      (i) Department Roles and Responsibilities
         (a) Pursuant to Article 4. of Chapter 108D of the General Statutes, the Department was directed to transition certain North Carolina Medicaid and NC Health Choice populations, including populations eligible for BH I/DD Tailored Plans from a Medicaid Fee for Service structure to a Medicaid Managed Care structure. The Department shall maintain authority in determining North Carolina Medicaid and NC Health Choice eligibility and defining populations to be transitioned into Medicaid Managed Care consistent with Article 4. of Chapter 108D of the General Statutes.
         (b) The Department shall maintain sole authority for performing, managing, and maintaining all Medicaid eligibility, BH I/DD Tailored Plan eligibility, enrollment and cost sharing determinations. The BH I/DD Tailored Plan shall be responsible for adhering to Medicaid eligibility, enrollment and cost sharing determinations made by the Department. It is the responsibility of the Enrollment Broker, the BH I/DD Tailored Plan and other partners of the Department operating within Medicaid Managed Care to adhere to the determinations made by the Department. The Department reserves the right to modify the eligibility criteria and populations eligible to enroll in a BH I/DD Tailored Plan, for all or a limited package of benefits, as authorized under current or future state law.
(c) The Department shall be responsible for determining if a beneficiary is Medicaid Managed Care excluded, exempt or mandatory at any point in time.

(d) The Department shall be responsible for determining if a beneficiary is BH I/DD Tailored Plan eligible and will conduct regular data reviews over a defined lookback period to identify beneficiaries who are BH I/DD Tailored Plan eligible.

(e) The Department will review requests to enroll in a BH I/DD Tailored Plan submitted by, or on behalf of, beneficiaries who are not identified as BH I/DD Tailored Plan eligible based upon available data.

(f) The Department shall be responsible for transmitting to the BH I/DD Tailored Plan all information related to North Carolina Medicaid and NC Health Choice eligibility and cost sharing via the Medicaid Managed Care eligibility file format.

(g) Consistent with 42 C.F.R. § 438.810, the Department may contract with an Enrollment Broker to:
   (1) Educate beneficiaries on Medicaid Managed Care;
   (2) Provide choice counseling and enrollment assistance to beneficiaries and/or to their authorized representatives who want to select a Standard Plan or BH I/DD Tailored Plan or a primary care provider (PCP); and
   (3) Transmit enrollment selections and approved disenrollment requests to the Standard Plan or BH I/DD Tailored Plan to effectuate.

(ii) BH I/DD Tailored Plan Eligible Populations

Stat. § 108D-40(a)(12), the following populations who are not otherwise excluded from Medicaid Managed Care as described in Section V.B.1.i.(iii) Populations Excluded, Exempt and Delayed from Medicaid Managed Care shall be eligible for enrollment in BH I/DD Tailored Plans upon their launch:

      ii. Individuals receiving any of the BH, I/DD, or TBI services that are covered by LME/MCOs under the combined 1915(b) and (c) waivers and that shall not be covered by a Standard Plan in accordance with N.C. Gen. Stat. § 108D-35(1).

9. Beneficiaries being served through CAP/C;
10. Beneficiaries being served through CAP/DA (includes beneficiaries receiving services under CAP/Choice); and
11. Beneficiaries with services provided through the PACE.

(b) Because the Innovations and TBI waivers shall only be offered by the BH I/DD Tailored Plans upon their launch, the Department has authority under N.C. Gen. Stat. § 108D-40(b) to enroll

---

1 The Department is seeking a change in State law to clarify that individuals enrolled in the Optional COVID-19 (MCV) Testing Program, authorized under Section 4.5 of S.L. 2020-4, are also excluded from Medicaid Managed Care, if the coverage is still available at the launch of Medicaid Managed Care.
2 Because the Innovations and TBI waivers will only be offered by the BH I/DD Tailored Plans upon their launch, Beneficiaries who are otherwise excluded from Medicaid Managed Care but are enrolled in those waiver programs will need to enroll in a BH I/DD Tailored Plan, pursuant to N.C. Gen. Stat. § 108D-40(b), to continue to access those services.
3 Because the Innovations and TBI waivers will only be offered by the BH I/DD Tailored Plans upon their launch, Beneficiaries who are otherwise excluded from Medicaid Managed Care but are enrolled in those waiver programs will need to enroll in a BH I/DD Tailored Plan, pursuant to N.C. Gen. Stat. § 108D-40(b), to continue to access those services.
4 The Department includes beneficiaries with services provided through the PACE program as a population excluded from managed care pursuant to N.C. Gen. Stat. § 108D-35(3), which excludes all PACE program services from Medicaid Managed Care.
5 The Department is seeking a change in State law to clarify that individuals enrolled in the Optional COVID-19 (MCV) Testing Program, authorized under Section 4.5 of S.L. 2020-4, are also excluded from Medicaid Managed Care, if the coverage is still available at the launch of Managed Care.
beneficiaries enrolled in the Innovations or TBI waiver in BH I/DD Tailored Plans, regardless of whether they otherwise are part of a group that is delayed or excluded from managed care.

1. All provisions of this contract shall apply to BH I/DD Tailored Plan members who are enrolled in the Innovations or TBI waiver unless otherwise noted. BH I/DD Tailored Plans that do not offer the TBI waiver will not be subject to provisions of this contract that apply to the TBI waiver.

2. Beneficiaries who are enrolled in the Innovations or TBI waiver and are also medically needy or participants in the NC HIP P program shall enroll in a BH I/DD Tailored Plan at BH I/DD Tailored Plan launch for all Medicaid-covered services.

(c) In accordance with N.C. Gen. Stat. § 108D-40(a)(5) and (5a), the following population shall be exempt from Medicaid Managed Care, including BH I/DD Tailored Plans:

1. Beneficiaries who are members of federally recognized tribes and beneficiaries eligible to receive services from the Indian Health Service are exempt from Medicaid Managed Care. These beneficiaries will default to the Tribal Option or NC Medicaid Direct depending on their county of residence, but will have the choice to enroll in a Standard Plan or BH I/DD Tailored Plan (if eligible). More details of these options can be found in Section V.B.4.i.(iii)(c) Tribal Member Services and Indian Health Care Providers (42 C.F.R. § 438.14).

(d) In accordance with N.C. Gen. Stat. § 108D-40(a)(13), the following populations are temporarily excluded, for a period not to exceed five (5) years from the date Standard Plan contracts begin, and shall be treated as excluded until the Department includes them in Medicaid Managed Care, including BH I/DD Tailored Plans:

1. Beneficiaries who (i) reside in a nursing facility and have so resided, or are likely to reside, for a period of ninety (90) days or longer and (ii) are not being served through CAP/DA. If an individual enrolled in a BH I/DD Tailored Plan resides in a nursing facility for ninety (90) days or more, such an individual shall be disenrolled from the BH I/DD Tailored Plan on the first day of the month following the ninetieth (90th) day of the stay and enrolled in NC Medicaid Direct.
   i. The Department considers beneficiaries residing in or determined eligible for and transferred to a state-owned Neuro-Medical Center operated by the Department’s Division of State Operated Healthcare Facilities (DSOHF) or a Veterans Home operated by the Department of Military and Veterans Affairs (DMVA) to be temporarily excluded until the beneficiary is discharged and determined eligible for Medicaid Managed Care.
   ii. For members of the BH I/DD Tailored Plan determined eligible for and transferred for treatment to a DSOHF Neuro-Medical Center or state-owned Veterans Home after BH I/DD Tailored Plan implementation, the Department shall disenroll the member in accordance with the Section VII. Attachment M.1. North Carolina Medicaid Managed Care and BH I/DD Tailored Plan Enrollment Policy and the Contract.

2. Beneficiaries who are enrolled in both Medicare and Medicaid for whom Medicaid coverage is not limited to the coverage of Medicare premiums and cost sharing, excluding beneficiaries served through CAP/DA and beneficiaries enrolled in the Innovations or TBI waivers.

6 Because the Innovations and TBI waivers will only be offered by the BH I/DD Tailored Plans upon their launch, Beneficiaries who are otherwise excluded from Medicaid Managed Care but are enrolled in those waiver programs will need to enroll in a BH I/DD Tailored Plan, pursuant to N.C. Gen. Stat. § 108D-40(b), to continue to access those services.
(3) Recipients who are enrolled in the foster care system, receiving Title IV-E adoption assistance, under the age of twenty-six (26) and formerly were in the foster care system, or under the age of twenty-six (26) and formerly received adoption assistance.

(e) Pursuant to N.C. Gen. Stat. § 108D-40(b), populations excluded from Medicaid Managed Care or populations who have been temporarily excluded from Medicaid Managed Care may be enrolled at any time, as determined by the Department, if eligible to receive a service that is not available in NC Medicaid Direct but is offered by the BH I/DD Tailored Plan.

(f) At any time during the Contract Term, the Department reserves the right to amend the contract based on an increase or decrease in covered populations included in the Medicaid Managed Care program based on federal or state law or regulatory changes, federally approved Medicaid waivers for North Carolina, or a change in the enrollment processes or BH I/DD Tailored Plan eligibility criteria.

(iv) The Department believes that certain groups of beneficiaries meeting one or more of the BH I/DD Tailored Plan eligibility criteria who are otherwise excluded from Medicaid Managed Care will benefit from BH I/DD Tailored Plan enrollment. The following legislative changes will impact eligibility or coverage of services by a BH I/DD Tailored Plan upon becoming law:

(a) The Department is seeking a change in State law to allow Beneficiaries who are enrolled in both Medicare and Medicaid for whom Medicaid coverage is not limited to the coverage of Medicare premiums and cost sharing are eligible to enroll in a BH I/DD Tailored Plan at BH I/DD Tailored Plan launch for Medicaid-covered BH, I/DD, and TBI services if they meet one of the BH I/DD Tailored Plan eligibility criteria. They will receive all other Medicaid-covered services through NC Medicaid Direct.

(b) The Department is exploring seeking a change in State law to allow Beneficiaries who are medically needy, participate in the NC HIPP program, or are enrolled in the CAP/C or CAP/DA waivers if they meet one of the BH I/DD Tailored Plan eligibility criteria to enroll in a BH I/DD Tailored Plan for Medicaid-covered BH, I/DD, and TBI services. They would receive all other Medicaid-covered services through NC Medicaid Direct.

(5) The BH I/DD Tailored Plan shall ensure automatic reenrollment of a member who is disenrolled solely because he or she loses North Carolina Medicaid or NC Health Choice eligibility for a period of two (2) months or less. 42 C.F.R. § 438.56(g).

(6) The BH I/DD Tailored Plan shall only process enrollment for beneficiaries who are eligible for BH I/DD Tailored Plan coverage.

(11) The BH I/DD Tailored Plan shall ensure as outlined in Section V.A.2. Program Operations that its telephone system will have the functionality to transfer beneficiaries and authorized representatives from the call center to local DSS office without disconnecting the call.

(12) If a member’s demographic information is not updated during the next member reconciliation cycle with the BH I/DD Tailored Plan and the Department, the BH I/DD Tailored Plan shall follow up with members to provide them with information on how to change their demographic information and assist in making a connection to the local DSS office or NC FAST online portal.

(b) Beneficiary Disenrollment

(1) The BH I/DD Tailored Plan shall adhere to the Department’s Medicaid Managed Care disenrollment approach as defined in Section VII. Attachment M.1. North Carolina Medicaid Managed Care and BH I/DD Tailored Plan Enrollment Policy and consistent with federal regulations at 42 C.F.R. § 438.56, including but not limited to:
   i. Member disenrollment requests; and
   ii. Department disenrollment requests.

(2) The BH I/DD Tailored Plan shall accept and process all BH I/DD Tailored Plan enrollments and disenrollments within twenty-four (24) hours of receipt of the standard eligibility file defined by the Department and effectuate enrollment and disenrollment according to the effective date provided on the standard eligibility file.

No later than ninety (90) days after the Contract Award the policy shall be submitted to the Department for review and approval. The BH I/DD Tailored Plan shall submit to the Department for review any updates to the policy at least ninety (90) days prior to implementation.

ii. Transitions of Care
   (i) Ongoing Requirements
      (a) The BH I/DD Tailored Plan shall develop policies, processes and procedures to support members transitioning between BH I/DD Tailored Plans, from Standard Plans to BH I/DD Tailored Plans, BH I/DD Tailored Plans to Standard Plans, other types of plans established by
the Department (e.g., Tribal Option or Statewide Specialized Foster Care Plan) or between delivery systems (e.g., from NC Medicaid Direct to a BH I/DD Tailored Plan).

(b) Sixty days (60) following Contract Award, the BH I/DD Tailored Plan shall provide the Department with a contact person who will coordinate Transitions of Care for newly enrolling members on behalf of the BH I/DD Tailored Plan, including for the initial transition to BH I/DD Tailored Plan.

Transferred information described here is collectively referred to as the transition file content.

i. If a member enrolls with the BH I/DD Tailored Plan, the BH I/DD Tailored Plan shall, within five (5) Business Days from the Department’s notification of the member’s anticipated enrollment date, contact the member, if necessary, to confirm the name of the former BH I/DD Tailored Plan, Standard Plan, other plan established by the Department, or other entity, such as NC Medicaid Direct, to request relevant member information.

ii. If the member was already inpatient on their first day of enrollment in the BH I/DD Tailored Plan and was previously not eligible for Medicaid, the BH I/DD Tailored Plan shall bear the financial responsibility for the full amount of the DRG-based inpatient facility claims.

