MCAC BH/IDD
Subcommittee Medicaid Managed Care Update

NC Medicaid

September 13, 2019
Request to Transition Form/Process Update

• Number of BH Eligibility Verifications made to date: 231
• Number of Request for TP forms submitted to date:
  – 473 unique individual requests
  – 18 requested 2-4 times
• Number of Exempt (individuals who may enroll but meet TP criteria) that have chosen SP: 489
• Follow up done as a result:
  – Weekly reporting on numbers
  – Review of call logs for QA
    • Additional training for EB Specialists
    • Follow up calls/letters by EB
Request to Transition Form/Process Update

• Service requests
  – receipt of request to approval 24 hours
  – enrollment completed in 1 business day

• Non-service requests
  – 5-8 business days from receipt of request to eligibility services (5 for provider form and 8 for beneficiary form)
  – Enrollment first day of the following month

• SAIOP and SACOT will be treated like service request in that they are auto approved.
Request to Transition Form/Process Update

• Next Steps
  – Beacon contract amendment in process, timeframes TBD based on movement of MCL
  – Meeting with MCOs to discuss process and inform training
  – Training to be developed for providers/beneficiaries/other stakeholders
Care Management Update
MCAC- BH Subcommittee
September 13, 2019

Kelsi A. Knick, MSW LCSW
AGENDA

1. Discuss stakeholder comments
   • Case conferences
   • Care manager/supervisor qualifications
   • Training requirements
   • Switching Care Management Approaches

2. Becoming an AMH + or Certified Care Management Agency
Current Case Conference Policy

**Current Policy**

- White paper: Care managers will be required to conduct regular case conferences with the full care team, spanning physical and behavioral health, I/DD and TBI supports, and pharmacy, where applicable. The Department will require all organizations performing care management to have information technology and policies and procedures in place to support such regular communication and information sharing.

- RFA will contain additional guidance on members of the care team:

  Multidisciplinary care team shall consist of the following, as applicable depending on Member needs:

  - Member
  - Care manager
  - Supervising care manager
  - Caretaker(s)/legal guardians
  - AMH/PCP
  - Behavioral health provider(s)
  - I/DD and/or TBI providers, as applicable
  - Other specialists
  - Nutritionists
  - Pharmacists and Pharmacy Techs
  - The Member’s obstetrician/gynecologist (for pregnant women)
  - Peer supports (required for Members with behavioral health needs, optional otherwise)
  - Other providers, as determined by the care manager and Member
<table>

<tbody>
<tr>
<td>Stakeholders seek guidance on</td>
</tr>
<tr>
<td>- Required participants</td>
</tr>
<tr>
<td>- Frequency of case conferences</td>
</tr>
<tr>
<td>- Beneficiary/family member participation</td>
</tr>
<tr>
<td>Some stakeholders are concerned with the feasibility of bringing the full care team together and suggested financial incentives to help ensure participation.</td>
</tr>
</tbody>
</table>
Care Manager/Supervisor Qualifications
## Current Care Manager/Supervisor Qualifications Policy

### Current Policy

<table>
<thead>
<tr>
<th>Position</th>
<th>Minimum Qualifications</th>
</tr>
</thead>
</table>
| Care managers serving all beneficiaries                                 | Bachelor’s degree in a field related to health, psychology, sociology, social work, nursing or another relevant human services area  
Two years of experience working directly with individuals with behavioral health conditions (if serving beneficiaries with behavioral health needs) or with I/DD or TBI (if serving beneficiaries with I/DD or TBI needs)  
(Best practice, but not required) For care managers serving beneficiaries using LTSS: two years of prior LTSS and/or HCBS coordination; care delivery monitoring and care management experience; and background in social work, geriatrics, gerontology, pediatrics or human services |
| Supervising care managers serving beneficiaries with behavioral health disorders | A licensed master’s-level clinical qualification, such as a Licensed Clinical Social Worker (LCSW), a Licensed Professional Counselor (LPC) or a licensed nurse with a Bachelor of Science in Nursing (BSN)  
Three years of supervisory experience working directly with complex individuals with a behavioral health condition |
| Supervising care managers serving beneficiaries with I/DD or TBI         | Bachelor’s degree in a human services field  
Five years of applicable I/DD experience as a care coordinator or care/case manager, or an equivalent combination of education and experience |
Feedback on Care Manager/Supervisor Qualifications

Some stakeholders are unsure whether the minimum qualifications listed are sufficient, with some suggesting additional years of experience and national care manager certification. There are also concerns that the qualifications may be too narrow.

