 100 counties
- Non-profits, operate in partnership with hospitals, health depts, DSS, PCPs, mental health, long term care, AHECs, safety net agencies, and others
- Physician led—all networks have a Clinical Director
 - They convene with their peers to identify needed initiatives, best practices, etc.
 - Add additional physician consultants to team for specific clinical initiatives (pediatricians, psychiatrists, OBGYNs, etc)

EACH CCNC NETWORK HAS:

- Clinical Director(s)
- Network Psychiatrist(s)
- Network Director
- Nurse and Social Worker Care Managers
- Network Pharmacist (s)
- Quality improvement coordinator
- Informatics System Managers

HOW THIS IS OPERATIONALIZED

- Primary Care Practices enroll in networks if willing to engage in QI; additional reimbursement to those who join
 - Now more than 4500 Primary Care Physicians (1360 medical homes)
- Over one million Medicaid enrollees enrolled in CCNC statewide
- Community Care of the Lower Cape Fear has @ 130 practices, 60,000 patients, 55 employees, 6 counties (Bladen, Brunswick, Columbus, New Hanover, Onslow, and Pender)

CCNC NETWORK MAP:

[HTTP://WWW.COMMUNITYCARENC.COM/](http://www.communitycarenc.com/)

Community Care of North Carolina Access II and III Networks

Legend

- AccessCare Network Sites
- AccessCare Network Counties
- Access II Care of Western North Carolina
- Access III of Lower Cape Fear
- Carolina Collaborative Community Care
- Carolina Community Health Partnership
- Community Care of Wake / Johnston Counties
- Community Care Partners of Greater Mecklenburg
- Community Care Plan of Eastern Carolina
- Community Health Partners
- Northern Piedmont Community Care
- Northwest Community Care Network
- Partnership for Health Management
- Sandhills Community Care Network
- Southern Piedmont Community Care Plan

KEY PROGRAM ASSET- DATA

- Informatics Center - Medicaid claims data
 - Utilization (ED, Hospitalizations)
 - Providers (Primary Care, Mental Health, Specialists)
 - Diagnoses
 - Medications
 - Labs
 - Costs
 - Individual and Population Level Care Alerts
- Real-time Data
 - Hospitalizations, ED visits, Provider referrals

PROGRAM PERFORMANCE

**New Directions in Community
Care**

PERFORMANCE

- Measured on
 - Patient Health Outcomes—including:
 - Hospitalization Rate
 - Readmit Rate
 - ED Rate
 - Cost savings
 - Changes in Provider Patterns—including:
 - Increased use of lower cost medications, rate of e-rx
 - Provider adherence to evidence-based treatment guidelines (conduct chart audits on adherence to standards)

PERFORMANCE

- Won Harvard Award for Innovations in American Government—the coveted award for public programs
- Saved State over a billion dollars—approx \$200 million per year in recurring savings
- Being asked to do more as a result--
 - Integration of Physical and Mental Health
 - Palliative Care
 - High Risk OB
 - Expanding to other populations—Medicare, Blue Cross, State Employees

CCNC & PREGNANCY HOME

- CCNC approach---Focus on best practices for providers and care management of high risk patients
- Network OB team (physician champion and nurse coordinator) to support this model
- CCLCF:
 - OB Physician will be clinical champion of best practices
 - OB Nurse Coordinator
- Pregnancy Care Managers—will work with high risk patients to help them manage their care

QUESTIONS?

