COMMITMENT TO QUALITY

EDS and DMA share a common goal with the provider community to ensure quality health care is provided to all North Carolina Medicaid recipients in the most efficient and economical manner.

Quality is the process of delivering products and services that meet our customers’ requirements and exceed their expectations to generate customer satisfaction and success.

www.dhhs.state.nc.us/dma
Effective with claims processed on or after September 1, 2001, several changes have been made to the Health Check Program. These changes are outlined in this Special Bulletin. Please replace the Health Check Billing Guide 2000 with this Special Bulletin. For your convenience, shading indicates new information.

HEALTH CHECK SCREENING COMPONENTS

The Health Check Program is a preventive program for Medicaid-eligible children ages birth through 20. A Health Check screening is the only well child preventive visit reimbursable by Medicaid. All Health Check components are required and are to be documented in the medical record. Each screening component is vital for measuring a child’s physical, mental, and developmental growth. Recipients are encouraged to receive their comprehensive health checkups and immunizations on a regular schedule. A complete Health Check screening consists of the following age-appropriate components, which are required to be performed and documented at each visit unless otherwise noted.

- **Comprehensive unclothed physical examination**
- **Comprehensive health history**
- **Nutritional assessment**
- **Anticipatory guidance and health education**
- **Measurements, blood pressure, and vital signs**
  Blood pressure is recommended to become a part of the exam between ages 3 and 4.
- **Developmental screening, including mental, emotional, and behavioral**
  Perform age-appropriate evaluation at each screening. In addition, three written developmental assessments should be performed: the first by 12 months, the second by 24 months and the third by 60 months of age.
- **Immunizations**
  Federal regulations state that immunizations are to be provided at the time of screening if they are needed.
- **Vision and hearing screenings**
  Visual assessment should be administered a minimum of two times in the first year of life, at 3 years of age, once between 4 and 5 years of age, and every three years thereafter.
  Hearing assessment should be administered a minimum of two times in the first year of life, annually until age 3, once between 4 and 5 years of age, and every three years thereafter.
- **Dental screening**
  Although an oral screening may be part of a physical examination, it is not a substitute for examination through direct referral to a dentist. A dental referral is required for every child beginning at 3 years of age. The initial dental referral must be provided regardless of the periodicity schedule unless it is known that the child is already receiving dental care. Thereafter, dental referrals should, at a minimum, conform to the dental service periodicity schedule, which is currently one routine dental examination every six months. When any screening indicates a need for dental services at an earlier age - baby bottle caries - referral should be made for needed dental services and documented in the patient’s record. The periodicity schedule for dental examinations is not governed by the schedule for regular health screenings.
Note: Dental varnishing is not a requirement of the Health Check screening exam. Providers may bill for dental varnishing and receive reimbursement in addition to the Health Check screening. Providers are to utilize the codes and billing guidelines as indicated in the January 2001 general Medicaid bulletin. Bulletins are available on the Division of Medical Assistance (DMA) website at [http://www.dhhs.state.nc.us/dma](http://www.dhhs.state.nc.us/dma).

- **Laboratory procedures**
  Includes hemoglobin or hematocrit, urinalysis, sickle cell, tuberculin skin test, and lead screening.

**Hemoglobin or hematocrit**
Hemoglobin or hematocrit should be measured once during infancy (between the ages of 1 and 9 months) for all children and once during adolescence for menstruating adolescent females. An annual hemoglobin or hematocrit screening for adolescent females (ages 11 to 21 years) should be performed if any of the following risk factors are present: moderate to heavy menses, chronic weight loss, nutritional deficit or athletic activity.

The Special Supplemental Nutritional Program for Women, Infants and Children (WIC) has specific time frames for hematocrit/hemoglobin testing for recertification for children birth up to 5 years of age and pregnant/postpartum women. Sharing the test results between the WIC Program and the primary care provider (PCP) is encouraged with appropriate release of information. Please contact your local WIC Program for required time frames.

**Urinalysis**
Urinalysis should be performed once at 5 years of age. To screen for infections, a dipstick leukocyte esterase test should be performed at least once between the ages of 11 and 21 (preferably at age 14) or more often as clinically indicated.

**Sickle cell testing**
North Carolina hospitals are required to screen all newborns for sickle cell prior to discharge. If a child has been properly tested, this test need not be repeated. **Results must be documented in the child's medical record.** If the test results of the newborn sickle cell screening are not readily available, contact the hospital of birth. An infant not tested at birth should receive a sickle cell test prior to 3 months of age.

