## Medicaid Managed Care Transferring Prior Approvals

As of July 1, 2021, approximately 1.6 million Medicaid and NC Health Choice beneficiaries receive their health care benefits through NC Medicaid Managed Care prepaid health plans (PHPs).

To ensure continuity of care for beneficiaries, NC Medicaid will be transferring most active approved medication prior approval files to the beneficiaries' health plans. Per federal regulations, the Department is asking providers whose patients have active prior authorizations relating to Part II services or treatment to resubmit the prior authorization request, along with evidence of the prior approval of the authorization reflecting duration and limits to their patient's new health plan.

This will allow beneficiaries to continue to use their prior approvals with their new plans for the remainder of the life of the prior approval. Going forward, active non-Part 2 prior approvals will be transferred from plan to plan should the beneficiary decide to switch to a different plan.

## Medicaid Managed Care Pharmacy Billing and Contracting Information

The transition to NC Medicaid Managed Care includes pharmacy benefits of these beneficiaries. To be able to serve beneficiaries enrolled in a PHP after July 1, 2021 a pharmacy must be enrolled as an NC Medicaid provider, in addition to being enrolled with the beneficiary's PHP. Please see below for PHPs that will serve beneficiaries, their pharmacy processing information and provider contracting information.

As a reminder, if a brand is preferred with a Non-Preferred generic equivalent, “medically necessary” is NOT needed on the face of the prescription in order for the brand product to be covered. Claims for preferred brands with non-preferred generics will be reimbursed with a generic product dispensing fee. Claims for preferred brands with no generic or preferred brands with preferred generics will be reimbursed with a brand dispensing fee.

When a PDL class has a preferred brand with a non-preferred generic, providers requesting prior approval for the non-preferred generic should give a clinical reason why the beneficiary cannot use the brand.

## 72-Hour Emergency Supply Available for Pharmacy Prior Authorization Drugs

Pharmacy providers are encouraged to use the 72-hour emergency supply allowed for drugs requiring prior approval. **Federal law requires that this emergency supply be available to Medicaid beneficiaries for drugs requiring prior approval** (Social Security Act, Section 1927, [42 U.S.C. 1396r-8\(d\)\(5\)\(B\)](#)). Use of this emergency supply will ensure access to medically necessary medications.

The system will bypass the prior approval requirement if an emergency supply is indicated. **Use a “3” in the Level of Service field (418-DI) to indicate that the transaction is an emergency fill.**

**Note:** Copayments will apply and only the drug cost will be reimbursed. There is no limit to the number of times the emergency supply can be used.