The Department plans to seek authority to cover most of the current 1915(b)(3) services through 1915(i) authority. The Department is also considering seeking federal authority to provide Medicaid coverage for select home and community-based services that are currently covered under the state-funded I/DD service array. providers to receive vaccines at no cost for children eligible for Medicaid who are under age nineteen (19).

1. The BH I/DD Tailored Plan shall require that primary care providers administer vaccines consistent with the American Academy of Pediatrics (AAP)/Bright Future periodicity schedule.

2. The BH I/DD Tailored Plan shall only pay for the vaccine administration fee for VFC eligible children.

3. Vaccines provided for children enrolled in Medicaid outside of VFC are not an allowed expense.

4. Vaccines provided for children enrolled in NC Health Choice are not covered by the VFC program. The BH I/DD Tailored Plan shall reimburse the provider for both the vaccine and administration fee for NC Health Choice beneficiaries.

3. Health education and anticipatory guidance for both the child and caregiver.

(m) Changes to Covered Benefits

1. The BH I/DD Tailored Plan shall cover benefits consistent with any approved State Plan Amendments (SPAs) to the North Carolina Medicaid or NC Health Choice State Plans and consistent with any approved Medicaid waivers, except to the extent the service is carved out of Medicaid Managed Care.

(n) Institutions for mental disease (IMD) SUD Services

Under North Carolina’s 1115 waiver authority, the BH I/DD Tailored Plan shall provide coverage for substance use disorder services for members aged twenty-one (21) through sixty-four (64) in an IMD, as well as any other State Plan services for which they may be eligible during their stay in the IMD.

2. The BH I/DD Tailored Plan shall provide the Department with a weekly report on members who are residing or have resided in an IMD for SUD treatment as defined in Section VII. Attachment J. Reporting Requirements to support 1115 waiver reporting to CMS. The report shall be submitted to the Department by each Friday and no later than fourteen (14) Calendar Days from the applicable admission or discharge date.

(o) For members newly enrolled in the BH I/DD Tailored Plan with no immediately prior period of Medicaid Managed Care enrollment or NC Medicaid Direct enrollment with inpatient coverage, the BH I/DD Tailored Plan shall be responsible for any diagnosis-related group based inpatient facility claims if the member’s first day of BH I/DD Tailored Plan enrollment is during the hospital stay.

(iv) Medical Necessity
(a) The BH I/DD Tailored Plan shall cover all medically necessary services for its enrolled members in accordance with Section V.B.2. Benefits.

(b) The BH I/DD Tailored Plan shall provide medically necessary services to all enrolled members under the age of twenty-one (21) beginning at birth, which are necessary to treat or ameliorate defects, physical or BH, and conditions identified by an EPSDT screen, considering the medical necessity criteria specific to EPSDT defined in Section V.B.2.ii. Early and Periodic Screening, Diagnostic and Treatment for Medicaid Members, 42 U.S.C. § 1396d(r), and 42 C.F.R. § 441.50-62 and the needs of the child.

(c) The BH I/DD Tailored Plan may place appropriate limits on a service based on medical necessity, or for utilization control, consistent with Section V.B.2.i.(v) Utilization Management below and as permitted by 42 C.F.R. § 438.210(a)(4)(ii), provided the services furnished can be reasonably expected to achieve their purpose.

(d) The BH I/DD Tailored Plan shall work with providers to ensure that providers identify an appropriate new level of care for a member who no longer meets the medical necessity criteria for an existing service.

(e) The BH I/DD Tailored Plan shall determine whether a service is medically necessary on a case by case basis.

(f) For Medicaid Managed Care members under the age of twenty-one (21), the BH I/DD Tailored Plan shall not issue adverse determinations on requests for a medical service coverable under 42 U.S.C. § 1396d(a), (§1905(a) of the Social Security Act) unless the decision is made following a medical necessity review per EPSDT federal standards.

(v) Utilization Management

(a) The BH I/DD Tailored Plan shall develop a utilization management (UM) program for medical, BH, I/DD, LTSS, and pharmacy services that is based on nationally-recognized, evidence-based clinical practice guidelines and decision support methodologies to support UM and prior authorization for services not otherwise defined in mandated clinical coverage policies. The BH I/DD Tailored Plan shall ensure the UM program aligns with the parameters laid out in Section V.A.1.iv. Third Party (Subcontractor) Contractual Relationships, to the degree a subcontractor relationship applies.

(b) UM Program Policy

(1) The BH I/DD Tailored Plan shall document the UM program, including referral and prior authorization processes, in a written UM Program Policy and submit to the Department for review one hundred fifty (150) Calendar Days after Contract Award.

(2) Subject to Department review and approval, the UM Program Policy, consistent with 42 C.F.R. § 438.210(b), shall contain written policies and procedures for, at a minimum, the following:

i. Service authorization. Prior and concurrent authorization of services, including the process used to authorize services, criteria used to support authorization of services;

ii. Mechanisms to ensure consistent application of review criteria, inter-rater reliability, and when appropriate, consultation with the requesting provider;

iii. Mechanisms to assess whether members are receiving the appropriate level of care corresponding to their clinical information;

iv. Authorization of State Plan LTSS based on a member’s current needs assessment and consistent with the person-centered service plan;

v. Evaluation of the consistency with which UM criteria are applied to service authorization decisions;

vi. Timeframes for decision making related to service authorizations in accordance with time frames specified in 42 C.F.R. § 438.210(d) and as outlined in the Contract;
vii. Protecting members from discouragement, coercion, or misinformation about the amounts of services that they may request in their plans of care or their right to appeal the denial or reduction or termination of a service;

viii. Mechanisms for detecting and addressing instances of overutilization, underutilization, and misutilization;

ix. Identification of all UM activities delegated to other entities, the delegate’s accountability for these activities, and the frequency of reporting to the BH I/DD Tailored Plan;

x. Standards for organ transplants that provide for similarly situated individuals to be treated alike and for any restriction on facilities or practitioners to be consistent with the accessibility of high quality care to members. Section 1903(i) of the Social Security Act;

xi. Dissemination of guidelines to all affected providers and, upon request, to members and potential members; and

xii. Consistent with 42 C.F.R. § 438.210(e), ensures that compensation to individuals or entities that conduct UM activities is not structured to provide financial incentives for the individual or entity to deny, limit, or discontinue services to any member.

(3) The BH I/DD Tailored Plan shall revise the UM Program Policy based on changes requested by the Department and submit to the Department in writing any changes to the UM Program Policy no less than sixty (60) Calendar Days before such changes go into effect.

(4) The BH I/DD Tailored Plan shall post the UM Program Policy on their publicly available website for providers and members, or in other forms as requested by the provider or member, at no cost. The BH I/DD Tailored Plan shall include a prominent reference to the web address of the UM Program Policy in both its provider and Member Handbooks, including Innovations and TBI Waiver Handbooks.

(5) The BH I/DD Tailored Plan shall provide training and education to providers including prescribers on changes to the UM Program prior to the effective date of the change as part of the Provider Training Plan as described in Section V.B.4.iii. Provider Relations and Engagement.

(6) The UM Program shall comply with the federal laws and regulations on mental health parity, including Mental Health Parity and Addiction Equity Act (MHPAEA), 42 C.F.R. §438.3(e)(1)(ii) and 438.910(b)-(d).

i. Annually, the BH I/DD Tailored Plan shall submit a completed standardized parity analysis workbook, developed by the Department and provided upon award, to demonstrate compliance.

(c) The BH I/DD Tailored Plan shall have the option of using the Department’s NC Medicaid Direct clinical coverage policies as the basis for the UM program or developing its own for all covered services with the exception of those listed in Section V.B.2. Table 6: Required Clinical Coverage Policies.

(d) The UM process must support an integrated, holistic look at an enrollee’s physical health, LTSS, BH, and I/DD needs, noting that alternative treatments or supports may be appropriate in light of a beneficiary’s complete clinical and other support needs.

(e) The Clinical Practice Guidelines shall:

(1) Be based on valid and reliable clinical evidence or consensus of providers in a particular field;

(2) Consider the needs of members;

(3) Be adopted in consultation with contracting health professionals;

(4) Be reviewed and updated periodically as appropriate; and
(5) Starting in Contract Year 1, meet the clinical practice guidelines required for Health Plan Accreditation with LTSS distinction set forth by the National Committee for Quality Assurance (NCQA). 42 C.F.R. § 438.236(b).

(f) The Department will allow “proprietary” UM policies under limited circumstances, with prior approval by the Department.

(g) A chart of all North Carolina Medicaid and NC Health Choice clinical coverage policies is found in Section VII. Attachment B. Summary of Medicaid and NC Health Choice Covered Services & Clinical Coverage Policies.

(h) For a limited number of services, the BH I/DD Tailored Plan shall incorporate existing NC Medicaid Direct, NC Health Choice, and State-funded clinical coverage policies into the UM Program to maintain services for specific vulnerable populations, maximize federal funding, and comply with State mandates, as described in Section V.B.2. Table 6: Required Clinical Coverage Policies.

(i) The Department reserves the right to require the BH I/DD Tailored Plan to follow additional NC Medicaid Direct clinical coverage policies developed by the Department after the effective date of this Contract based on the rationale listed herein.

(j) The BH I/DD Tailored Plan shall make the CMO or designee available to discuss and report on the UM Program, as requested by the Department.
(k) The BH I/DD Tailored Plan shall use a standardized prior authorization request form developed by the Department.

(l) The BH I/DD Tailored Plan shall, prior to the decision on a request for prior approval, limit contacts with the requesting provider or member (including telephone and email contacts) to those needed to obtain more information about the service request and/or to provide education about covered services.

1. Providers and members will not be asked to withdraw or modify a request for prior approval of a covered service in order to accept a lesser number of hours, or less intensive type of service, or to modify a SNAP (Supports Needs Assessment Profile) or SIS® score or other clinical assessment.

2. Material misinformation to or intimidation of providers or members who has the foreseeable effect of significantly discouraging request for covered services, continuation of covered services, or the filing or prosecution of OAH Appeals is prohibited. The care management process shall not be used to improperly influence, change or prevent a request for a prior approval.

3. Nothing in this paragraph should be construed to prevent clinical or treatment discussions.

(m) The BH I/DD Tailored Plan shall not retract a service authorization after the services, supplies, or other items have been provided, except as provided in N.C. Gen. Stat. § 58-3-200(c).

(n) The BH I/DD Tailored Plan shall not retract a prior authorization for emergency services after the services have been provided, except as provided in N.C. Gen. Stat. § 58-3-190(c).

(o) Any decision to deny a service authorization request or to authorize a service in an amount, duration, or scope that is less than requested must be made by an individual who has appropriate expertise in addressing the member’s medical, BH, I/DD, TBI, or long-term services and supports needs. 42 C.F.R. § 438.210(b)(3).

(p) As part of the UM program, the BH I/DD Tailored Plan shall adhere to the following prior authorization requirements.

1. To effectively manage the care of its members, the BH I/DD Tailored Plan shall establish and maintain a referral and prior authorization process that is centered on the member’s primary care provider (PCP).

2. The BH I/DD Tailored Plan shall conduct prior authorization reviews using current clinical documentation and must consider the comprehensive range of the member’s physical health, LTSS, BH, I/DD and TBI needs, noting that alternative treatments or supports may be appropriate in light of a member’s complete clinical and other support needs.

3. The BH I/DD Tailored Plan may require a referral for any medical services not provided by the PCP except where specifically prohibited in the Department-BH I/DD Tailored Plan contract and in federal and state statute and regulations.

4. The BH I/DD Tailored Plan shall not require the submission of an Individualized Education Program (IEP) plan as a condition of receiving a prior authorization nor shall evidence of an IEP be grounds for a prior authorization request denial for services that are not required to be provided by the LEA.

5. Consistent with 42 C.F.R. § 438.206, the BH I/DD Tailored Plan shall not require referral or prior authorization on any of the following services, and shall include information on services that do not require a referral or prior authorization in its Member Handbook:

c) The BH I/DD Tailored Plan shall not refuse to cover emergency services, including ambulance services, based on the provider of such services, the hospital, or the fiscal agent not notifying the member’s PCP or BH I/DD Tailored Plan of the member’s screening and treatment within ten (10) Calendar Days of presentation for emergency services.

d) The BH I/DD Tailored Plan shall cover and pay for emergency services regardless of whether the provider that furnishes the services is in the BH I/DD Tailored Plan’s Network.

(2) For standard authorization decisions, the BH I/DD Tailored Plan shall provide notice as expeditiously as the member’s condition requires and no later than fourteen (14) Calendar Days following receipt of the request of services. 42 C.F.R. § 438.210(d)(1).15

---

15 For Standard Plan members transferring to the Behavioral Health I/DD Tailored Plan in order to obtain a service only available through the Behavioral Health I/DD Tailored Plan, the timeline for processing the service authorization period—both for standard and expedited requests—will begin when the Department receives the request to transfer to a Behavioral Health I/DD Tailored Plan.
(3) The BH I/DD Tailored Plan may receive a possible extension of service authorization decision of up to fourteen (14) Calendar Days if the member requests the extension or the BH I/DD Tailored Plan justifies a need for additional information and how the extension is in the member’s interest.

