What Does Family Planning Medicaid Cover?

Birth Control

Nearly all methods are covered, including:

- The pill (up to a 12-month supply!)
- The patch
- The shot
- The vaginal ring
- Intrauterine Devices (IUDs)
- The implant *It also covers device/implant removal if you change your mind!*

Doctor's Visits

- Annual Physical Exam
- 6 follow-up visits as needed
- Counseling support for reproductive life planning
- Referrals to affordable care for any other needs that come up at your visit
- Telehealth appointments

Transportation

Non-emergency transportation to and from visits

Vaccines

- Human papillomavirus (HPV) vaccine

Emergency Contraception

AKA, "Plan B," or the "Morning After Pill"

Accidents happen! Emergency contraception can be effective up to 5 days after unprotected sex (but sooner is better!)

STI Testing/Treatment

For most common sexually transmitted infections (STIs), including gonorrhea, chlamydia, and herpes

Support for PrEP

- **PrEP**, or "Pre-exposure prophylaxis," is a program that can **keep you from getting HIV**.
- FP Medicaid doesn't cover PrEP medication, but it will cover your visits/tests while you're on it.
- Enroll in the **Ready, Set, PrEP** program to get PrEP for free!

Sterilization

Both male (vasectomy) and female ("tubes tied") sterilization procedures are covered if you know that you don't want any future pregnancies.

Lab Tests

- Pregnancy tests
- Pap smears