**Tuberculin testing**
Reviewing perinatal histories, family and personal medical histories, significant events in life, and other components of the social history will identify children/adolescents for whom tuberculin screening is indicated. If none of the screening criteria listed on the following page are present, there is no recommendation for routine tuberculin screening.

The North Carolina Tuberculosis Control Branch is responsible for oversight of testing of household and other close contacts of active cases of pulmonary and laryngeal tuberculosis. Questions related to policy interpretation or other questions related to tuberculin skin testing should be directed to the local department of health.
Laboratory procedures, continued

Tuberculin testing should be performed as clinically indicated for children/adolescents at increased risk of exposure to tuberculosis, via Purified Protein Derivative (PPD) intradermal injection/Mantoux method – not Tine Test.

Criteria for screening children/adolescents for TB (per the NC TB Control Branch) are:

1. Children/adolescents reasonably suspected of having tuberculosis disease based on clinical symptoms.

2. Perform a baseline screen when these children/adolescents present for care:
   a. Foreign-born individuals arriving within the last five years from Asia, Africa, Caribbean, Latin America, Mexico, South America, Pacific Islands, the Middle East or Eastern Europe. Low prevalence countries for tuberculosis disease are the USA, Canada, Japan, Australia, New Zealand, and countries in Western Europe.
   b. Children/adolescents who are migrants, seasonal farm workers or homeless.
   c. Children/adolescents who are HIV-infected.
   d. Adolescents who inject illicit drugs or use crack cocaine.

Subsequent TB skin testing is not necessary unless there is a continuing risk of exposure to persons with tuberculosis disease.

In addition to the TB Control Branch criteria: A TB screening performed as a part of a Health Check screening cannot be billed separately.

Lead Screening

Federal regulations state that all participating Medicaid-enrolled children are required to have a blood lead test at 12 and 24 months of age. Children between 36 and 72 months of age must be tested if they have not been previously tested. Providers can always perform a lead screening if clinically indicated.

Medical follow-up begins with a blood lead level greater than or equal to 10 ug/dL. Capillary blood level samples are adequate for the initial screening test. Venous blood level samples should be collected for confirmation of all elevated blood lead results.
Laboratory procedures, continued

<table>
<thead>
<tr>
<th>Blood Lead Concentration</th>
<th>Recommended Response</th>
</tr>
</thead>
<tbody>
<tr>
<td>&lt;10 ug/dL</td>
<td>Rescreen at 24 months of age</td>
</tr>
<tr>
<td>10 to 19 ug/dL</td>
<td>Confirmation (venous) testing should be conducted within 3 months. If confirmed, repeat testing should be conducted every 2 to 4 months until the level is shown to be &lt;10 ug/dL on 3 consecutive tests (venous or fingerstick). The family should receive lead education and nutrition counseling. A detailed environmental history should be taken to identify any obvious sources of exposure. If the blood lead level is confirmed at ≥10 ug/dL, environmental investigation will be offered.</td>
</tr>
<tr>
<td>20 to 44 ug/dL</td>
<td>Confirmation (venous) testing should be conducted within 1 week. If confirmed, the child should be referred for medical evaluation and should continue to be retested every 2 months until the blood lead level is shown to be &lt;10 ug/dL on three consecutive tests (venous or fingerstick). Environmental investigations are required and remediation for identified lead hazards shall occur for all children less than 6 years old with confirmed blood lead levels &gt;20 ug/dL.</td>
</tr>
<tr>
<td>≥45 ug/dL</td>
<td>The child should receive a venous lead test for confirmation as soon as possible. If confirmed, the child must receive urgent medical and environmental follow-up. Chelation therapy should be administered to children with blood lead levels in this range. Symptomatic lead poisoning or a venous lead level &gt;70 ug/dL is a medical emergency requiring inpatient chelation therapy.</td>
</tr>
</tbody>
</table>

State Laboratory of Public Health for Blood Lead Screening

The State Laboratory of Public Health will analyze blood lead specimens for all children less than 6 years of age at no charge. Providers requiring results of specimens from children outside this age group need to contact the State Laboratory of Public Health at 919-733-3937.

Note: When the above laboratory tests are processed in the provider’s office, Medicaid will not reimburse separately for these procedures. Payment for these procedures is included in the reimbursement for a Health Check screening.
HEALTH CHECK SCREENING SCHEDULES

Periodic Screenings - HCPCS Code W8010

The schedule below outlines the recommended frequency of Health Check screenings dependent upon the age of the child. The intent of this schedule is to assure that a minimum number of screenings occur at critical points in a child’s life.