(4) If the BH I/DD Tailored Plan extends the timeframe beyond fourteen (14) Calendar Days, the BH I/DD Tailored Plan shall provide the member and provider with a written notice of the reason for the decision to extend the timeline and inform the member of the right to file a Grievance if he or she disagrees with that decision.

   ii. The BH I/DD Tailored Plan shall utilize a NC Medicaid-approved template to notify members enrolled in the Innovations waiver of the results of any new SIS® evaluation and to inform members in writing of the opportunity and process for:
       a) Raising concerns regarding SIS® evaluations and results, and
       b) Filing a Grievance regarding SIS® evaluations and results.
   iii. The process for raising concerns shall include an opportunity to discuss the results of the SIS® evaluation with the BH I/DD Tailored Plan and the potential for the results to be adjusted if it is determined that the particular needs of the individual were not accurately captured.
   iv. The failure to request a Grievance shall not waive the Innovations waiver member’s ability to argue that the results of the SIS® evaluation are incorrect in requesting of services, or during reconsideration review or the State Fair Hearing.
   v. The BH I/DD Tailored Plan shall ensure that the SIS® is used to guide the development of the ISP, and that the results of the SIS®, or any other similar evaluation, are not the sole basis for limiting the services requested or approved. The BH I/DD Tailored Plan may use the SIS® in conjunction with other information to reduce or deny requested services.

(2) The BH I/DD Tailored Plan shall ensure that the TBI waiver level of care tool is used to determine whether a member meets the level of care required for the TBI waiver.

---

16 For Standard Plan members transferring to the Behavioral Health I/DD Tailored Plan in order to obtain a service only available through the Behavioral Health I/DD Tailored Plan, the timeline for processing the service authorization period—both for standard and expedited requests—will begin when the Department receives the request to transfer to a Behavioral Health I/DD Tailored Plan.
(3) The BH I/DD Tailored Plan shall ensure that any request for authorization of services is consistent with and incorporates the desires of the Innovations waiver or TBI waiver member and that such desires are reflected in the Innovations or TBI waiver member’s ISP, including the desired type, amount and duration of services. Review of requests for authorization of services shall be made in accordance with 42 C.F.R. § 438.210(d). See Section V.B.3.ii.(xiii) Additional Tailored Care Management Requirements for Members Enrolled in the Innovations or TBI Waiver for additional details.

ii. The member’s care manager based in a BH I/DD Tailored Plan, AMH+ or CMA shall assist the member in developing an ISP and shall explain options regarding the services available to the member.

(4) The BH I/DD Tailored Plan shall inform Innovations and TBI waiver members that they may make a new request for services at any time by requesting an updated ISP.

(5) Care managers based in a BH I/DD Tailored Plan, AMH+ or CMA may not exercise prior authorization authority over the ISP.

(6) BH I/DD Tailored Plans shall issue prior authorizations for all BH and I/DD services covered under the 1915(c) waivers and any forthcoming 1915(i) SPAs according to the requirements set forth in the service definitions that will be established by the Department.

(7) The BH I/DD Tailored Plan may act to terminate a member from participation in the Innovations or TBI waiver based upon the following circumstances:

ii. The member no longer meets the Level of Care criteria stipulated in the Innovations or TBI Waiver.

iii. For other reasons explicitly authorized in the Innovations or TBI waiver approved by CMS.

(s) UM Policy for DSOHF facilities

(1) The BH I/DD Tailored Plan shall comply with the authorization and admission requirements for state psychiatric hospitals, ADATCs and developmental centers in accordance with N.C. Gen. Stat. § 122C-261(f)(4) and Section VII. Attachment N. Addendum for Division of State Operated Healthcare Facilities. Prior to authorizing or making a referral for the admission to a state psychiatric hospital, the BH I/DD Tailored Plan shall first make every effort to identify an appropriate alternative treatment location, including referral to community inpatient psychiatric units or other locations providing the necessary level of care. This effort may also include specialized or wrap around services for special populations such as individuals with IDD, TBI or dementia.

(2) Prior to referral or authorization of any member known or reasonably believed to have an intellectual disability for admission to a state psychiatric hospital, the BH I/DD Tailored Plan must verify that the referral is in accordance with the requirements of N.C. Gen. Stat.
§ 122C-261 and any other applicable North Carolina law governing the admission of members with intellectual disabilities to a State psychiatric hospital.

(3) For members who have multiple disorders and medical fragility or have multiple disorders and deafness, the BH I/DD Tailored Plan shall be designated by the Department to determine whether members have a high level of disability that alternative care is inappropriate, consistent with N.C. Gen. Stat. § 122C-261(e)(4).

(4) In determining whether members are eligible for referral and/or authorization for admission to a State psychiatric hospital, the BH I/DD Tailored Plan must utilize and complete the I/DD diversion process and tools established and approved by the Department for this purpose in order to determine that any less restrictive and less costly options in the community have been exhausted.

(vi) Telehealth, Virtual Patient Communications and Remote Patient Monitoring

(d) The BH I/DD Tailored Plan shall not require a member to seek the services through Telehealth and must allow the member to access an in-person service through an out-of-network provider, if the member requests.

(e) As part of the UM Program Policy, the BH I/DD Tailored Plan shall develop and submit a Telehealth, Virtual Patient Communications and Remote Patient Monitoring Coverage Policy to the Department. The Telehealth, Virtual Patient Communications and Remote Patient Monitoring Coverage Policy shall include:

2. For all services provided through Telehealth, the BH I/DD Tailored Plan shall reimburse for a facility fee at the originating site when the originating site is a Medicaid-enrolled provider.
(g) The BH I/DD Tailored Plan shall pilot new approaches to Telehealth, Virtual Patient Communications and Remote Patient Monitoring and Value-Based Payment and shall support providers in optimizing the use of these services in their practices. For purposes of any pilot, the BH I/DD Tailored Plan may propose, for the Department’s review and approval, a waiver of payment parity requirements.

(vii) In Lieu of Services (ILOS)

(a) The BH I/DD Tailored Plan may use ILOS, services or settings that are not covered under the North Carolina Medicaid and NC Health Choice State Plans, but are a medically appropriate, cost-effective alternative to a State Plan covered service. 42 C.F.R. § 438.3(e)(2)i-iv.

(b) The BH I/DD Tailored Plan shall submit the Department’s standardized ILOS Service Request Form, prior to implementation to the Department for approval.

1. In no instance shall the BH I/DD Tailored Plan reduce or remove ILOS service without approval by the Department within a contract year.

2. If changes, reduction, or removal of ILOS services is approved, the BH I/DD Tailored Plan shall notify all members of the change by mail and update all marketing and educational materials to reflect the change at least thirty (30) Calendar Days prior to the effective date of the change.

   i. The BH I/DD Tailored Plan shall notify the Department of the transition plan for current members receiving the terminated ILOS and notify all members of other approved service options.

3. If the BH I/DD Tailored Plan wishes to offer an ILOS previously approved by the Department as outlined in Section VII. Attachment C. 4. Upon approval, the BH I/DD Tailored Plan shall post ILOS policies on its publicly available member and provider websites.

6. The BH I/DD Tailored Plan shall not require the member to utilize an ILOS.

(viii) Value-Added Services

(a) The BH I/DD Tailored Plan may offer Value-Added Services as approved by the Department. For each value-added service, the BH I/DD Tailored Plan shall submit to the Department for approval, in the Department developed standardized template, the following information:

1. If changes, reduction, or removal of Value-Added Services is approved, the BH I/DD Tailored Plan shall notify all members of the change by mail and update all marketing and
educational materials to reflect the change at least thirty (30) Calendar Days prior to the effective date of the change.

1. The BH I/DD Tailored Plan shall ensure that any approved Specialized Services are part of the nursing facility’s plan of care for the member and shall coordinate with the nursing facility and other providers, as relevant, to ensure that such specialized services are delivered.

(x) Cost Sharing

(a) The BH I/DD Tailored Plan shall impose the same cost sharing amounts as specified in North Carolina’s Medicaid and NC Health Choice State Plans which are displayed in Section V.B.2. Table 7 Medicaid Managed Care Cost Sharing below.

Notification to members shall be provided at least thirty (30) Calendar Days in advance of the effective date of such change.

(2) The Department shall provide written notice to members of the aggregate family limit on cost sharing. The Department shall provide written notice to the BH I/DD Tailored Plan and members when a member incurs out-of-pocket expenses up to the aggregate

\(^{17}\) The NC Health Choice annual fee is collected by the counties, not by the BH I/DD Tailored Plan.
household limit and individual household members are no longer subject to cost sharing for the remainder of the quarter.

(g) Electronic Verification System Requirements.

i. The BH I/DD Tailored Plan must utilize an Electronic Visit Verification (EVV) system to verify personal care services, including Medicaid State Plan and all waiver services that provide assistance with ADLs that are provided in the member’s home and are not provided as a per diem service, prior to releasing payment.

ii. The BH I/DD Tailored Plan must utilize an EVV system to collect the following data as required by the federal mandate and other data as required by the state for claims adjudication, as referenced in the 21st Century CURES Act, 114 U.S.C. § 255:
   a) Type of service performed;
   b) Individual receiving the service;
   c) Date of the service;
   d) Time that the service begins;
   e) Location of service delivery;
   f) Individual providing the service; and
   g) Time that service ends

iii. If the BH I/DD Tailored Plan utilizes an existing EVV system, usage may continue provided that the system is compliant with state and federal regulations and can deliver to the Department required EVV data in a format and frequency specified by the Department.

iv. The BH I/DD Tailored Plan shall ensure that utilization of an EVV system for State Plan Personal Care Services, Innovations waiver services, and TBI waiver services is in effect by BH I/DD Tailored Plan launch. The BH I/DD Tailored Plan shall ensure that utilization of an EVV system for Home Health Care Services is in effect by January 1, 2023.

v. At time of BH I/DD Tailored Plan implementation, the BH I/DD Tailored Plan shall deliver the EVV data elements to the Encounter Processing System (EPS) for personal Care Services or services that provide support with activities of daily living in a member’s home that are not daily rate services.

vi. The BH I/DD Tailored Plan shall permit providers to continue using their existing EVV system provided that the system is compliant with state and federal regulations.

(h) Moral and Religious Objection

i. The BH I/DD Tailored Plan is not required to provide, reimburse for, or provide coverage of, a counseling or referral service if it objects to the service on moral or religious grounds so long as the information requirements of 42 C.F.R. § 438.102(b) have been met. This provision does not apply to a BH I/DD Plan that is also a governmental entity.

ii. If the BH I/DD Tailored Plan elects not to provide, reimburse for, or provide coverage of, a counseling or referral service because of an objection on moral or religious grounds, the BH I/DD Tailored Plan shall furnish information about the services it does not cover to the Department, and to any other Department partner as directed by the Department, whenever it adopts such a policy during the term of the contract. Section 1932(b)(3)(B)(i) of the SSA; 42 C.F.R § 438.102(b)(1)(ii)(A)(2).

ii. Early and Periodic Screening, Diagnostic and Treatment (EPSDT) for Medicaid Members
   i) The BH I/DD Tailored Plan shall cover services, products, or procedures for a Medicaid member under the age of twenty-one (21) if the service is medically necessary health care to correct or
ameliorate a defect, physical or mental illness, or a condition [health problem] identified through a screening examination. This includes any evaluation by a physician or other licensed practitioner.

(ii) The BH I/DD Tailored Plan shall ensure EPSDT services are furnished in an amount, duration and scope no less than the amount, duration, and scope for the same services under NC Medicaid Direct and as defined in the Department’s EPSDT policies.

(iii) The BH I/DD Tailored Plan shall cover regular wellness visits to all children enrolled in Medicaid under the age of twenty-one (21) to allow health care providers to carefully monitor a child’s overall health and development and to identify and address health concerns as early as possible.

(iv) The BH I/DD Tailored Plan shall clearly document that all EPSDT federal criteria were considered in the course of their service authorization review process for Medicaid members under twenty-one (21) years of age.

(v) When adjudicating service authorizations for members under twenty-one (21) years of age, the BH I/DD Tailored Plan shall determine whether a service is medically necessary on a case by case basis, taking into account the medical necessity criteria specific to EPSDT defined in 42 U.S.C. § 1396d(r) and 42 C.F.R. §§ 441.50-62 and the particular needs of the child, including the application of medical necessity criteria by an appropriately licensed medical professional to the documented, individual clinical condition of the member.

(vi) Upon conclusion of an individualized review of medically necessary services, the BH I/DD Tailored Plan shall cover medically necessary services that are included within the categories of mandatory and optional services listed in 42 U.S.C. § 1396d(r), regardless of whether such services are covered under the North Carolina Medicaid State Plan and regardless of whether the request is labeled as such. The BH I/DD Tailored Plan shall refer to and/or arrange for any medical service described in 42 U.S.C. § 1396d(r), when those services are not included within the scope of this Contract. The final determination of medical necessity, per criteria specified in 42 U.S.C. § 1396d(r) and 42 C.F.R. §§ 441.50-62, is the responsibility of the BH I/DD Tailored Plan responsible for delivery of the referred service, product, or treatment.

(vii) The BH I/DD Tailored Plan may provide medically necessary services in the most economic mode possible, if:

(a) The treatment made available is similarly efficacious to the service requested by the member’s physician, therapist, or other licensed practitioner;

(b) The determination process does not delay the delivery of the needed service; or

(c) The determination does not limit the member’s right to a free choice of providers within the BH I/DD Tailored Plan’s Network.

(viii) Specific limits (number of hours, number of visits, or other limitations on scope, amount or frequency, multiple services in the same day, or location of service) in clinical coverage policies, UM policies, service definitions, or billing codes do not apply to Medicaid members who are less than twenty-one (21) years of age when those services are determined to be medically necessary per federal EPSDT criteria. If a service is requested in quantities, frequencies, or at locations or times exceeding policy limits and the request is reviewed and approved to correct or ameliorate a defect, physical or mental illness, it shall be provided. This includes limits on visits to physicians, therapists, dentists, or other licensed, enrolled clinicians. Note that visits to dentists shall not be billed to the BH I/DD Tailored Plan but shall be billed to NC Medicaid Direct.