Stakeholder Feedback

- North Carolina Community Health Center Association: “Minimum qualifications are good but someone with a bachelor’s and two years of experience may not have the knowledge these requirements outline.”
- Alliance: “Please confirm that list of master’s-level clinical qualifications is not intended to be an exhaustive list.”
- MCAC: “For supervising care managers with BH disorders, LCAS, LPAs, and LMFTs were not included in this list. Was this an oversight?”
- North Carolina Psychiatric Association: Minimum qualifications for care managers seem low; supervisors should be licensed professionals, including RNs; concerned whether the equivalent of a QP with 2 years of MH experience will be able to manage complex mental/physical health needs.
- Children with Special Healthcare Needs Commission: “Supervising care managers serving beneficiaries with I/DD or TBI – We recommend a master’s level with three years of supervisory experience working with individuals with I/DD.”
- MCAC: “…must include certified care managers …Most states with this model approach regard the certified care manager the gate keeper of the model; each agency should have at least 1 CMC per every 40 patients.” Commenter, directed the Department to consider the National Academy of Certified Care Managers.
- I2I Center: “Will be difficult to find care manager trained in all areas of health; recommend language changed to "a care manager that understands how to access all areas of health"
Training Requirements

Current Policy

- The Department will set the required training domains for care managers and care manager supervisors, while BH I/DD Tailored Plans will be responsible for developing and implementing training curricula that meet the Department’s requirements. Tailored Plans will be required to include training plans in their request for application (RFA) responses.

- Current RFA language: The BH I/DD Tailored Plan shall develop and implement (or delegate to a vendor) a care management training curriculum that includes at a minimum: (See appendix for recommendations from previous working session and list of training domains)

Stakeholder Feedback

- A range of stakeholders, including LME-MCOs, are concerned that the consistency, breadth, and quality of training will vary greatly, with some recommending that the Department standardize trainings to ensure consistency. Recommendations included,
  - Contracting with a vendor to develop and administer the trainings
  - Issuing more prescriptive guidance on curriculum and hour requirements

- LME-MCOs would like to know the extent to which the Department will have a role in funding curricula development and initial and ongoing trainings
The workgroup discussed whether to update the care management assignment process, specifically with regards to individuals assigned to an AMH+ for primary care.

<table>
<thead>
<tr>
<th>Current Policy</th>
<th>Initial Assignment</th>
<th>Switching Care Management Approach/Care Manager</th>
</tr>
</thead>
<tbody>
<tr>
<td>The BH I/DD Tailored Plan will assign each beneficiary to care management through an AMH+, CMA, or BH I/DD Tailored Plan. The AMH+, CMA, or BH I/DD Tailored Plan will assign the beneficiary to a care manager. The Tailored Plan must take into account existing provider relationships at an AMH+ practice or CMA within the BH I/DD Tailored Plan’s region, and give preference to that provider, when making a care management assignment, unless there is a specific cause not to do so.</td>
<td>Beneficiaries will have the option to change care management approach and their care manager at any time after the Tailored Plans make the initial assignment, either within the same organization or across AMH+/CMA practices within the BH I/DD Tailored Plan network.</td>
<td></td>
</tr>
<tr>
<td>Proposed Changes (7/30 mtg.)</td>
<td>Beneficiaries who have chosen to receive primary care through an AMH+ will default to care management through that practice, unless they change their primary care provider. The AMH+ will assign a care manager. The only exceptions to this policy are if the individual is: • Enrolled in the Innovations Waiver or Traumatic Brain Injury Waiver • Enrolled in Transitions to Community Living Initiative • Enrolled in High-Fidelity Wrap-Around Other beneficiaries will be assigned to a care management approach (BH I/DD Tailored Plan or CMA) by the BH I/DD Tailored Plan following enrollment in the plan, and the entity providing care management will assign a care manager.</td>
<td>Beneficiaries can switch their care management approach twice per year without cause and anytime with cause, but can only make the following switches: • BH I/DD Tailored Plan to AMH+ or CMA • CMA to AMH+ (only with PCP switch) • CMA to CMA • AMH+ to AMH+ (only with PCP switch) • AMH+ to CMA (only with PCP switch to a practice that is not an AMH+)</td>
</tr>
</tbody>
</table>
Becoming an AMH+ or CMA
Summary: AMH+/CMA Certification Process

To be certified as an AMH+/CMA a provider must:

- Meet eligibility definitions
- Show appropriate organizational standing or expertise
- Show appropriate staffing
- Demonstrate the ability to deliver all the required elements of whole-person, multidisciplinary, integrated care management
- Meet HIT and Population Health Data Requirements
- Participate in required training (after initial certification)
Eligibility

Advanced Medical Home Plus (AMH+)

**Definition:** Primary care practice certified by the Department as an AMH Tier 3 that has experience delivering primary care services to the BH I/DD Tailored Plan eligible population in North Carolina, or can otherwise demonstrate strong competency to serve that population, and will hold primary responsibility for providing integrated, whole-person care management under the Tailored Care Management model. Details on AMH Tier 3 attestation can be found in the AMH Provider Manual.