Note: If a child is scheduled for a Health Check screening and an illness is detected, the provider may continue with the screening or bill a sick visit and reschedule the screening for a later date.

Periodicity Schedule

<table>
<thead>
<tr>
<th>Within the first month</th>
<th>18 months</th>

</tr>
<tr>
<td></td>
<td>(One screening every three years for children 6 years of age and older)</td>
</tr>
</tbody>
</table>

* This screening may be performed at 9 months of age instead

Interperiodic Screenings – HCPCS Code W8016

In addition to the periodicity schedule, interperiodic screenings are allowed in the following circumstances:

- Upon referral by a health, developmental or educational professional based on their determination of medical necessity. Examples of referral sources may include Head Start, Agricultural Extension Services, Early Intervention Programs or Special Education Programs.

- When children require either a kindergarten or sports physical outside the regular schedule.

- When children who’s physical, mental or developmental illnesses or conditions have already been diagnosed and have indications that the illness or condition may require closer monitoring.

- When the screening provider has determined there are medical indications that make it necessary to schedule additional screenings in order to determine whether a child has a physical or mental illness or a condition that may require further assessment, diagnosis, or treatment.

In each of these circumstances, the screening provider must specify and document in the child's medical record the reason necessitating the interperiodic screening. These visits also require that all Health Check screening components be performed.
IMMUNIZATIONS

Immunization Administration Code W8012

Medicaid reimburses providers for the administration of immunizations to Medicaid-enrolled children, birth through 20 years of age, using the following guidelines.

Private Sector Providers
An immunization administration fee may be billed if it is the only service provided that day or if immunizations are provided in addition to a Health Check screening or an office visit. The administration fee code (W8012) is reimbursed at $13.71 if one immunization is given or $27.42 if two or more are given. Immunization procedure codes must be reported even if the immunization administration fee is not being billed. For instructions on billing an immunization administration fee, refer to the chart below.

Federally Qualified Health Center (FQHC) or Rural Health Clinic (RHC) Providers
An immunization administration fee may be billed if it is the only service provided that day or if immunizations are provided in addition to a Health Check screening. Both are billed under the Medicaid provider number with the “C” suffix. An immunization fee cannot be billed in conjunction with a core visit. Report the immunization given during the core visit without billing the administration fee. The administration fee code is W8012 and is reimbursed at $13.71 if one immunization is given or $27.42 if two or more are given. For instructions on billing an immunization administration fee, refer to the chart below.

Local Health Department Providers
An immunization may not be billed if the immunization(s) is provided in addition to a Health Check screening. An immunization administration fee code (W8012) may be billed if an immunization is the only service provided that day or immunizations are provided in conjunction with an office visit. The administration fee code (W8012) is reimbursed at $20.00 regardless of the number of immunizations given. Immunization procedure codes must be reported even if the immunization administration fee is not being billed. For instructions on how to bill an immunization administration fee, refer to the chart below.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Immunization procedure code(s) must be listed in block 24D of the HCFA-1500 claim form for all immunizations administered followed by the charges, if applicable.
Universal Childhood Vaccine Distribution Program/Vaccines for Children Program

The Vaccines for Children (VFC) Program provides at no charge all required (and some recommended) vaccines to North Carolina children birth through 18 years of age according to the recommendations of the Advisory Committee of Immunization Practices (ACIP) of the Centers for Disease Control (CDC). Due to the availability of these vaccines, Medicaid does not reimburse for VFC/UCVDP vaccines for children ages birth through 18. Exceptions to this are noted in the table below.

For Medicaid-eligible recipients ages 19 through 20 who are not age-eligible for the VFC program vaccines, DMA will continue reimbursement for Medicaid covered vaccines.

The following is a list of UCVDP/VFC vaccines:

<table>
<thead>
<tr>

<td>V03.82 or V05.8</td>
</tr>
<tr>
<td>90744</td>
<td>Hepatitis B Vaccine – Pediatric/Adolescent</td>
<td>V05.8</td>
</tr>
</tbody>
</table>

**Note:** DMA will reimburse for Hepatitis B vaccine purchased for **high-risk** individuals 19 years of age and older.

North Carolina Medicaid providers who are not enrolled in the UCVDP or who have questions concerning the program, should call the N.C. Division of Public Health’s Immunization Branch at 1-800-344-0569.

