

Attention: Physicians, Providers and Community Agencies

Community Meeting on NC Medicaid Managed Care

Monday, August 26, 2019

Hosted by Senator Gladys Robinson and Senator Michael Garrett
in partnership with the NC Department of Health and Human Services

Senator Gladys Robinson and Senator Michael Garrett, partnering with the NC Department of Health and Human Services, will host a Community Meeting for physicians, providers and community agencies to provide updated information on managed care, answer questions and obtain feedback on the launch of Medicaid Managed Care. Representatives from the Medicaid Managed Care Health Plans and the Enrollment Broker will be available.

The Department achieved a major milestone in the implementation of Medicaid Managed Care with the beginning of open enrollment on July 15 for Medicaid beneficiaries who live in the Triad and Research Triangle regions of the state. Beneficiaries living in these areas who are required to participate in managed care have through Sept. 13, 2019, to choose a health plan to provide their Medicaid services. The Department and its partners have accomplished a lot together to prepare for this milestone and for the launch of Phase 1 Medicaid Managed Care on Nov. 1, 2019.

Registration
