

NC Family Planning Medicaid

AT A GLANCE

Most people can get coverage for reproductive health services through Family Planning Medicaid if:

- You live in North Carolina
- You are a citizen or qualified immigrant
- You can become pregnant or cause a pregnancy
- Your household income* falls in the chart below:

Household size	Income before taxes
Single adult	\$2,594 per month, or \$31,122 per year
Family of 2	\$3,517 per month, or \$42,198 per year
Family of 3	\$4,440 per month, or \$53,274 per year
Family of 4	\$5,363 per month, or \$64,350 per year
Family of 5	\$6,286 per month, or \$75,426 per year
Family of 6	\$7,209 per month, or \$86,502 per year
Family of 7	\$8,132 per month, or \$97,578 per year
Family of 8	\$9,055 per month, or \$108,654 per year

*The Federal Poverty Level changes every year. The above incomes apply from April 1, 2026 through March 31, 2027.

Covered reproductive health services:

- Nearly all birth control methods, including:
 - The pill
 - The patch
 - The Depo Provera shot
 - Intrauterine devices (IUDs)
 - Arm implants (Nexplanon)
 - Emergency contraception with a prescription
 - Permanent sterilization (vasectomy or tubes tied)
 - The pill, including Opill over-the-counter
 - Condoms from a provider office
 - Spermicides with a prescription
- Annual physical plus six follow-up visits
- Labs such as pregnancy tests and pap smears
- Sexually transmitted infection (STI) testing and treatment
- The HPV vaccine to prevent cancer
- Transportation to and from appointments