Out-of-state providers (within the 40-mile radius of North Carolina) may obtain VFC vaccines by calling their state VFC Program. VFC Program telephone numbers for border states are listed below:

- **Georgia** (1-404-657-5013)
- **South Carolina** (1-800-277-4687)
- **Tennessee** (1-615-532-8513)
- **Virginia** (1-804-786-6246)
HEALTH CHECK BILLING REQUIREMENTS

Instructions for billing a Health Check Screening on the HCFA-1500 claim form are the same as when billing for other medical services except for these four critical requirements. The four coding requirements specific to the Health Check Program are as follows:

Requirement 1: Identify and Record Diagnosis Code(s)
Place diagnosis code(s) in the correct order in block 21. **When a Health Check screening is performed, V20.2 is always the “primary diagnosis”** followed by other codes for new or existing diagnoses. Medical diagnoses should **always** be listed before immunization diagnoses. Immunization diagnoses are required when billing the immunization administration (W8012) fee only.

Requirement 2: Identify and Record HCPCS Code
Use the correct Health Check screening HCPCS code in block 24D:

| Regular Periodic Screening | W8010* | V20.2 (Primary Diagnosis) |
| Interperiodic Screening   | W8016* | V20.2 (Primary Diagnosis) |

* A Health Check screening is the only well child visit reimbursable by Medicaid and must have V20.2 as the primary diagnosis code.

Requirement 3: Identify and Code Diagnosis Modifier(s)
The diagnosis modifier is a **two-character** code to be listed in block 24D with the screening HCPCS code to describe the outcome of a Health Check screening. A diagnosis modifier is required for each medical diagnosis listed in block 21.

If V20.2 is the only diagnosis code, modifier 1N must be present in block 24D.

Do not list the 1N modifier for any additional medical diagnosis (with the exception of an immunization diagnosis) that is listed after V20.2. Decide the outcome of the diagnosis and choose the appropriate diagnosis modifier from the list below. The modifiers listed below indicate the outcome of each medical diagnosis used in addition to V20.2.

The following table should be used to determine which modifier to use:

<table>
<thead>
<tr>
<th>Follow-up with screening provider</th>
<th>XF</th>
</tr>
</thead>
<tbody>
<tr>
<td>Referred to another provider</td>
<td>XO</td>
</tr>
<tr>
<td>No follow-up necessary</td>
<td>ZF</td>
</tr>
</tbody>
</table>

Note: Diagnosis modifiers may be duplicated.

*Refer to pages 15 through 25 for sample claims.*
Requirement 4: Next Screening Date
Providers may enter the next screening date (NSD) or have the NSD systematically entered according to the predetermined Medicaid periodicity schedule. Below is an explanation of options for the NSD in block 15 of the HCFA-1500 claim form.

Systematically Entered Next Screening Date
Providers have the following choices for block 15 of the HCFA-1500 claim form with a Health Check screening. All of these choices will result in an automatically entered NSD.

- Leave block 15 blank.
- Place all zeros in block 15 (00/00/0000).
- Place all ones in block 15 (11/11/1111).

Claims with systematically entered NSDs will be tracked per the Medicaid periodicity schedule.

Provider-Entered Next Screening Date
Providers have the option of entering the NSD in block 15. If this date is within the periodicity schedule, the system will keep this date. In the event the NSD is out of range with the periodicity schedule, the system will override the provider’s NSD and the appropriate NSD (based upon the periodicity schedule) will be automatically entered during claims processing. The only reason for a NSD denial is if the date entered is not in the correct format and, therefore, is not a valid date. For example, 12/54/1999 or 44/10/2000 are not valid dates and the claim will deny with EOB 621.
TIPS FOR BILLING

All Health Check Providers

• Two screenings on different dates of service cannot be billed on the same claim form.

• Third party insurance must be pursued and reported in block 29 on the HCFA-1500 claim form when preventive services (well child screenings) are covered. If third party insurance does not cover preventive services, clearly document in the medical record and submit a claim to Medicaid.

• When checking claim status on the Automated Voice Response (AVR) system (1-800-723-4337) AVR requires providers to enter the total amount billed. Due to each Health Check claim being divided into two separate claims for tracking purposes, the total amount billed must also be split between the amount billed for the screening and the amount billed for immunizations and any other service billed on the same date of service. Thus, providers will be checking claim status on two separate claims.

Private Sector Health Check Providers Only

• A Health Check screening and an office visit cannot be billed on the same claim form (different dates of service).