PREGNANCY MEDICAL HOME PROGRAM OVERVIEW

**Kate Berrien, RN, BSN, MS
Community Care of North Carolina
Pregnancy Home Program
Coordinator**

PREGNANCY MEDICAL HOME

- Goal: Improve birth outcomes in North Carolina by providing evidence-based, high-quality maternity care to Medicaid patients
- Provide pregnant Medicaid recipients with a PMH
 - Modeled after enhanced primary care case management (PCCM) program developed by CCNC
- Any pregnant women eligible for Medicaid pregnancy-related services can participate

ENROLLMENT CRITERIA

Providers must be enrolled with N.C. Medicaid as one of the following:

- General/Family Practice, OB/GYN, or Multi Specialty Physician Group
- Federally Qualified Health Clinic (FQHC)
- Rural Health Clinic (RHC)
- Local Health Department
- Nurse Practitioner
- Nurse Midwife

HOW TO BECOME A PMH PROVIDER

- Practice signs contract with local CCNC network
- Include all doctors/nurse practitioners/nurse midwives in the practice
- Keep Medicaid informed of provider changes
 - Additions or deletions of practitioners
- Use Medicaid Provider Change Form for updates

EFFECTIVE DATE OF PMH CONTRACT

- If signed before the 19th of the month, effective first day of following month
- If signed after the 19th, still effective first day of following month BUT providers must hold claims until the 15th
- Contract will remain active unless termination is requested
 - Can be terminated by either party

CAROLINA ACCESS AND PMH

- A practice can be both a CCNC primary care medical home and a pregnancy medical home
 - Different performance measures and payment structure
- If a practice has signed a contract with the CCNC network to serve as a pregnancy medical home, ALL of that practices pregnant Medicaid patients are “PMH patients”
- The patient does not enroll with the PMH; she chooses her OB care provider as she has done in the past
- By submitting a claim for the initial risk screening incentive, the practice is stating that it is the PMH for that patient

CAROLINA ACCESS AND PMH

- Recipients may have a PCP and a PMH
- If the patient has Carolina Access, and the PCP and PMH are different providers, the PMH will need a referral from the PCP
- If the PCP and PMH are the same provider, no referral is necessary
- No changes to current Carolina ACCESS guidelines

PMH RESPONSIBILITIES

- Provide comprehensive, coordinated maternity care to pregnant Medicaid patients
- Allow chart audits for evaluation purposes to ensure quality improvement measures

PMH RESPONSIBILITIES

- Four performance measures:
 - No elective deliveries <39 weeks
 - Inductions of labor and scheduled c-sections
 - Offer and provide 17P to eligible patients
 - Primary c-section rate at or below 20%
 - Standardized initial risk screening of all OB patients at first visit

STATISTICS FROM FISCAL YEAR 2010

Total Medicaid Births and Cesarean Section Births for SFY 2010

<u>Fiscal Year SFY 2010</u>	<u>Medicaid Cesarean Births</u>	<u>% Cesarean</u>
64,408	17,971	27.9%

PMH RESPONSIBILITIES

- Pregnancy Medical Homes that do not provide intrapartum care must:

“develop agreements, within one year of becoming a pregnancy home, with the entities that provide this care to recipients receiving maternity care from the Participant, to ensure optimal coordination of care, availability of medical records at the time of delivery, and appropriate transition to and from the intrapartum care provider. When becoming a pregnancy home, these practices will need to describe their current arrangements for coordinating care with the intrapartum care provider.”

17 ALPHA HYDROXYPROGESTERONE CAPROATE

- 17p recently received FDA approval and will be available under the trade name Makena™ – more information coming soon from DMA and CCNC
- Pregnant women with history of spontaneous preterm birth or spontaneous rupture of the membranes before 37 weeks gestation
 - Must be currently pregnant with a singleton
- Weekly intramuscular injections are covered if above criteria are met

PREGNANCY HOME RESPONSIBILITIES

- Collaborate with Pregnancy Care Management programs to ensure high-risk patients receive case management
 - Inclusion of Pregnancy Care Manager as member of the patient's clinical care team
- Provide information on how to obtain MPW, WIC, Family Planning Waiver

PREGNANCY CARE MANAGEMENT (PCM) RESPONSIBILITIES

- Maternity Care Coordination (MCC) program transitioning to Pregnancy Care Management
- Provide care management services to pregnant Medicaid patients at risk for poor birth outcome
- In most cases, provided by Local Health Department, contracted with CCNC network