(ix) The BH I/DD Tailored Plan shall:

(a) Require all in-network primary care providers to perform, during preventive service visits and as necessary at any visit, oral health assessments, evaluations, prophylaxis and oral hygiene counseling for children under twenty-one (21) years of age in accordance with the Department’s Oral Health Periodicity Schedule.

(b) Require all in-network primary care providers to refer infant Medicaid members to a dentist or a dental professional working under the supervision of a dentist at age one (1), per
requirements of the Department’s Oral Health Periodicity Schedule. Note that services provided by a dentist are carved out of Medicaid Managed Care and should be billed to NC Medicaid Direct.

(c) Require that participating primary care providers include all of the following components in each medical screening.

(1) Routine physical examinations as recommended and updated by the American Academy of Pediatrics (AAP) “Guidelines for Health Supervision III” and described in “Bright Futures: Guidelines for Health Supervision of Infants, Children and Adolescents.”
   i. Screening for developmental delay at each visit through the fifth (5th) year; and
   ii. Screening for Autistic Spectrum Disorders per AAP guidelines.

(2) Comprehensive, unclothed physical examination.

(3) All appropriate immunizations, in accordance with the schedule for pediatric vaccines established by the Advisory Committee on Immunization Practices.

(4) Laboratory testing (including blood lead screening appropriate for age and risk factors).

(5) Health education and anticipatory guidance for both the child and caregiver.

(x) The BH I/DD Tailored Plan shall ensure and verify that network BH providers coordinate with primary care providers and specialists conducting EPSDT screenings.

(xi) The BH I/DD Tailored Plan shall not require prior authorization for preventive care (early and periodic screens/wellness visits) for Medicaid members less than twenty-one (21) years of age. The BH I/DD Tailored Plan may require prior authorization for other diagnostic and treatment products and services provided under EPSDT.

(xii) The BH I/DD Tailored Plan shall comply with the Department’s standards for the timely provision of EPSDT services. For purposes of this Contract, the “timely provision of the EPSDT services” shall mean that a member shall have a scheduled appointment for an EPSDT service no more than six (6) calendar weeks from the date of the request for an appointment.

(xiii) The BH I/DD Tailored Plan shall provide referral assistance for non-medical treatment not covered by the plan but found to be needed because of conditions disclosed during screenings and diagnosis. The referral assistance must include giving the family or member the names, addresses, and telephone numbers of providers who have expressed a willingness to furnish uncovered services at little or no expense to the family.

(xiv) The BH I/DD Tailored Plan shall effectively inform families or primary caregivers of eligible children under twenty-one (21) years of age of the EPSDT benefit, including availability and importance of:
   (a) Regular preventive care, and
   (b) Scope of services, products and treatments available when medically necessary to correct or ameliorate a health condition or problem.

(xv) The BH I/DD Tailored Plan shall inform all EPSDT eligible individuals (or their families) about the EPSDT program within sixty (60) Calendar Days of eligibility determination, annually thereafter for individuals who have not accessed the benefit, and as defined in Section V.B.1.iii. Member Engagement.

(xvi) The BH I/DD Tailored Plan shall perform outreach to members who are due or overdue for an EPSDT screening service monthly.

(xvii) The BH I/DD Tailored Plan shall effectively inform members and/or their parents or primary caregivers who are blind or deaf or who cannot read or understand the English language about the EPSDT benefit in accordance with the Section V.B.1.iii. Member Engagement.

(xviii) The BH I/DD Tailored Plan shall not make an adverse benefit determination on a service authorization request for a child until the request is reviewed per EPSDT criteria.

(xix) While an EPSDT request is under review, the BH I/DD Tailored Plan may suggest alternative services that may be better suited to meet the child’s needs, engage in clinical or educational discussions with participants or providers, or engage in informal attempts to resolve participant concerns as
long as the BH I/DD Tailored Plan makes clear that the member has the right to request authorization of the services he or she wants to request.

(a) The BH I/DD Tailored Plan shall not request that providers or members withdraw or modify a request for EPSDT services to accept a fewer number of hours, or less intensive type of service, or to modify a SNAP (Support Needs Assessment Profile) or other clinical assessment.

(b) Material misinformation to or intimidation of providers or members who has the foreseeable effect of significantly discouraging a request for EPSDT services or the filing or prosecution of OAH Appeals is prohibited.

(c) Nothing in this Section should be construed to prevent clinical or treatment discussions.

(xx) The BH I/DD Tailored Plan shall offer assistance with scheduling appointments for EPSDT services, upon a member’s request.

(xxi) The BH I/DD Tailored Plan shall make appropriate use of State health agencies, State vocational rehabilitation agencies, and Title V grantees (Maternal and Child Health/Crippled Children's Services) for referrals. The BH I/DD Tailored Plan shall also make use of other public health, mental health, and education programs and related programs, such as Head Start, Title XX (Social Services) programs, and the Special Supplemental Food Program for Women, Infants and Children (WIC), to ensure an effective child health program.

(xxii) The BH I/DD Tailored Plan shall submit the EPSDT Policy to the Department for review one hundred fifty (150) days after Contract Award and annually thereafter.

(xxiii) Educational and Training Materials

(a) The BH I/DD Tailored Plan shall develop written and verbal educational materials on EPSDT, including educational materials for members and any publicly disseminated materials describing the EPSDT benefit, the EPSDT medical necessity review and operational details of the federal EPSDT guarantees.

(1) The BH I/DD Tailored Plan shall submit the materials to the Department for review and approval as defined in Section V.B.1.iii. Member Engagement.

(2) The BH I/DD Tailored Plan may develop additional educational materials related to EPSDT in addition to the required consumer notice requirements defined within the Contract.

3. Care Management

i. Overview

(i) The Department believes that care management is a crucial driver to help achieve key goals of BH I/DD Tailored Plans, including integrated, whole-person care and fostering coordination and collaboration among care team members across disciplines and settings.

(ii) The Department has developed Tailored Care Management, described in Section V.B.3.ii. Tailored Care Management, as the predominant care management model for the BH I/DD Tailored Plan population.

(iii) The BH I/DD Tailored Plan shall be responsible for implementing the Tailored Care Management model as described in Section V.B.3.ii. Tailored Care Management and engaging its members in Tailored Care Management.

(iv) Beyond Tailored Care Management, the BH I/DD Tailored Plan shall be responsible for delivering care coordination and managing care transitions for all members, regardless of whether they participate in Tailored Care Management, as described in Section V.B.3.iii. Care Coordination and Care Transitions for all Members.

(v) The BH I/DD Tailored must also provide additional care management and care coordination functions as detailed in Section V.B.3.iv. Additional Care Coordination Functions for Members Enrolled in the Innovations or TBI Waiver, Section V.B.3.v. Other Care Management Programs, Section V.B.3.vii. System of Care, and Section V.B.3.viii. In-reach and Transition from Institutional Settings.

ii. Tailored Care Management

(i) Model Overview and Objectives

(a) Tailored Care Management is built on the principle that provider- and community-based care management is crucial to the success of fully integrated managed care. The BH I/DD Tailored Plan must ensure that care managers delivering Tailored Care Management coordinate across a member’s whole-person needs, including physical health, BH, I/DD, TBI, LTSS, pharmacy and Unmet Health-Related Resource Needs.

(b) The Department is committed to the principle that placing care management as close as possible to the beneficiary and the site of care will drive better health outcomes.

(c) The BH I/DD Tailored Plan shall ensure that Tailored Care Management is available to all BH I/DD Tailored Plan members, regardless of geography, continuously throughout their enrollment, unless they are receiving duplicative Care Management services as defined in Section V.B.3.ii.(xiv)(g) Duplication of Care Management.

(d) Tailored Care Management is also designed to align with the North Carolina System of Care framework. The North Carolina System of Care framework was developed to address the unique needs and challenges of children and youth with BH needs.

(e) Federal Health Home Structure

(1) The Department intends to submit a SPA to add Tailored Care Management as a Health Home State Plan benefit.
(2) The BH I/DD Tailored Plan shall act as the designated Health Home for its members. In its role as a Health Home, the BH I/DD Tailored Plan shall ensure that members have access to Care Management that meet the requirements of this Section and federal Health Home requirements.

(3) The BH I/DD Tailored Plan shall cooperate with the Department in the administration of North Carolina’s Section Health Home SPA, including implementation, providing reporting and data, and other requirements.

(ii) Delivery of Tailored Care Management

(a) The BH I/DD Tailored Plan must offer the following three approaches for delivering Tailored Care Management:

(1) AMH+: To be eligible to become an AMH+, the practice must intend to become a PCP in the BH I/DD Tailored Plan network. Only AMH Tier 3 practices certified as an AMH+ practice may provide Tailored Care Management as defined in Section V.B.3.ii.(xviii) Certification of AMH+ Practices and CMAs.

(2) Care Management Agency (CMA): To be eligible to become a CMA, an organization must, at the time of certification, have as its primary purpose the delivery of NC Medicaid, NC Health Choice, or State-funded Services, other than Care Management, to the BH I/DD Tailored Plan eligible population in North Carolina. Provider organizations must be certified as a CMA to provide Tailored Care Management as defined in Section V.B.3.ii.(xviii) Certification of AMH+ Practices and CMAs.

(3) BH I/DD Tailored Plan-based care managers: The BH I/DD Tailored Plan may provide Tailored Care Management.

(b) Provider-based Tailored Care Management

(1) The Department considers Tailored Care Management delivered by an AMH+ practice or a CMA to be provider-based.

(2) The BH I/DD Tailored Plan must contract with all organizations in its Region that receive AMH+ or CMA certification to provide Tailored Care Management, with limited exceptions as described in Section V.B.3.ii.(xviii) Certification of AMH+ Practices and CMAs and Section V.B.3.ii.(xix) Oversight.

(3) The BH I/DD Tailored Plan shall meet annual requirements established by the Department for the percentage of members actively engaged in Provider-based Tailored Care Management approaches, meaning members who are receiving at least one (1) of the following six (6) core Health Home services in that month:

i. Comprehensive care management;
ii. Care coordination;
iii. Health promotion;
iv. Comprehensive transitional care/follow-up;
v. Individual and family supports; or
vi. Referral to community and social support services.

vii. CMS guidance on the core Health Home core service definitions and related activities can be found at the following website: https://www.medicaid.gov/sites/default/files/2020-02/health-homes-section-2703-faq.pdf.

viii. The percentage shall be calculated as:

a. Numerator: Number of members actively engaged in Tailored Care Management provided by care managers based in AMH+ practices or CMAs certified by the Department
b. Denominator: Total number of members actively engaged in Tailored Care Management.
(4) Each year, the Department will divide the amount of Tailored Care Management that was
delivered to each BH I/DD Tailored Plan’s members by AMH+s and CMAs (and Clinically
Integrated Networks (CINs) or Other Partners on their behalf) by the amount of all
Tailored Care Management delivered to members of that BH I/DD Tailored Plan. The
annual required percentages for Provider-based Care Management delivered to BH I/DD
Tailored Plan members are as follows:
   i. Contract Year 1: 30 percent (30%);
   ii. Contract Year 2: 45 percent (45%);
   iii. Contract Year 3: 60 percent (60%); and
   iv. Contract Year 4: 80 percent (80%).
(5) The Department will assess compliance with annual required percentages for each
Contract Year during the first quarter of subsequent Contract Year.
(6) The Department may adjust the annual required percentages at its discretion.
(7) As part of its Care Management Policy (Section V.B.3.vi. Care Management Policy), the BH
I/DD Tailored Plan shall provide a plan for supporting development of Provider-based
Care Management and oversight of Provider-based Care Management

(iii) Eligibility for Tailored Care Management

(a) All members, including those enrolled in North Carolina’s 1915(c) Innovations and TBI waivers,
are eligible for Tailored Care Management, with the following exceptions for members
participating in services that are duplicative of Tailored Care Management:
   (1) Members obtaining Assertive Community Treatment (ACT);
   (2) Members residing in Intermediate Care Facilities for Individuals for Intellectual Disabilities
      (ICF-IIDs);
   (3) Members participating in Care Management for At-Risk Children; and
   (4) Members participating in the High-Fidelity Wraparound program as described in Section
      V.B.3.v.(v) High-Fidelity Wraparound.
(b) The Department reserves the right to require BH I/DD Tailored Plans to allow beneficiaries
enrolled in NC Medicaid Direct to enroll in Tailored Care Management if they meet the Health
Home eligibility criteria that will be specified in the forthcoming Health Home SPA.

(iv) Enrollment in Tailored Care Management

(a) The BH I/DD Tailored Plan shall auto-enroll all members eligible for Tailored Care Management
into Tailored Care Management at BH I/DD Tailored Plan launch.
(b) The BH I/DD Tailored shall allow members to opt out of Tailored Care Management at any time.
   (1) The BH I/DD Tailored Plan shall permit members who do not want to participate in
      Tailored Care Management to opt-out via a Tailored Care Management Opt-out Form,
      which the BH I/DD Tailored Plan shall submit to the Department for approval as part of
      its Care Management Policy. The form must include a place to provide the reason for
      opting out.
      i. The BH I/DD Tailored Plan shall permit the Tailored Care Management Opt-out Form
to be mailed in, completed online, filled out in person with the care manager, or filled
out over the telephone with either the BH I/DD Tailored Plan or organization assigned
      to provide Tailored Care Management.
   (2) The BH I/DD Tailored Plan shall permit a member who has opted out to opt back into
      Tailored Care Management at any time by contacting the BH I/DD Tailored Plan.
   (3) The BH I/DD Tailored Plan shall provide care coordination and manage care transitions
      for members who opt-out of Tailored Care Management as described in Section V.B.3.iii.
      Care Coordination and Care Transitions for all Members.
i. In cases where a member enrolled in the Innovations or TBI waiver opts out of Tailored Care Management, the BH I/DD Tailored Plan must provide the Innovations or TBI waiver care coordination services as stipulated by the applicable 1915(c) waiver.