**Eligibility:** To be eligible to become an AMH+, the practice must intend to become a network primary care provider for BH I/DD Tailored Plans.

Care Management Agency (CMA)

**Definition:** Provider organization with experience delivering behavioral health, I/DD and/or TBI services to the BH I/DD Tailored Plan eligible population in North Carolina that will hold primary responsibility for providing integrated, whole-person care management under the Tailored Care Management model.

**Eligibility:** To be eligible to become a CMA, an organization must have as its primary purpose the delivery of NC Medicaid, NC Health Choice or state-funded services, other than care management, to the BH I/DD Tailored Plan eligible population in North Carolina.
What is a CIN/Other Partner?

A “CINs or Other Partner” is an organization with which an AMH+ or CMA may be affiliated, that helps the AMH+ or CMA meet the requirements of the model. The AMH model under Standard Plans already incorporates CINs/Other Partners.

How can CINs/Other Partners Serve AMH+s/CMAs?

- Providing local care management staffing, functions and services
- Supporting AMH analytics and data integration from multiple PHPs and other sources, and providing actionable reports to AMH+s/CMAs
- Assisting in the contracting process or directly contracting with BH I/DD Tailored Plans on behalf of AMH+s/CMAs

- CINs/other partners may include hospitals, health systems, integrated delivery networks, IPAs, care management organizations and technology vendors

- The Department is considering adding guardrails around care management staff organized at the CIN/Other Partner level:
  - Majority of membership/board must be providers
  - AMH+ or CMA must have managerial control of staff
AMH+/CMA Certification Process

The CMA certification process will be designed to ensure that DHHS can obtain a comprehensive view of each organization’s ability to provide care management.

<table>
<thead>
<tr>
<th>Date</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall 2019</td>
<td>DHHS publishes CMA manual containing full certification requirements and application questions</td>
</tr>
<tr>

</tr>
<tr>
<td>July 2021</td>
<td><strong>BH I/DD Tailored Plan launch</strong></td>
</tr>
</tbody>
</table>

Provisional certification will occur a year before launch to allow AMH+s/CMAs to prepare for the role.
The Department will publish a non binding Statement of Interest to understand provider interest in Tailored Care Management as well as to ensure that questions are adequately covered in the forthcoming Manual.

**Forthcoming Statement of Interest Process**

The Statement of Interest will ask potential AMH+s and CMAs to provide:

- Location/region
- Experience/expertise (I/DD, Behavioral Health/SUD or both)
- Anticipated patient/client volume
- Questions for the Department

Medicaid Managed Care Status Report

1. Standard Plan Update
   A. Timeline
   B. Communication

2. Enrollment Metrics
   A. Enrolled individuals
   B. Call Center

3. Resource Update

4. Tailored Plan Update

5. Questions

6. Next Steps
Standard Plan Update
Moving toward Statewide Go-Live 2/1/20

- Open Enrollment Extended for Phase 1 beneficiaries
- Statewide implementation of managed care
- Encourage beneficiaries to choose a health plan and primary care provider.
  - NC Medicaid Managed Care call center at 833-870-5500
  - NC Medicaid Manage Care website, ncmedicaidplans.gov
- Finalize contracts between doctors and health systems and managed care companies.
Open Enrollment Extension Beneficiary Communication

• Notice will be mailed to beneficiaries in coming weeks

• Key Messages
  – Open Enrollment has been extended to 12-24-19
  – If you have not chosen a plan
    • You have additional time to choose plan
    • If no choice, we will assign
    • You can start using new health plan 2-1-2020
    • Contact EB to choose or get information
  – Not Everyone Has to Choose - call EB
  – If you have selected a plan
    • You start using new health plan 2-1-2020
    • If you want to keep chosen plan, you do not have to do anything
Open Enrollment Extension Beneficiary Communication

• Key Messages cont.
  – If you have selected a plan (cont.)
    • Your health plan will send you a new ID card before 2-1-2020
    • You can use the new card to get health services beginning 2-1-2020
  – For Everyone
    • You can change plans until April 30, 2020
    • Important Dates
      • December 13, 2019 – Choose a health plan before this date
      • February 1, 2020 – Start using your new health plan on this date
      • April 30, 2020 – Deadline to change your health plan
    • Contact information for questions

# Health Plan Comparison Chart

All plans are required to have the same type of Medicaid services you get now. These include:

- Doctor visits
- Hospital visits
- Medical supplies
- Lab tests and X-rays
- Behavioral health care
- Prescriptions
- Eye care
- Therapies
- Hospice

To see the full list of NC Medicaid covered services provided by the health plans, go to ncmedicaidplans.gov. Health plans also have added services. To compare added services, see the other side.