WORKING TOGETHER

- CCNC will work with local health department to ensure that each new PMH has a pregnancy care manager assigned
- CCNC can help facilitate communication between PMH and PCM
- PCM should be considered an integral part of care team
- Two-way communication

RISK SCREENING FORM

- Side 1 – medical information for physician or nurse to complete (OB history, current pregnancy)
- Side 2 – psychosocial information for patient to complete (if literacy allows)
- CCNC is translating into Spanish
- Any asterisk (*) condition is a priority risk factor and will automatically trigger an assessment with a PCM

PRIORITY RISK CRITERIA

- History of preterm birth
- History of low birth weight
- Multiple gestation
- Fetal complications
- Chronic conditions which may complicate pregnancy
- Recent/current use of alcohol and/or drugs

PRIORITY RISK CRITERIA

- Unsafe living environment (includes homelessness, inadequate housing, violence, abuse)
- Tobacco use
- Late entry into prenatal care
- Missing two or more prenatal appointments without rescheduling
- Unanticipated hospital utilization

INITIAL RISK SCREENING FORM

- Provider can check “requests assessment” box to trigger PCM assessment
- Complete form at first OB visit and submit to PCM within seven days
- PCM enters information into Case Management Information System (CMIS) within seven days and completes assessment of all “priority” patients within 30 days

FOLLOW-UP RISK SCREENING

- Provider can check “requests assessment” box to trigger PCM assessment at any time
- PMH completes a mid-pregnancy follow-up risk screening
 - Same questions as initial risk screening minus the OB History section
- Patients can be rescreened at any time using the follow-up risk screening form
 - Allows the PMH to give the PCM new risk factors to be entered into the CMIS system

PREGNANCY ASSESSMENT

- Conducted by Pregnancy Care Manager
- Results will drive PCM plan of care
- Status:
 - Pending – needs assessment
 - Pregnancy Heavy – need weekly contact with PCM
 - Pregnancy Medium – need monthly contact
 - Pregnancy Light – follow up each trimester and postpartum
 - Pregnancy Deferred – patient unwilling or unable to locate

CMIS

- Electronic, internet based software for care management documentation
- Secure email capability
- Run reports, associate case management activity with outcomes

PROVIDER PORTAL

- Secure web access to the Medicaid patient record
 - Visit history
 - Medication list and pharmacy claims history
 - Laboratory results when available
- Access a compendium of low-literacy patient education materials, screening and assessment tools, health coaching, disease management
- Retrieve medication information patients in multiple languages in print and video formats
- Must have an agreement in place with your Community Care Network

10 MINUTE BREAK

PREGNANCY MEDICAL HOME PROVIDER INCENTIVES

**Marianne Diana
HP Enterprise Services**

PMH INCENTIVES

- Bypass medical necessity prior approval for ultrasounds
 - Ultrasounds must be registered with MedSolutions
- \$50 for completing the risk screening tool at initial visit
 - By billing for this incentive payment, the practice is establishing itself as the Pregnancy Medical Home for that patient
- \$150 for the postpartum visit per Medicaid recipient
 - Visit must include, at a minimum, depression screen using a validated instrument, reproductive life plan, referral for ongoing care
- Increased global rate for vaginal delivery, antepartum, and postpartum care

ULTRASOUNDS

- PMH providers will bypass medical necessity criteria for MedSolutions Prior Approval
- Register ultrasounds with MedSolutions within 5 business days
- Wait 48 hours before billing

BYPASS PA FOR PMH

- 76801
- 76802
- 76805
- 76810-76821
- 76825-76828
- All other high tech imaging still requires Prior Approval

76811 AND 76812

- Providers must meet one of the below criteria:
 - Certified with the American Institute of Ultrasound Medicine (AIUM)
 - American College of Radiology (ACR) Accredited Practice
 - Sub-specialty in Maternal Fetal Medicine Specialist (Perinatology) or Radiology

