

Provider Billing of Medicaid Beneficiaries

General Rule 1: Providers may NOT bill Medicaid beneficiaries for missed appointments.

“This [CMS] policy is based on the reasoning that a missed appointment is not a distinct reimbursable Medicaid service, but a part of providers’ overall costs of doing business.”

Medicare Distinction: “CMS policy is to allow physicians and suppliers to charge Medicare beneficiaries for missed appointments, provided that they do not discriminate against Medicare beneficiaries but also charge non-Medicare patients for missed appointments.”

General Rule 2: Providers may NOT bill Medicaid beneficiaries for *covered services* – only the allowable co-payments, co-insurance, or deductibles.

Corollary to General Rule 2:

DHHS Provider Administrative Participation Agreement Section 5(2):

“A provider may bill for goods, services, or supplies provided to a recipient if such are *not covered* under the Department *and* the recipient has been notified in advance that such services are not covered and that the recipient is financially responsible.”

Exceptions to General Rule 2:

1. **10A NCAC 22J .0106(a):** “A provider may refuse to accept a patient as a Medicaid patient and bill the patient as a private pay patient only if the provider informs the patient that the provider will not bill Medicaid for any services but will charge the patient for all services provided.”
 - a. 10A NCAC 22J .0106(f): “When a provider accepts a private patient, bills the private patient personally for Medicaid services covered under Medicaid for Medicaid recipients, and the patient is later found to be retroactively eligible for Medicaid, the provider may file for reimbursement with Medicaid. Upon receipt of Medicaid reimbursement, the provider shall refund to the patient all money paid by the patient for the services covered by Medicaid with the exception of any third party payments or cost sharing amounts as described in 10A NCAC 22C .0102.”
2. **N.C.G.S. §108A-55:** “A provider may seek payment for services from Medicaid enrollees who are eligible for but not enrolled in Medicare Parts B and D.”

10A NCAC 22J .0106 PROVIDER BILLING OF PATIENTS WHO ARE MEDICAID RECIPIENTS

(a) A provider may refuse to accept a patient as a Medicaid patient and bill the patient as a private pay patient only if the provider informs the patient that the provider will not bill Medicaid for any services but will charge the patient for all services provided.

(b) Acceptance of a patient as a Medicaid patient by a provider includes, but is not limited to, entering the patient's Medicaid number or card into any sort of patient record or general record-keeping system, obtaining other proof of Medicaid eligibility, or filing a Medicaid claim for services provided to a patient. A patient, or a patient's representative, must request acceptance as a Medicaid patient by:

- (1) presenting the patient's Medicaid card or presenting a Medicaid number either orally or in writing; or
- (2) stating either orally or in writing that the patient has Medicaid coverage; or
- (3) requesting acceptance of Medicaid upon approval of a pending application or a review of continuing eligibility.

(c) Providers may bill a patient accepted as a Medicaid patient only in the following situations:

- (1) for allowable deductibles, co-insurance, or co-payments as specified in 10A NCAC 22C .0102; or
- (2) before the service is provided the provider has informed the patient that the patient may be billed for a service that is not one covered by Medicaid regardless of the type of provider or is beyond the limits on Medicaid services as specified under 10A NCAC 22B, 10A NCAC 22C, and 10A NCAC 22D; or
- (3) the patient is 65 years of age or older and is enrolled in the Medicare program at the time services are received but has failed to supply a Medicare number as proof of coverage; or
- (4) the patient is no longer eligible for Medicaid as defined in 10A NCAC 21B.

(d) When a provider files a Medicaid claim for services provided to a Medicaid patient, the provider shall not bill the Medicaid patient for Medicaid services for which it receives no reimbursement from Medicaid when:

- (1) the provider failed to follow program regulations; or
- (2) the agency denied the claim on the basis of a lack of medical necessity; or
- (3) the provider is attempting to bill the Medicaid patient beyond the situations stated in Paragraph (c) of this Rule.

(e) A provider who accepts a patient as a Medicaid patient shall agree to accept Medicaid payment plus any authorized deductible, co-insurance, co-payment and third party payment as payment in full for all Medicaid covered services provided, except that a provider may not deny services to any Medicaid patient on account of the individual's inability to pay a deductible, co-insurance or co-payment amount as specified in 10A NCAC 22C .0102. An individual's inability to pay shall not eliminate his or her liability for the cost sharing charge. Notwithstanding anything contained in this Paragraph, a provider may actively pursue recovery of third party funds that are primary to Medicaid.

(f) When a provider accepts a private patient, bills the private patient personally for Medicaid services covered under Medicaid for Medicaid recipients, and the patient is later found to be retroactively eligible for Medicaid, the provider may file for reimbursement with Medicaid. Upon receipt of Medicaid reimbursement, the provider shall refund to the patient all money paid by the patient for the services covered by Medicaid with the exception of any third party payments or cost sharing amounts as described in 10A NCAC 22C .0102.