• A Health Check screening and an office visit cannot be paid initially on the same date of service. One claim will pay and the other will deny. For the denied claim to be reconsidered, it must be submitted as an adjustment with medical justification and a copy of the Remittance and Status Report (RA) denial attached.

• Immunization administration code W8012 can be billed with a Health Check screening, office visit or if it is the only service provided that day. When billing in conjunction with a screening code or an office visit code, an immunization diagnosis is not required in block 21 of the claim form. When billing W8012 as the only service for that day, providers are required to use an immunization diagnosis in block 21 of the claim form. **Always list immunization procedure codes** when billing W8012. Refer to the chart on page 6 and the sample claim forms beginning on page 15.

Federally Qualified Health Center (FQHC) and Rural Health Center (RHC) Providers Only

• FQHCs and RHCs must bill Health Check services using their Medicaid provider number with the “C” suffix.

• A Health Check screening and a core visit cannot be paid initially on the same date of service. One claim will pay and the other will deny. For the denied claim to be reconsidered, it must be submitted as an adjustment with medical justification and a copy of the Remittance and Status Report (RA) denial attached.

• Immunization administration code W8012 can be billed if it is provided in addition to a Health Check screening code or if it is the only service provided that day. When billing in conjunction with a screening code, an immunization diagnosis is not required in block 21 of the claim form. When billing W8012 as the only service for that day, an immunization diagnosis code is required to be entered in block 21 of the claim form. W8012 cannot be billed in conjunction with a core visit. For reporting purposes, list immunization procedure codes in the appropriate block on the claim form (refer to the sample claim on page 23). **Always list immunization procedure codes** when billing W8012. Refer to the chart on page 6 and the sample claim forms beginning on page 21.
HEALTH CHECK COORDINATORS

Specially trained Health Check Coordinators (HCCs) are available to assist both parents and providers in assuring that Medicaid-eligible children have access to Health Check services. The kinds of activities HCCs perform include, but are not limited to the following:

- assuring families use health care services in a consistent and responsible manner
- assisting with scheduling appointments or securing transportation
- acting as a local information, referral, and resource person for families
- providing advocacy services in addressing social, educational or health needs of the recipient
- initiating follow-up as requested by providers when families need special assistance or fail to bring children in for health screenings
- promoting Health Check and health prevention with other public and private organizations
- using the Health Check Automated Information and Notification System (AINS) for identifying and following Medicaid-eligible children, birth through 20 years of age, with regard to services received through the health care system

Physicians and other primary care providers and their office staff are encouraged to establish a close working relationship with HCCs. Ongoing communication will significantly enhance recipient participation in Health Check and help make preventive care services more timely and effective.

HCCs are currently located in 62 North Carolina counties and Qualla Boundary.

HCCs are housed in local health departments, community and rural health centers, and other community agencies.

### HEALTH CHECK CLAIM FORM SAMPLES

There are eleven HCFA-1500 claim form samples and three examples of HSIS screens on the following pages. A copy of the back of the HCFA-1500 claim form precedes the first claim form sample. **Note:** Medicaid payment (provider certification) information is shown and specifies that the provider of Medicaid services agrees to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, copayment or similar cost-sharing charge.
BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND CHAMPUS PAYMENTS: A patient’s signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 13 is true, accurate and complete. In the case of a Medicare claim, the patient’s signature authorizes any entity to release to Medicare medical and nonmedical information, including employment status, and whether the person has employer group health insurance, liability, no-fault, worker’s compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.24(a). If item 9 is completed, the patient’s signature authorizes the release of information to the health plan or agency shown. In Medicare assigned or CHAMPUS participation cases, the physician agrees to accept the charge determination of the Medicare carrier or CHAMPUS fiscal intermediary as the full charge, and the patient is responsible only for the deductible, coinsurance and co-recovered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or CHAMPUS fiscal intermediary if this is less than the charge submitted. CHAMPUS is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient’s sponsor should be provided in those items captioned in “Insured” i.e., Items 1a, 4, 6, 7, 8, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, CHAMPUS, FECA AND BLACK LUNG)

I certify that the services shown on this form were medically indicated and necessary for the health of the patient and were personally furnished by me or were furnished incident to my professional service by my employee under my immediate personal supervision, except as otherwise expressly permitted by Medicare or CHAMPUS regulations. For services to be considered as “incident” to a physician’s professional service, 1) it must be rendered under the physician’s immediate personal supervision by his/her employee, 2) they must be an integral, although incidental part of a covered physician’s service, 3) they must be of kinds commonly furnished in physician’s office, and 4) the services of nonphysicians must be included on the physician’s bill.