(4) The BH I/DD Tailored Plan shall submit a sample care management enrollment packet as part of its Care Management Policy (Section V.B.3.vi. Care Management Policy).

(v) Tailored Care Management Assignment

(a) The BH I/DD Tailored Plan shall ensure that all members, including those enrolled in the Innovations or TBI waiver, have a choice of care management approach (outlined in Section V.B.3.ii.(ii) Delivery of Tailored Care Management). To facilitate timely engagement in Tailored Care Management, the BH I/DD Tailored Plan shall make initial Tailored Care Management assignments as described in this Section. The assignment process for Tailored Care Management shall be distinct from the Primary Care Provider (PCP) assignment process described in Section V.B.1.vii.(ii) PCP Choice and Assignment.

(b) The BH I/DD Tailored Plan must submit to the Department its methodology for assigning eligible members to Tailored Care Management based at an AMH+ practice, a CMA or the BH I/DD Tailored Plan.

(c) The BH I/DD Tailored Plan must assign members to a mix of the three Tailored Care Management approaches (outlined in Section V.B.3.ii.(ii) Delivery of Tailored Care Management) according to the factors described in Section V.B.3.ii.(v) Tailored Care Management Assignment.

(d) The BH I/DD Tailored Plan shall not assign a disproportionate mix of beneficiaries to any particular care management approach. The BH I/DD Tailored Plan must assign each AMH+ and CMA providing Tailored Care Management a justifiably sized population that allows and incentivizes the AMH+ practice or CMA to substantially engage in the model.

(e) The BH I/DD Tailored Plan must ensure that Tailored Care Management assignment aligns with the annual requirements for Provider-based Care Management as described in Section V.B.3.ii.(ii)(b) Provider-based Tailored Care Management.

(f) The BH I/DD Tailored Plan shall consider the following factors when assigning each member to care management at an AMH+ practice or a CMA, or at the BH I/DD Tailored Plan level:

(1) For Innovations and TBI waiver enrollees:

i. If the member enrolled in the Innovations or TBI waiver has an existing relationship with an LME/MCO care coordinator who meets the Tailored Care Management qualifications and training requirements as described in Section V.B.3.ii.(xiv) Staffing and Training Requirements and is employed by the member’s BH I/DD Tailored Plan or in the BH I/DD Tailored Plan’s network, the BH I/DD Tailored Plan must give the member the option of choosing their previous care coordinator as their Tailored Care Management care manager, to the extent possible.

ii. The BH I/DD Tailored Plan must assign members enrolled in the Innovations or TBI waiver to Tailored Care Management that complies with federal requirements for conflict-free case management for 1915(c) waiver enrollees. 42 C.F.R. § 431.301(c)(1)(vi). The BH I/DD Tailored Plan shall ensure that members do not obtain both 1915(c) waiver services and Tailored Care Management from employees of the same provider organization that is certified as a CMA.

(2) For all members:

i. Assignment to a Tailored Care Management approach and organization providing Tailored Care Management must occur after the PCP assignment process (outlined in Section V.B.1.vii.(ii) PCP Choice and Assignment).
ii. The BH I/DD Tailored Plan must take into account the member’s existing provider relationships at an AMH+ practice or a CMA within the BH I/DD Tailored Plan’s network and give preference to that provider when making a Tailored Care Management assignment unless there is a specific cause not to do so, including in instances of conflict of interest for Innovations and TBI waiver enrollees.

iii. The BH I/DD Tailored Plan must take into account the member’s medical complexity as well as BH and I/DD complexity when making a Tailored Care Management assignment.
   a) In instances where Children with Medical Complexity are receiving primary care through an AMH+ practice, the BH I/DD Tailored Plan shall give that AMH+ practice preference when assigning the member to a care management approach.

iv. The BH I/DD Tailored Plan must take into account the member’s geographic location when making a Care Management assignment.

v. The BH I/DD Tailored Plan shall ensure capacity at an AMH+ practice or CMA before assigning a Member to the AMH+ practice or CMA. The BH I/DD Tailored Plan must permit AMH+ practices and CMAs to set limits on their panel sizes (i.e., decline assignments based on capacity).
   a) The BH I/DD Tailored Plan shall monitor care management assignment to ensure that AMH+ practices and CMAs do not select members of their panel based on acuity tier.

(g) The BH I/DD Tailored Plan shall permit members to change the organization they are assigned to for Tailored Care Management and/or change care managers twice per year without cause and anytime with cause.

(h) The Department shall consider the following as appropriate cause for changes in care management approach, assigned organization providing Tailored Care Management, and care manager:
   (1) The AMH+, CMA, BH I/DD Tailored Plan or care manager has failed to furnish accessible and appropriate services to which the member is entitled.
   (2) The AMH+, CMA, BH I/DD Tailored Plan or care manager is not able to reasonably accommodate the member’s needs.
   (3) There is a change in the accessibility of the AMH+, CMA, BH I/DD Tailored Plan or care manager, including but not limited to the following:
      i. The organization or care manager moves to a location that is not convenient for the member.
      ii. There is a Significant Change in the hours the AMH+ practice or CMA is open and the member cannot reasonably meet during the new hours.
      iii. There is a Significant Change in the hours the care manager is available and the member cannot reasonably meet during the new hours.
   (4) The member and the assigned organization providing Tailored Care Management or the care manager agree that a change would be in the best interest of the member.
   (5) The member’s assigned AMH+ practice or CMA leaves the BH I/DD Tailored Plan’s Network or is no longer certified by the Department.
   (6) The member’s assigned AMH+ practice or CMA becomes excluded from participation in federal health care programs under either section 1128 or 1128A of the Social Security Act. 42 C.F.R. § 438.610(b).
   (7) The care manager is no longer employed by the AMH+, CMA, or BH I/DD Tailored Plan.

(i) The BH I/DD Tailored Plan shall educate members on the three different care management approaches and provide unbiased counseling on selecting an approach.
At least thirty (30) days prior to BH I/DD Tailored Plan launch, the BH I/DD Tailored Plan shall send members a Tailored Care Management enrollment packet, with information on their Tailored Care Management assignment and options for changing their assignment.

After the initial launch of the BH I/DD Tailored Plan, on an ongoing basis the BH I/DD Tailored Plan shall complete Tailored Care Management assignments and send Tailored Care Management enrollment packets to new members within fourteen (14) days of the member’s enrollment in the BH I/DD Tailored Plan.

The Tailored Care Management enrollment packet must include:

1. Information on The Tailored Care Management program, including services available for those who have opted out of Tailored Care Management
2. The nature of the care manager relationship
3. Information on the member’s Tailored Care Management assignment and options for changing their Tailored Care Management assignment
4. Process and options for changing their Tailored Care Management assignment
5. The Tailored Care Management opt-out form
6. Circumstances under which member information will be disclosed to third parties
7. The availability of the Grievance and Appeals process as described in Section V.B.1.vi. Member Grievances and Appeals

The BH I/DD Tailored Plan must share with each AMH+ practice and CMA, at least monthly, a roster of their assigned members and members’ current contact and demographic information in a manner specified by the Department.

The BH I/DD Tailored Plan must share with each AMH+ and CMA all data elements specified in Section V.B.3ii.(xv) Data System Requirements, Data Sharing, and Risk Stratification

The BH I/DD Tailored Plan must assign and must ensure that AMH+ practices and CMAs assign the member to a care manager with appropriate qualifications and experience according to the member’s needs within thirty (30) days of BH I/DD Tailored Plan enrollment.

The BH I/DD Tailored Plan shall submit its policies and procedures for Tailored Care Management assignment as part of its Care Management Policy (Section V.B.3.vi. Care Management Policy).

Outreach and Engagement

The BH I/DD Tailored Plan shall require that care managers initiate contact with assigned members who have recently been enrolled in Tailored Care Management to start the care management comprehensive assessment within 30 days of BH I/DD Tailored Plan enrollment (see Section V.B.3.ii.(vii) Care Management Comprehensive Assessment). The care manager shall educate the member about the benefits of care management and work to engage the member in a care management comprehensive assessment and care planning.

1. Contact for the purpose of starting the care management comprehensive assessment may be telephonic, through two-way real time video and audio conferencing, or in-person.

The BH I/DD Tailored Plan shall develop and ensure that AMH+ practices and CMAs also develop, policies for communicating and sharing information with members and their families and other caregivers with appropriate consideration for language, literacy and cultural preferences, including sign language, closed captioning and/or video capture.

The BH I/DD Tailored Plan shall submit its policies and procedures for outreach and engagement as part of its Care Management Policy (Section V.B.3.vi. Care Management Policy).

Care Management Comprehensive Assessment

1. The care management comprehensive assessment shall serve as the federally required initial care needs screening. 42 CFR 438.208(b)(3).

The care management comprehensive assessment is unrelated to the comprehensive clinical assessment and does not serve as a means to approve services.
(b) The BH I/DD Tailored Plan shall ensure that the assigned organization providing Tailored Care Management is responsible for conducting the care management comprehensive assessment.

(c) The BH I/DD Tailored Plan shall ensure that the care management comprehensive assessment is conducted in a location that meets the member’s needs.

(d) The BH I/DD Tailored Plan shall ensure that care managers make a best effort attempt to complete the care management comprehensive assessment in person, realizing that in limited instances it will be necessary to complete the care management comprehensive assessment via technology conferencing tools (e.g., audio and/or video tools).

(e) The BH I/DD Tailored Plan shall verify that care management comprehensive assessments are completed in a timely manner.

(f) During Contract Year 1, the assigned organization providing Tailored Care Management shall make its best effort to complete the care management comprehensive assessment within the following timeframes:

1. Members identified as high acuity: Best efforts to complete it within forty-five (45) days of BH I/DD Tailored Plan enrollment and no longer than sixty (60) days of BH I/DD Tailored Plan enrollment. 42 CFR § 438.208(b)(3).
2. Members identified as medium/low acuity: Within ninety (90) days of BH I/DD Tailored Plan enrollment. 42 CFR § 438.208(b)(3).

3. “Best effort” is defined as including at least three documented strategic follow-up attempts, such as going to the member’s home or working with a known provider to meet the member at an appointment, to contact the member if the first attempt is unsuccessful.

(g) During Contract Years after Contract Year 1, the BH I/DD Tailored Plan shall ensure that care managers make best efforts to complete the care management comprehensive assessment for new members within sixty (60) days of BH I/DD Tailored Plan enrollment. 42 C.F.R. § 438.208(b)(3).

(h) The BH I/DD Tailored Plan shall ensure that the assigned organization providing Tailored Care Management shares the results of the care management comprehensive assessment with the member’s PCP, BH, I/DD, TBI and LTSS providers, and the BH I/DD Tailored Plan within fourteen (14) days of completion to inform care planning and treatment planning, provided that the member consents to the sharing, if required by law. The BH I/DD Tailored Plan shall not withhold necessary services for members while awaiting completion of the care management comprehensive assessment.

(i) The BH I/DD Tailored Plan must attempt a care management comprehensive assessment at least annually for enrolled members who:

1. Have neither opted out nor engaged in Tailored Care Management, and
2. Are not receiving services duplicative of Tailored Care Management.

(j) The BH I/DD Tailored Plan shall ensure that a reassessment for members already engaged in Tailored Care Management is done:

1. At least annually
2. When the member’s circumstances, needs or health status changes significantly
3. After Significant Changes in scores on Department-approved level-of-care determination and screening tools (e.g., Level of Care Utilization System (LOCUS) and Child and Adolescent LOCUS (CALOCUS), ASAM, Child and Adolescents Needs and Strengths (CANS), SIS®, and Rancho Los Amigos Levels of Cognitive Functioning Scale)
4. At the member’s request

(k) When a member requests a reassessment; experiences a Significant Change in circumstances, needs or health status; experiences a Significant Change in level of care score; or experiences a triggering event, the BH I/DD Tailored Plan shall ensure that the member receives a reassessment within thirty (30) days of when the BH I/DD Tailored Plan detects the change or event. Reassessments triggered by pregnancy or childbirth must address pregnancy-specific SUD and mental health screening covering the physical and BH needs of the infant and mother.

(l) In circumstances in which a care management comprehensive assessment may have been recently performed, reassessment may consist of an addendum or update to a previous care management comprehensive assessment.

(m) The BH I/DD Tailored Plan shall develop methodologies and tools for conducting the care management comprehensive assessment, as appropriate for differing member demographics and needs.

(n) The care management comprehensive assessment shall address, at a minimum, the following:

1. Immediate care needs
2. Current services and providers across all health needs

iv. Quality measure performance information at the practice level
   a) The BH I/DD Tailored Plan shall provide quality scoring results on both an annual and an interim basis as specified by the Department, and in a format to be defined by the Department. These will include:
1) Practice-specific numerators and denominators for each measure.
2) An exhibit comparing the practice’s performance on each measure to its contracted benchmarks, and to the performance of other practices contracting with the BH I/DD Tailored Plan.
3) Practice-specific gap reports identifying members who are in the measure denominator but do not meet numerator criteria.