76817

- Use for Transvaginal Ultrasound
- Do not use 76830
 - Not OB specific
 - Will not bypass prior approval

VAGINAL DELIVERY RATES FOR PMH REFLECT 13.2% INCREASE

Procedure Codes

<u>VAGINAL DELIVERY CODES</u>	<u>PROCEDURE</u>	<u>CURRENT RATES</u>		<u>FUTURE RATES</u>	
		<u>Facility</u>	<u>Non Facility</u>	<u>Facility</u>	<u>Non Facility</u>
59400	Global (includes antepartum, delivery & postpartum care)	\$1368.59	\$1368.59	\$1549.75	\$1549.75
59425	Antepartum care 4 -6 visits	268.96	340.20	304.46	385.11
59426	Antepartum care 7 + visits	475.94	608.62	538.76	688.96
59409	Delivery only	607.68	607.68	687.89	687.89
59430	Postpartum Care only	99.08	109.17	112.16	123.58
59410	Delivery w/ postpartum care	704.66	704.66	797.68	797.68

CESAREAN DELIVERY RATES FOR PMH DO NOT CHANGE

<u>CESAREAN DELIVERY CODES</u>	<u>PROCEDURE</u>	<u>CURRENT RATES</u>		<u>FUTURE RATES</u>	
		Facility	Non Facility	Facility	Non Facility
59510	Global (includes antepartum, delivery & postpartum care)	\$1549.75	\$1549.75	\$1549.75	\$1549.75
59425	Antepartum care 4 – 6 visits	268.96	340.20	304.46	385.11
59426	Antepartum care 7 + visits	475.94	608.62	538.76	688.96
59514	Delivery only	719.52	719.52	719.52	719.52
59430	Postpartum care only	99.08	109.17	112.16	123.58
59515	Delivery w/ postpartum care	848.26	848.26	848.26	848.26

**BILLING INFORMATION
RELATED TO PREGNANCY
MEDICAL HOME**

PMH INCENTIVE CODES

HCPCS Code	Description	Guidelines
S0280	Medical home program, comprehensive care coordination and planning, initial plan	Bill after risk screening is completed
S0281	Medical home program, comprehensive care coordination and planning, maintenance of plan	Bill after postpartum visit is completed

Pregnancy Care Manager (PCM) completes a pregnancy assessment

PMH INCENTIVES

- If billed alone, S0280 and S0281 will bypass Medicare and Third Party primary filing requirements
- Provider must have PMH indicator on file to receive payment for these codes
- Provider must have PMH indicator on file to receive enhanced rates
 - Both the practice and the individual provider must have the PMH indicator to receive payment
 - Keep information current with local CCNC network when providers join or leave a practice

MEDICAID 17P BILLING

- HCPCS Code: J3490
- ICD-9-CM Code: V23.41
- 1 unit = 250 mg
- Use rebatable NDC codes and appropriate NDC units
- Resources: April 2007 and February 2009 General Medicaid Bulletins

CPT 59515 AND 59410

- Delivery and postpartum care, but no antepartum care
- Includes:
 - All delivery and all postpartum care
 - Incision check for cesarean patients
 - 6 or 8 week follow up postpartum visit
- Providers who do not do outpatient postpartum visit(s) should not bill these codes

CPT 59430

- Billing postpartum care only
- Can be used by provider of antepartum care
- Allowed only once per pregnancy
 - Cannot be split among multiple providers
- Cannot be billed if 59515 or 59410 was billed

NEW EOB CODES FOR PMH

- 3395: Code allowed once per gestational period
 - To ensure incentive codes are paid only once even if there are multiple births
- 3396: Payment of the appropriate postpartum service to this attending provider is required to meet Medicaid guidelines for reimbursement of this code
 - To ensure a postpartum code is paid in history before S0281 incentive is paid