For CHAMPUS claims, I further certify that (or any employee) who rendered services are not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC §5350). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, CHAMPUS, FECA, AND BLACK LUNG INFORMATION

We are authorized by HCFA, CHAMPUS and OWCP to ask you for information needed in the administration of the Medicare, CHAMPUS, FECA, and Black Lung programs. Authority to collect information is in sections 205(a), 1862, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.24(a) and 424.5(a)(6), and 44 USC 3101-41 CFR 101 et seq and 10 USC 1079 and 1086; 5 USC 8101 et seq; and 30 USC 901 et seq; 38 USC 613, 615, 617, 618, 619, 620. The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decode if the services and supplies you receive are covered by these programs and to ensure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third parties payers to pay primary to Federal program and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine use for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0501, titled ‘Carrier Medicare Claims Record,’ published in the Federal Register, Vol. 55 No. 177, page 37549, Wed. Sept. 12, 1990, or as updated and republished.

FOR CHAMPUS CLAIMS: PRINCIPAL PURPOSES: To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

ROUTINE USES: Information from claims and related documents may be given to the Department of Veterans Affairs, the Dept. of Health and Human Services and/or the Department of Transportation consistent with their statutory administrative responsibilities under CHAMPUS/CHAMPAVA; to the Dept. of Justice for representation purposes; to the Defense Civilian Personnel Office; to State and local governmental agencies, private businesses and individuals as required by law and rules; to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made under subpoena, court order, or other legal mandate.

DISCLOSURE: No information is disclosed to third parties.

MEDIACAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State’s Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance and similar cost-sharing.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to HCFA, Office of Financial Management, P.O. Box 26684, Baltimore, MD 21207, and to the Office of Management and Budget, Paperwork Reduction Project (OMB-0938-0008). Washington, D.C. 20503.

# TIPS FOR DECREASING DENIALS

<table>
<thead>
<tr>
<th>EOB</th>
<th>Message</th>
<th>Tip</th>
</tr>
</thead>
<tbody>
<tr>
<td>349</td>
<td>Health Check screening and related service not allowed same day, same provider, or member of same group. Resubmit as an adjustment with documentation supporting related services.</td>
<td>Verify whether related services billed on same or different claim as the Health Check screening were Health Check components. Health Check screening and related services will not be paid for same date of service initially. Resubmit as an adjustment with medical documentation supporting the need for related services.</td>
</tr>
<tr>
<td>621</td>
<td>Date of next Health Check Screening missing, invalid or not required MM/DD/CCYY format in block 15 of HCFA-1500 claim form.</td>
<td>Make sure the date is in correct MM/DD/CCYY format and is a valid date. An invalid date would be a month or day where the number is above 12 or 31, respectively. If block 15 of the HCFA-1500 is left blank, or contains all zeros or ones, a system generated next screening date will be automatically entered.</td>
</tr>
<tr>
<td>685</td>
<td>Health Check services are for Medicaid recipients birth through age 20 only.</td>
<td>Verify recipient’s age. Only recipients ages birth through 20 years of age are eligible for Health Check program services.</td>
</tr>
<tr>
<td>734</td>
<td>V20.2 must be primary diagnosis for Health Check Screening visit.</td>
<td>Diagnoses code V20.2 must be the primary diagnosis code for all Health Check screening. Enter V20.2 in block 21; item 1 of the HCFA-1500 claim form.</td>
</tr>
<tr>
<td>735</td>
<td>Diagnosis modifier missing or invalid for diagnosis code(s). Health Check visit requires each listed diagnosis to have a corresponding modifier in block 24D. V20.2 must be primary DX.</td>
<td>Each diagnosis code must have a corresponding diagnosis modifier with the screening HCPCS code. Refer to the list of diagnosis modifiers on page 8 for the appropriate modifiers.</td>
</tr>
</tbody>
</table>
| 760 | Only one diagnosis modifier allowed in block 24D per diagnosis code. 1N is not allowed in conjunction with another diagnosis modifier such as ZF, etc. | Each **diagnosis** code must have only one **diagnosis** modifier.  
- For paper billers, if there are more modifiers than will fit in the modifier column of block 24D, continue on the next line. **DO NOT** repeat the date of service, place of service, type of service, or procedure code information on this line.  
- If all findings are normal, modifier 1N must be appended to the screening code.  
- Modifier 1N cannot be used in combination with another diagnosis modifier such as ZF on the same screening code.  
All non-immunization diagnoses must have diagnosis modifiers. |