(8) The BH I/DD Tailored Plan shall adopt standardized data-sharing formats and protocols as they are developed by the Advisory Committee.

(9) The BH I/DD Tailored Plan shall develop a strategy to share data with members, in a format that is secure, takes into account varying levels of health literacy and promotes member engagement in care

(c) Risk Stratification

(1) As part of its approach to population health management, the BH I/DD Tailored Plan may choose to establish a risk stratification methodology in addition to the Department’s acuity tiering methodology. Any such methodology may be used to support Tailored Care Management assignment and segmentation of the population to target interventions to
the right members at the right time (for example, to prioritize completion of care management comprehensive assessments across the population).

xvi. Results of the care management comprehensive assessment (to the extent available)
xvii. Unmet Health-Related Resource Needs

(3) If the BH I/DD Tailored Plan adopts its own risk stratification methodology in addition to acuity tiering, as part of its Care Management Policy (Section V.B.3.vi. Care Management Policy), the BH I/DD Tailored Plan shall submit its risk stratification methodology.

(d) ADT Feeds for Organizations Providing Tailored Care Management

(1) The BH I/DD Tailored Plan shall ensure that organizations providing Tailored Care Management have access to an ADT data source that correctly identifies when members are admitted, discharged or transferred to/from an ED or hospital in real time or near-real time.

(2) As part of transitional care management, the BH I/DD Tailored Plan shall ensure that there is a systematic, clinically appropriate process with designated staffing for care managers responding to certain high-risk ADT alerts, including:

i. Real-time (within minutes/hours) response to notifications of ED visits, for example by contacting the ED to arrange rapid follow-up

   ii. Same-day or next-day outreach for designated high-risk subsets of the population

   iii. Additional outreach within several days after the alert to address outpatient needs or prevent future problems for patients who have been discharged from a hospital or ED (e.g., to assist with scheduling appropriate follow-up visits or medication reconciliations post-discharge)

(xvi) Tailored Care Management Payments
(a) The BH I/DD Tailored Plan shall make payments for Tailored Care Management according to the requirements in Section V.B.4.iv. Provider Payments.

(xvii) Technical Assistance to AMH+ Practices and CMAs

(a) The BH I/DD Tailored Plan shall provide ongoing technical assistance to practices going through the certification process and already certified AMH+ practices and CMAs to enable them to become high-performing providers of Tailored Care Management.

(1) Areas of technical assistance shall include, but are not limited to, health IT and data analytics capabilities to support the Department’s vision for Tailored Care Management; population health; quality measurement and performance; and integration of physical health, behavioral health, and I/DD services for care management purposes.

(2) The BH I/DD Tailored Plan shall submit a description of its approach for providing technical assistance as part of its Care Management Policy (Section V.B.3.vi. Care Management Policy).

(xviii) Certification of AMH+ Practices and CMAs

(a) The Department will implement a direct process to certify provider organizations to deliver provider-based Care Management under this model as AMH+ practices or CMAs, further described in Section VII. Attachment M.3. AMH+ Practice and CMA Certification Policy and https://medicaid.ncdhhs.gov/providers/programs-and-services/behavioral-health-idd-tailored-plan.

(b) The Department will be responsible for certification of AMH+ practices and CMAs prior to BH I/DD Tailored Plan launch. From the start of BH I/DD Tailored Plan implementation onwards, BH I/DD Tailored Plans will be responsible for certification of any new organizations seeking certification as AMH+ practices or CMAs, with oversight from the Department. The Department will release additional guidance prior to BH I/DD Tailored Plan launch to describe the parameters for certification by BH I/DD Tailored Plans. Providers applying for certification as an AMH+ and CMA that are denied certification may appeal to the Department.

(c) As stated above in Section V.B.3.ii.(ii)(b) Provider-based Tailored Care Management, the BH I/DD Tailored Plan shall contract for Tailored Care Management with all certified AMH+ practices and CMAs operating in its Region. For Contract Year 1, the Department will be responsible for providing BH I/DD Tailored Plans with the list of certified providers in each Region. The only permitted exceptions to this contracting requirement are the following:

(1) The AMH+ practice or CMA notifies the Department that it elects to withdraw from certification. The Department will provide guidance to providers for how to give such notification.

(2) During Readiness Review, if the BH I/DD Tailored Plan determines that the AMH+ practice or CMA (or CIN or Other Partner on behalf of such organizations) is not ready to meet the requirements of the Tailored Care Management model. In this situation, the BH I/DD Tailored Plan shall provide detailed reasons to the Department why it proposes to decline to contract with that AMH+ practice, CMA or CIN or Other Partner, inclusive of technical assistance provided and why the AMH+ practice, CMA or CIN or Other Partner is inadequate. For the purposes of calculating compliance with the requirement to contract with all certified AMH+ practices and CMAs, the Department reserves the right not to remove an AMH+ practice or CMA from the denominator of the calculation, if it deems the BH I/DD Tailored Plan’s reasons for not contracting to be unsatisfactory.

(3) After BH I/DD Tailored Plan launch, if the BH I/DD Tailored Plan finds the AMH+ practice or CMA to be out of compliance with the requirements of the Tailored Care Management model, then the BH I/DD Tailored Plan follows its documented process, as described in Section V.B.3ii.(xix) Oversight to terminate the contract with the AMH+ practice or CMA.
(d) AMH practices other than those certified as AMH+ practices are not required to meet the Tailored Care Management requirements within this Section; however, in their capacity as assigned PCPs for BH I/DD Tailored Plan members, they shall meet the requirements for AMH practices contained in Section VII. Attachment M.2. Advanced Medical Home Program Policy for Medicaid and NC Health Choice Members.

(e) The BH I/DD Tailored Plan shall submit its policies and procedures for certification and recertification of AMH+ practices and CMAs as part of its Care Management Policy (Section V.B.3.vi. Care Management Policy).

(xix) Oversight

(a) The BH I/DD Tailored Plan shall ensure that all requirements included in this Section are met, regardless of whether Tailored Care Management is provided by the BH I/DD Tailored Plan, an AMH+ practice, or a CMA.

(b) The Department shall permit but not require, AMH+ practices and CMAs to work with CINs or Other Partners to meet the requirements to provide Tailored Care Management.

1. Subsidiaries of LME/MCOs, BH I/DD Tailored Plans, or other health plans generally may not be considered CINs or Other Partners for the purposes of Tailored Care Management, with one exception as follows:

i. The Department recognizes that AMH+ practices and CMAs may decide to enter into arrangements with BH I/DD Tailored Plans for use of their IT products or care management data systems, in order to meet the care management data system requirements. In this scenario, the BH I/DD Tailored Plan would be considered an “Other Partner” (not a CIN) for HIT support only.

(2) To the extent that a CIN or Other Partner contracts with the BH I/DD Tailored Plan on behalf of an AMH+ practice or CMA, the BH I/DD Tailored Plan must conduct oversight of the CIN or Other Partner.

(3) To the extent an AMH+ or CMA contracts with a CIN or Other Partner, the requirements and capabilities applicable to AMH+ and CMA apply to the CIN or Other Partner.

(c) The BH I/DD Tailored Plan must create separate departments for UM and Care Management, overseen by separate leadership.

(d) The BH I/DD Tailored Plan must ensure that no care managers (whether employed by the BH I/DD Tailored Plan, an AMH+ practice, or a CMA) are related by blood or marriage or financially responsible for any of the members to whom they are assigned or have any legal power to make financial or health-related decisions for any of their assigned members.

(e) As part of its UM process, the BH I/DD Tailored Plan must review the utilization patterns of all members receiving Tailored Care Management (whether from the BH I/DD Tailored Plan, an AMH+ practice or a CMA).

1. This UM review must assess whether any patterns exist that suggest that care managers have steered members toward or away from particular providers (e.g., toward the organization that employs the care manager or away from a competitor).

2. As part of its standard UM responsibilities, the BH I/DD Tailored Plan must assess whether members are receiving the appropriate level of care corresponding to their clinical information as described in Section V.B.2.i.(v)(b) UM Program Policy.

(f) For Innovations and TBI waiver members engaged in Tailored Care Management, the BH I/DD Tailored Plan must ensure compliance with federal requirements for conflict-free case management for members enrolled in a 1915(c) waiver as described further in Section V.B.3ii.(v) Tailored Care Management Assignment. 42 C.F.R. § 431.301(c)(1)(vi)
(1) The BH I/DD Tailored Plan shall submit its policies and procedures for ensuring conflict-free care management as part of its Care Management Policy (Section V.B.3.vi. Care Management Policy).

(g) Duplication of Care Management

(1) The BH I/DD Tailored Plan shall ensure that a member does not receive duplicative care management services.

(2) The Department has determined that case management provided through ACT and ICF-IIDs and care management provided through the High-Fidelity Wraparound program and Care Management for At-Risk Children are duplicative of Tailored Care Management.

(3) When a member is receiving a service besides one listed in Section V.B.3.ii.(iii)(a) that has potential for duplication with Tailored Care Management, the BH I/DD Tailored Plan and the provider of the duplicative service must explicitly agree on the delineation of responsibility and document that agreement in the Care Plan or ISP to avoid duplication of services.

(4) The BH I/DD Tailored Plan shall submit its policies and procedures for ensuring members do not receive duplicative care management from multiple sources as part of its Care Management Policy (Section V.B.3.vi. Care Management Policy).

(h) The BH I/DD Tailored Plan shall hold each AMH+ and CMA accountable to all elements of the Tailored Care Management model contained in this Contract and associated guidance, by ensuring that all details are reflected in its contract with each AMH+ and CMA. Contract templates governing contracts between BH I/DD Tailored Plans and AMH+ practices and CMAs (or CINs or Other Partners on their behalf), including all sections and attachments of such contracts, shall be approved by the Department.

(i) The BH I/DD Tailored Plan shall monitor AMH+ practices and CMAs’ performance against requirements contained in this contract as reflected in their contracts with AMH+ practices and CMAs. Any contract terms additional to the requirement in this contract that the BH I/DD Tailored Plan seeks to offer to AMH+ practices and CMAs must be approved by the Department as part of contract review.

(j) If the BH I/DD Tailored Plan contracts directly with a CIN or Other Partner that is acting on behalf of an AMH+ practice or CMA, the BH I/DD Tailored Plan shall monitor the CIN or Other Partner directly.

(k) During Contract Year 1, the BH I/DD Tailored Plan shall not require an AMH+ practice, CMA, or CIN or Other Partner to undergo a predelegation audit for the purposes of NCQA accreditation, although a delegation arrangement may be entered by mutual agreement. While the Department encourages BH I/DD Tailored Plans to align oversight of Tailored Care Management with oversight of NCQA-delegated functions, the BH I/DD Tailored Plan must ensure that in conducting oversight of AMH+ practices, CMAs and CINs or Other Partners that are delegates for NCQA plan-level functions, it is monitoring not only in terms of NCQA requirements but also Tailored Care Management-specific requirements contained in this RFA and the Tailored Care Management Provider Manual https://medicaid.ncdhhs.gov/providers/programs-and-services/behavioral-health-idd-tailored-plan.

(l) To promote AMH+ practices and CMAs’ ability to make informed decisions about CIN or Other Partner affiliations, the BH I/DD Tailored Plan must:

(1) Send direct notification to each AMH+ practice or CMA practice describing the CIN or Other Partner oversight process, within ninety (90) days of contracting with the AMH+ practice or CMA.

(2) Send direct notification to each AMH+ practice or CMA practice affiliated with a CIN or Other Partner the results of CIN or Other Partner level audits, including CAPs or similar processes as described below, within sixty (60) days of the audit.
(m) The BH I/DD Tailored Plan shall not terminate its contract with an AMH+, CMA or CIN or Other Partner under this provision until at least ninety (90) days after BH I/DD Tailored Plan launch.

(n) In the event of underperformance by an AMH+ practice, CMA or CIN or Other Partner relative to the requirements for Tailored Care Management contained in this Section:

1. The BH I/DD Tailored Plan shall send a notice of underperformance to the AMH+ practice/CMA within fourteen (14) days of identifying the underperformance, with a copy to the Department.

2. The BH I/DD Tailored Plan shall provide the AMH+ practice, CMA or CIN or Other Partner with the opportunity to remediate any identified issues through a Corrective Action Plan (CAP), and a copy of the CAP shall be sent to the Department.

3. The BH I/DD Tailored Plan shall ensure that a minimum of thirty (30) Calendar Days is provided for remediation of the identified underperformance addressed by the CAP, although the parties may establish longer remediation periods by mutual agreement.

(o) In the event of continued underperformance by an AMH+ practice, a CMA or a CIN or Other Partner that is not corrected after the time limit set forth on the CAP, and the BH I/DD Tailored Plan terminates its contract with the AMH+ practice, CMA, CIN, or other entity, then the BH I/DD Tailored Plan shall notify the Department within seven (7) days that it will no longer be contracting with the AMH+ practice, CMA or CIN or Other Partner for Tailored Care Management. The Department reserves the right to specify the timing and format of this notification.

(p) In the event of underperformance by an AMH+ practice, a CMA or a CIN or Other Partner for Tailored Care Management, the BH I/DD Tailored Plan shall ensure that there are no gaps in care management functions for members assigned to the AMH+ practice or CMA.