NEW EOB CODES FOR PMH

- 3397: Service denied. The procedure billed is only payable to a Pregnancy Medical Home Provider
 - To ensure non PMH providers do not get paid for incentive codes
- 3398: PMH initial assessment and PMH post partum assessment, not allowed same day, same or different provider
 - To ensure initial assessment and post partum visit do not have the same date of service

DMA Managed Care

Phone Number 919-855-4780

Fax 919-715-0844 or 919-715-5235

DMA is working in partnership with [Community Care of North Carolina \(CCNC\)](#) and other community stakeholders including providers, local health departments, and the [Division of Public Health](#), to create a program that provides pregnant Medicaid recipients with a pregnancy medical home (PMH). The goal is to improve the quality of perinatal care given to Medicaid recipients, thereby improving birth outcomes and reducing Medicaid spending. This will be done by modeling the PMH after the enhanced primary care case management (PCCM) program developed by CCNC.

Case Management

If a pregnant Medicaid recipient's aid program category covers pregnancy services, she is eligible to participate in this program. This program is NOT just for recipients of Medicaid for Pregnant Women (MPW). Pregnant Medicaid patients will receive care management (population management). High-risk pregnant women in a PMH will receive case management services. The level of service provided will be in proportion to the individual's identified needs. Case managers are expected to closely monitor the pregnancy through regular contact with the physician and patient to promote a healthy birth outcome.

**NATIONAL CORRECT
CODING INITIATIVE
(NCCI)**

OVERVIEW

The Patient Protection and Affordable Care Act [(H.R. 3590) Section 6507 (Mandatory State Use of National Correct Coding Initiative)] requires State Medicaid programs to incorporate "NCCI methodologies" in their claims processing systems.

GENERAL BACKGROUND

The Centers for Medicare and Medicaid Services (CMS) developed the National Correct Coding Initiative (NCCI) to promote national correct coding methodologies and to control improper coding that leads to inappropriate payment of claims.

GENERAL BACKGROUND

The coding policies are based on coding conventions defined in the American Medical Association's Current Procedural Terminology (CPT) manual, national Medicare policies, coding guidelines developed by national societies, standard medical and surgical practice, and/or current coding practice.

NORTH CAROLINA MEDICAID IMPLEMENTATION

To comply with the NCCI mandate, DMA will implement the two mandatory components on March 31, 2011.

Updates Available:

<http://www.ncdhhs.gov/dma/provider/ncci.htm>

**NCCI EDITS CONSIST OF TWO TYPES OF
EDITS:**

**1) Procedure-to-Procedure Edits
(CCI Edits)**

**2) Medically Unlikely Edits
(MUE)**

NCCI PROCEDURE-TO-PROCEDURE EDITS:

NCCI procedure-to-procedure (CCI) edits that define pairs of Healthcare Common Procedure Coding System (HCPCS) / Current Procedural Terminology (CPT) codes that should not be reported together for a variety of reasons

Radiology
Laboratory Services**

***If necessary please note that you can utilize NCCI associated modifiers to bypass NCCI edits, if in accordance with coding guidelines and if applicable to the services rendered.**

WHEN WILL THE CHANGES TAKE PLACE?

When the edits are implemented in March 2011, CCI and MUE edits will impact claims with dates of service on and after March 31, 2011.

WHAT TO LOOK FOR....?

The CCI and MUE edit explanation of benefits (EOBs) will appear on the provider's Remittance and Status (RA) Report.

WHAT TO LOOK FOR...?

- **EOB 9988 – “Payment of procedure code is denied based on CCI editing”**
- **EOB 9953 – “Payment of procedure code is denied based on MUE editing”**

WHAT TO LOOK FOR...?

- **EOB 9955 - “Claim recouped based on CCI editing”**
- **EOB 9956 – “Detail recouped based on CCI editing”**
