**Direct Care Worker & Support Staff Eligibility: NC Medicaid definition**

<table>
<thead>
<tr>
<th>For purposes of the Direct Care Worker and Support Staff One-Time Bonus, NC Medicaid defines direct care worker and support staff as:</th>
</tr>
</thead>
<tbody>
<tr>
<td>“non-licensed employees of an eligible provider under S.L. 2021-180 section 39.21 who by virtue of employment either interact directly with patients or clients or provide direct care support services at a licensed health care facility”. Support Staff are defined as “individuals who prepare and serve food, medication aides, staff who provide housekeeping or maintenance and individuals who provide social and recreational support.”</td>
</tr>
<tr>
<td><em>Contracted employees are not eligible</em></td>
</tr>
</tbody>
</table>

**Note:** NC Medicaid must provide a uniform bonus amount for all eligible direct care workers and intends to provide as close to $2,000 per worker as is fundable given the available funds and number of eligible workers. NC Medicaid requests that each eligible provider also separately identify *licensed* direct care employees who meet the eligibility criteria, so that it can be determined whether including those employees would affect the uniform amount that could be provided to all non-licensed and licensed workers.