(q) As part of its Care Management Policy (Section V.B.3.vi. Care Management Policy), the BH I/DD Tailored Plan shall have a documented process for how it will oversee AMH+ practices, CMAs and CINs or Other Partners that meet all the requirements above. This process must:

1. Describe how a CAP may be applied to an individual AMH+ practice or CMA as well as how a CAP may be applied to a CIN or Other Partner.

2. Provide the details of how it would cease to make Tailored Care Management payments and terminate its contract with the AMH+ practice, CMA or CIN or Other Partner, in the event of continued underperformance.

3. v. Other Care Management Programs

(i) Overview

(a) While Tailored Care Management will be the predominant care management model for the BH I/DD Tailored Plan population, the BH I/DD Tailored Plan must offer additional care management sections targeted towards special populations, as detailed in this Section.

(ii) Local Health Departments
(a) The BH I/DD Tailored Plan shall be required to contract with local health departments (LHDs) during a transitional period that will align with the transitional period established for Standard Plans. Accordingly, in Contract Year 1, the BH I/DD Tailored Plan shall be required to offer a right of first refusal with each LHD in its Region to provide Care Management for At-Risk Children (CMARC) to children already enrolled in that program at the time of BH I/DD Tailored Plan launch and to provide Care Management for High Risk Pregnancy (CMHRP).

(b) The BH I/DD Tailored Plan shall work with LHDs for the temporary continuation of CMARC to members already enrolled in CMARC, as follows:

(1) In Contract Year 1, the BH I/DD Tailored Plan shall offer the right of first refusal to each LHD in its Region to provide CMARC to any members ages zero (0) up to age five (5) who are already enrolled in CMARC at the time of BH I/DD Tailored Plan launch. Such children will not be eligible for Tailored Care Management while enrolled in CMARC because the two (2) programs provide duplicative services. At the conclusion of CMARC for a child enrolled in the BH I/DD Tailored Plan, the BH I/DD Tailored Plan shall enroll the child into Tailored Care Management.

(2) If an LHD in the BH I/DD Tailored Plan’s Region chooses not to continue to provide CMARC for currently-enrolled children enrolled in BH I/DD Tailored Plans, the BH I/DD Tailored Plan shall be responsible for ensuring that CMARC services are provided as part of Tailored Care Management.

(3) For all contracts developed with LHDs for CMARC, the BH I/DD Tailored Plan shall use standard contract language provided by the Department. The BH I/DD Tailored Plan shall be allowed to incorporate additional standards and contract terms which are mutually agreed upon by the LHD and the BH I/DD Tailored Plan.

(4) The BH I/DD Tailored Plan shall incorporate all Department-defined care management practice standards for CMARC into each of its contracts with LHDs, as noted in Section VII. Attachment M.4. Care Management for High-Risk Pregnancy Policy for Medicaid and NC Health Choice Members.

(5) After the launch of BH I/DD Tailored Plans, the BH I/DD Tailored Plan shall not enroll any further children into CMARC and shall instead enroll all children into Tailored Care Management.

(6) At the conclusion of Contract Year 1, the BH I/DD Tailored Plan shall have the option to transition all children from CMARC into Tailored Care Management, or to continue to contract with LHDs for any children remaining in CMARC at that time.

(c) The BH I/DD Tailored Plan shall work with LHDs for the provision of CMHRP to high-risk pregnant women who are BH I/DD Tailored Plan members as follows:

(1) In Contract Year 1, the BH I/DD Tailored Plan shall offer the right of first refusal to each LHD in its Region to provide CMHRP to any members eligible for CMHRP.

(3) The BH I/DD Tailored Plan shall send all screening information to the applicable LHDs to provide CMHRP within one (1) Business Day of the member’s referral.

(4) In Contract Year 1, the BH I/DD Tailored Plan shall make best efforts to engage members participating in CMHRP into Tailored Care Management and shall assign them to care management according to Section V.B.3.v. Tailored Care Management Assignment. Care managers providing Tailored Care Management will address other needs that are not included in the LHD model. A member can receive CMHRP and Tailored Care Management simultaneously.
(5) For women enrolled in CMHRP as well as Tailored Care Management simultaneously, the BH I/DD Tailored Plan shall be responsible for ensuring that the assigned organization providing Tailored Care Management coordinates with LHD care managers to ensure all the members’ needs are met, pertinent information is shared, and services are not duplicated between the two programs.

(6) For all contracts developed with LHDs for CMHRP, the BH I/DD Tailored Plan shall use standard contract language provided by the Department, to ensure that CMHRP services include (but are not limited to):

i. Outreach;
ii. Motivational interviewing;

v. Referrals to childbirth education, oral health, BH or other needed services reimbursed by Medicaid.

(7) The BH I/DD Tailored Plan shall be allowed to incorporate additional standards and contract terms that are mutually agreed upon by the LHD and the BH I/DD Tailored Plan.

(8) The BH I/DD Tailored Plan shall incorporate all Department-defined care management practice standards for CMHRP into each of its contracts with LHDs, as noted in Section VII. Attachment M.4. Care Management for High-Risk Pregnancy Policy for Medicaid and NC Health Choice Members.

(9) At the conclusion of Contract Year 1, the BH I/DD Tailored Plan shall have the option to continue to contract with LHDs for CMHRP; or to include CMHRP services within Tailored Care Management for members experiencing high risk pregnancy (whether provided by the organization responsible for Tailored Care Management or by another organization under contract with the BH I/DD Tailored Plan).

(d) In the event of underperformance by an LHD, the BH I/DD Tailored Plan shall follow standard procedures specified by the Department. In the event of continued underperformance by an LHD that is not corrected, the BH I/DD Tailored Plan shall be permitted to terminate the contract with that LHD and the LHD shall have the right to appeal the termination. The BH I/DD Tailored Plan shall notify the Department of underperformance by or contract termination of an LHD. (1) The BH I/DD Tailored Plan shall be required to participate in Department-led meetings involving the PMP program, including requiring attendance by appropriate clinical and operational leadership at meetings.

(3) The BH I/DD Tailored Plan shall adopt the PMP standardized screening tool currently used in practices, with modifications, as determined by the Department.
(4) The BH I/DD Tailored Plan shall be responsible for receiving standardized screening tool results from PMP providers and for arranging enrollment into CMHRP based on referrals by PMP providers.

(5) During Contract Year 1, when a high-risk pregnancy is referred to the BH I/DD Tailored Plan by a PMP provider, member, family or another entity, the BH I/DD Tailored Plan shall be responsible for arranging enrollment of the member into CMHRP and shall inform the member’s PMP provider that the member has entered the program.

(a) Overview of High-Fidelity Wraparound

(1) The Department recognizes that High-Fidelity Wraparound, an evidence-based intervention targeted toward youth ages three (3) to twenty (20) years old with serious emotional disturbance, has produced cost savings as compared with psychiatric residential treatment facility services and Level III/IV group home services.

The BH I/DD Tailored Plan shall also accept referrals from Network providers for members who may be eligible for and benefit from High-Fidelity Wraparound.
(3) If the BH I/DD Tailored Plan identifies that a member may meet the High-Fidelity Wraparound eligibility criteria, the BH I/DD Tailored Plan shall contact the member and their caretaker/legal guardian (if applicable) to determine interest in High-Fidelity Wraparound.

(5) If the BH I/DD Tailored Plan determines that the member meets the High-Fidelity Wraparound eligibility criteria, the BH I/DD Tailored Plan shall refer the member to a provider that offers High-Fidelity Wraparound for Care Management.

(6) If the member meets the High-Fidelity Wraparound eligibility criteria and elects to participate in the intervention, the member will be transitioned from Tailored Care Management to High-Fidelity Wraparound. The assigned organization providing Tailored Care Management shall facilitate a Warm Handoff to the High-Fidelity Wraparound Team.

   i. The BH I/DD Tailored Plan shall disenroll the member from Tailored Care Management at the time of the Warm Handoff.

(c) High-Fidelity Wraparound Services and Fidelity Monitoring

   (1) The BH I/DD Tailored Plan must contract with the single vendor selected by the Department to conduct training and fidelity monitoring for providers offering High-Fidelity Wraparound.

   (2) The BH I/DD Tailored Plan shall ensure that all providers offering High-Fidelity Wraparound meet fidelity requirements, as assessed by the vendor performing fidelity monitoring.

   (3) The BH I/DD Tailored Plan must ensure that providers offering High-Fidelity Wraparound meet all requirements documented in the Department’s High-Fidelity Wraparound Policy, including requirements for staffing, qualifications and training.

(d) Transitions from High-Fidelity Wraparound

   (1) When a member has completed the High-Fidelity Wraparound intervention, the BH I/DD Tailored Plan must assign the member to an AMH+, a CMA or the BH I/DD Tailored Plan for Tailored Care Management as described in Section V.B.3.ii.(v) Tailored Care Management Assignment, unless the member opts out of Tailored Care Management. The BH I/DD Tailored Plan must give preference to the provider that delivered High-Fidelity Wraparound if that provider is certified as a CMA and has the capacity to serve that member.

   (2) The BH I/DD Tailored Plan shall require a Warm Handoff between the High-Fidelity Wraparound team and the assigned organization providing Tailored Care Management.

(vi) Members Obtaining ACT or Residing in an ICF-IID

(a) The BH I/DD Tailored Plan must implement the following protocols for members obtaining ACT or services in an ICF-IID:

Tailored Plan for the member, except in the first and last months that the member
receives ACT or ICF-IID services.

(4) Ensure that when a member begins obtaining ACT or services through an ICF-IID, the

the parents for an EI evaluation, facilitate a Warm Handoff to the appropriate CDSA, and
follow up on the results of the referral and whether an EI evaluation was conducted.

(d) The BH I/DD Tailored Plan shall ensure that appropriate staff, such as member services staff
and care managers, are generally knowledgeable about EI services and provide referrals to the
appropriate local CDSA to assist and consult with enrollees concerning EI services.

(vi) Healthy Opportunities Pilots to Address Unmet Health-Related Resource Needs

(a) Background

(1) CMS has authorized an Enhanced Case Management and Other Services Pilot, the “Healthy Opportunities Pilot program,” for a five (5)-year period, from November 1, 2019, through October 31, 2024, as a part of North Carolina’s Section 1115 Medicaid Demonstration waiver.

(2) Through the Healthy Opportunities Pilot program, the Department will systematically test, on a population level, how evidence-based interventions in each of the four (4) Healthy Opportunities priority domains (housing, food, transportation, and interpersonal violence/toxic stress) can be delivered effectively to Medicaid members and, through robust evaluation, study the effects on health outcomes and cost of care. The goal of the Pilot program is to learn which evidence-based interventions and processes are most effective to improve health, lower health care costs for specific populations, and to inform health care delivery statewide.

(3) Through a competitive procurement process, the Department will procure up to three (3) Lead Pilot Entities and define Healthy Opportunities Pilot Regions in the State to provide a subset of Medicaid beneficiaries with services, interventions and benefits targeted to measurably improve health and lower costs.

(4) A local Pilot Region may include a subset of counties within a BH I/DD Tailored Plan Region, and may cross BH I/DD Tailored Plan Region boundaries.

(5) The Lead Pilot Entity’s primary role is to develop, contract with and manage a network of Human Service Organizations (HSOs) to deliver the evidence-based Pilot interventions
across each of the four (4) Healthy Opportunities priority domains for Medicaid members within the Pilot Regions.

(b) BH I/DD Tailored Plan Pilot Program Responsibilities. Any BH I/DD Tailored Plan operating in a local Pilot Region shall implement the Pilot program for its Pilot-eligible members, contingent on the availability of state and federal funding, in accordance with the roles and responsibilities enumerated below and in any additional requirements and guidance issued by the Department:

1. Receive payments from the Department up to a specific capped allotment to fund Pilot services, based on the anticipated cost and volume of specified services authorized for the BH I/DD Tailored Plan’s eligible members, and recognizing the overall cap on federal funds under the 1115 waiver. This allotment will be in addition to and not included in the Medicaid Managed Care capitation payments.

2. Manage total Pilot funding against allocations for eligible populations and Pilot services.
   i. The Department may provide further requirements and/or guidance to ensure that Pilot services are targeted to the Pilot-eligible Medicaid members for whom Pilot services may most efficiently improve outcomes and/or reduce costs and that Pilot participants receive the least costly, most necessary and appropriate Pilot services.

3. Make payments to other Pilot-participating entities for executing Pilot responsibilities and for delivering Pilot services from the Pilot allocations, consistent with guidance to be developed by the Department.

4. Determine eligibility for and authorize Pilot program enrollment and specific Pilot services for members, based on guidelines to be developed by the Department.
   i. Pilot program eligibility criteria include, at a minimum, physical and BH qualifying conditions and social risk factors as defined in the 1115 waiver. Each Pilot service may also have specific eligibility criteria determined by the Department.

5. Ensure that Pilot services do not displace nor duplicate other services, resources or programs for which the member is eligible, including Medicaid State Plan services, Medicaid waiver services, State-funded Services provided by the BH I/DD Tailored Plan, or other resources or programs available to the member, including those provided by the BH I/DD Tailored Plan.
   i. The Department shall provide guidance to BH I/DD Tailored Plans regarding which services, resources and programs have been identified by the Department as duplicative with Pilot program services. The BH I/DD Tailored Plan may add to the Department’s list of potentially duplicative or displaceable services, resources and programs as part of the Pilot authorization approach, based on its knowledge and experience. The BH I/DD Tailored Plan shall provide this list to the Department upon request.
   
   ii. The BH I/DD Tailored Plan shall define and implement policies and procedures for authorizing Pilot services as part of its UM program, consistent with Section V.B.2.i.(v) Utilization Management, that provide for:
      a) Validation that no identified other service, resource or program, including those managed by the BH I/DD Tailored Plan, would meet the member’s Pilot service needs is available to the member at the time of Pilot service authorization, consistent with Department guidance.
      b) Validation that the member’s Pilot service needs cannot be fully addressed through an identified, available federal, State or local program (e.g., the Supplemental Nutrition Assistance Program), consistent with Department guidance, at the time of Pilot service authorization.
c) If a federal, State or local program is available that could address the member’s Pilot service needs in full or in part, the authorization process must ensure that Tailored Care Management requirements, as outlined in Section V.B.3.ii. Tailored Care Management, that require connecting the member with those services, including in some cases through comprehensive application assistance, have been fulfilled.

d) The BH I/DD Tailored Plan’s Pilot service authorization process must include verification of connection to and/or the provision of comprehensive application assistance to relevant available programs, where applicable.

e) The BH I/DD Tailored Plan may not authorize Pilot services once the member is receiving services from another federal, state or local program, if that program fully meets the member’s Pilot service need.

f) Training for staff conducting Pilot service authorization specific to preventing duplication and displacement of BH I/DD Tailored Plan-managed and other available services, resources and programs with Pilot services.

g) Regular, at least monthly, audits of Pilot service authorization procedures and outcomes to prevent duplication or displacement of BH I/DD Tailored Plan-managed and other available services, resources and programs with Pilot services.

iii. The BH I/DD Tailored Plan shall:

a) Make Pilot service authorization policies and procedures available to the Department upon request.

b) Retain documentation of member-level Pilot service authorization determinations, including validation that no identified duplicative or displaceable service, resource or program, including those managed by the BH I/DD Tailored Plan, that could meet the member’s Pilot service need was available to the member at the time of Pilot service authorization for the time period specified in Section III.C.39: Records Retention.

c) Make member-level Pilot service authorization documentation available to the Department upon request, including for monitoring and audits, in accordance with Section III.D.40. Response To State Inquires And Request For Information.

(7) Submit data and reports to support the Department’s efforts to oversee and evaluate the Pilot program, as described in Section V.B.3.x.(vi) Healthy Opportunities Pilots to Address Unmet Health-Related Resource Needs: Reporting Requirements and Section VII. Attachment J. Reporting Requirements.

(8) Participate in learning collaboratives with the Department and other Pilot-participating entities to share best practices and improve Pilot program policies and practices.

(9) Support the Department’s efforts to evaluate the effectiveness of the Pilot program by reporting on a range of metrics in a form and frequency to be determined by the Department, and as described in Section VII. Attachment J. Reporting Requirements including but not limited to reports on:

i. Pilot enrollment;

ii. Pilot service utilization;

iii. Pilot expenditures;

iv. Pilot-participating member health outcomes;
v. Pilot-participating member cost and utilization metrics; and
vi. Expenditures on and utilization of services and other resources managed by the BH I/DD Tailored Plan that may be duplicated or displaced by Pilot services, as identified in guidance to be developed by the Department, by members residing in local Pilot Region counties.

7. Conduct a reassessment of:
   i. Eligibility for specific Pilot services no less frequently than every three (3) months, or earlier if a member experiences a change in eligibility for an identified service, resource or program that can meet the member’s Pilot service need, including those managed directly by BH I/DD Tailored Plans; and,

The BH I/DD Tailored Plan shall assist providers with meeting these requirements, including educating providers on the availability of the Cultural and Linguistic Competency resources, accessing the resource, and responsibility in providing access to interpreter services and having sufficient interpreter capacity.

2. The BH I/DD Tailored Plan shall be prohibited from using any State or federal funds to pay for reparative/conversion therapy for non-heterosexual sexual orientations in accordance with North Carolina Executive Order No. 97 and clinical coverage policies.

3. The BH I/DD Tailored Plan shall ensure that Lesbian, Gay, Bisexual, Transgender, or Questioning (LGBTQ) members who obtain covered services are not subject to treatment that does not affirm their orientation.

1. An individual member’s accessibility and BH I/DD Tailored Plan’s network adequacy may be satisfied, in part, by contracting with providers across a regional border where appropriate.

Essential Providers

1. The BH I/DD Tailored Plan shall include all Essential Providers located in the BH I/DD Tailored Plan’s Region in its Network unless an alternative arrangement for securing the types of services offered by the Essential Providers is approved by the Department in accordance with the requirements herein.

3. The BH I/DD Tailored Plan shall contract with newly identified Essential Providers within 90 calendar days of notification of the addition of a new Essential Provider. If at the end of the 90 days a contract with the Essential Provider has not been established, the BH I/DD Tailored Plan shall submit a request for an alternative arrangement relating to the Essential Provider.

At such time the BH I/DD Tailored Plan is notified by the Department that a member is determined eligible for and transferred for treatment to a Department of Military and Veterans Affairs (DMVA)-operated Veterans Home, the BH I/DD Tailored Plan shall include the Veterans Home operated by the DMVA in its Network as an Essential Provider and shall reimburse the veterans home at the rates established by the Department until such time as the member is disenrolled as provided in the Contract.

Exceptions to Network Requirements

Network adequacy measures ensure the BH I/DD Tailored Plan’s ability to deliver the benefits promised by providing reasonable access to a sufficient number of in-network primary care and specialty physicians, and all health care services included under the terms of the Contract. Recognizing that there are circumstances which cannot be remedied by the BH I/DD Tailored Plan...
Plan alone (e.g., not all counties in North Carolina have a hospital), the Department will permit exceptions to network requirements in a time-limited manner.

(b) The BH I/DD Tailored Plan may request approval for an alternative arrangement in contracting with an Essential Provider by submitting a written request to the Department with a copy of the request provided to the Essential Provider prior to implementing any alternative arrangement and prior to notifying an Essential Provider of an adverse contracting decision. 1. Be made for each Essential Provider that the BH I/DD Tailored Plan is proposing to not contract with;
2. Describe efforts to negotiate in good faith;
3. Include justification for the alternative arrangement with a description of how the alternative arrangement will meet member needs; and

4. Include the BH I/DD Tailored Plan’s plan to address member needs and remedy the network deficiency, including an estimated time line to close the network gap.

(d) The Department’s approval of an exception request to the BH I/DD Tailored Plan network adequacy standards or an Essential Provider alternative arrangement will be limited to specific time frame. Forty-five (45) Calendar Days before an exception/alternative arrangement is set to expire, the BH I/DD Tailored Plan shall submit a new request for the exception or alternative arrangement or inform the Department the exception and alternative arrangement is no longer needed.

(e) The Department is not required to approve a request for an alternative arrangement with an Essential Provider or exception to meeting the Department’s BH I/DD Tailored Plan network adequacy standards and may deem a BH I/DD Tailored Plan to be out of compliance.

(vii) Assurances of Adequate Capacity and Services (42 C.F.R. § 438.207)

For BH I/DD Tailored Plans, which are tasked with caring for North Carolinians with complex BH, I/DD, and TBI needs, the Department intends to incorporate additional standards and opportunities related to the unique aspects of the BH I/DD Tailored Plan population, while maintaining standards relevant to the Standard Plans. The Department intends to promote the highest quality of care for physical health, BH, I/DD, TBI and LTSS needs and to promote integration among physical and BH service providers and providers of LTSS and I/DD care.

      (iii) As North Carolina transitions to Medicaid Managed Care, the Department will work with the BH I/DD Tailored Plan to develop a data-driven, outcomes-based continuous QI process. The QI process builds upon the Department’s experience in NC Medicaid Direct and focuses on rigorous outcome measurement against relevant targets and benchmarks, promotes equity through reduction or elimination of health disparities, and appropriately rewards BH I/DD Tailored Plans and, in turn, providers for advancing quality goals and health outcomes.
      (iv) The BH I/DD Tailored Plan shall have an IT infrastructure and data analytic capabilities to support the Department’s vision in quality management, measurement and improvement, including the capability to stratify and report quality measures at a regional level and across different provider types and patient populations.       (v) The BH I/DD Tailored Plan shall have a Quality Management and Improvement Program that will focus on health outcomes, not only healthcare process measures, align with the NC Medicaid Quality Strategy and Quality Assessment and Performance Improvement (QAPI) Plan, and comply with the quality management and quality improvement assurances and other requirements contained in North Carolina’s federal Medicaid waivers (e.g., Section 1115, Section 1915(c), and other active waivers relevant for the BH I/DD Tailored Plan).

v. Mechanisms to assess the quality and appropriateness of care provided to members needing LTSS, including assessment of care between settings and a comparison of services and supports received with those set forth in the member’s treatment/service plan;
vi. Mechanisms to assess for and a process for identifying interventions to reduce quality outcome disparities based on age, race, ethnicity, sex, primary language, geography and by key population group (e.g., LTSS);
vii. Mechanisms to incorporate population health programs targeted to improve outcome measures;
viii. Participation in efforts by the Department to prevent, detect, and remediate critical incidents including LTSS services and programs;
ix. Mechanisms to assess and address health disparities, including findings from the disparity report that BH I/DD Tailored Plans are required to develop; and
x. The BH I/DD Tailored Plan’s contributions to Health-Related Resources that can support or align with broader improvement in particular health outcomes outlined in the Quality Strategy, for example through engagement with the Department around understanding state performance on the Behavioral Risk Factor Surveillance System survey.

(vi) The BH I/DD Tailored Plan shall participate in monthly BH I/DD Tailored Plan Quality Director Meetings.
(vii) The BH I/DD Tailored Plan shall develop a process to evaluate the impact and effectiveness of the QAPI program; this process must be approved by the Department and the results must be provided to the Department annually.
(viii) The BH I/DD Tailored Plan shall modify its proposed process to evaluate the impact and effectiveness of its QAPI program as part of each BH I/DD Tailored Plan’s overall QAPI program design as directed by the Department.
(ix) Quality Measures
   (a) The BH I/DD Tailored Plan will be held accountable for performance on all measures listed in Section VII. Attachment E. BH I/DD Tailored Plan Quality Metrics that are meant to provide the Department with a complete picture of the BH I/DD Tailored Plan’s processes and performance. The BH I/DD Tailored Plan’s accountability may include: public reporting of measure performance by the Department, requirements to engage with Department staff around measure performance, and, beginning in Contract Year 2, financial accountability for a select set of measures to be specified by the Department.

Priority measures are indicated in Section VII. Attachment E. BH I/DD Tailored Plan Quality Metrics. The Department will monitor other measures that are not designated as Priority Set measures, and may elect to report performance on these measures or engage with BH I/DD Tailored Plans around these performance reports. The Department reserves the right to add and remove measures from the Priority Set.
   (c) The BH I/DD Tailored Plan shall submit to the Department all data necessary for the Department to calculate the BH I/DD Tailored Plan’s performance on Priority Set measures.

   ii. A description of the VBP model(s) that will be pursued by the BH I/DD Tailored Plan and its providers and their HCP-LAN classification, including a description of the required performance incentive programs for AMH+ practices and CMAs, which must be consistent with requirements for Tailored Care Management payment, and a description of VBP arrangements offered to non-AMH+/CMA providers.

   iii. An explanation of how the BH I/DD Tailored Plan will ensure that physical, BH, and I/DD services are integrated under its VBP arrangements.

   iv. The BH I/DD Tailored Plan’s plan for measurement of outcomes and ROI related to VBP by year.

   v. The BH I/DD Tailored Plan’s approach to address Unmet Health-Related Resource Needs as part of its VBP strategy, including to align financial incentives and accountability around total cost of care and overall health outcomes. For full Healthy Opportunities requirements, see Section V.B.3.x. Healthy Opportunities.

In instances where a provider submits an adjustment to a previously adjudicated claim, the BH I/DD Tailored Plan shall adjudicate the adjusted claim within the same timeframes as required for the initial Clean Claim.

The BH I/DD Tailored Plan shall provide an Electronic Remittance Advice or Standard Remittance Advice to the provider as explanation of the adjudication results and reimbursement of each claim.

The BH I/DD Tailored Plan shall ensure the claim processes align with the parameters laid out in Section V.A.1.iv. Third Party (Subcontractor) Contractual Relationships, if BH I/DD Tailored Plan has delegated claims processing to a Subcontractor.

(2) Ninety-nine percent (99%) of encounter transactions represented on an X12 277 Health Care Information Status Notification as requiring data correction in the increment of ninety percent (90%) of the errors corrected within thirty (30) Calendar Days from the date the 277 was generated;

(3) Ninety-nine percent (99%) of encounter transactions represented on an X12 277 Health Care Information Status Notification as requiring data correction in the increment of ninety-nine percent (99%) of reported errors within sixty (60) Calendar Days from the date the 277 was generated.

(e) The BH I/DD Tailored Plan or its subcontractor shall correct and resubmit one hundred percent (100%) of previously submitted X12 and NCPDP pharmacy encounter data transactions to reflect the most current and accurate payment adjustments or reversals that resulted in a recoupment or additional payment within thirty (30) Calendar Days of the respective action.

(vii) Data Validation and Processing

(a) The BH I/DD Tailored Plan shall have the capability to access sufficient enrollment information to perform member and service provider matching on all claim and/or encounter transactions, if necessary.

(b) The Department shall utilize data validation protocols on encounter data files to assess BH I/DD Tailored Plan encounter submissions for accuracy (e.g., SNIP Level 1 through 7 edits).

(c) The BH I/DD Tailored Plan shall perform testing with the Department prior to system changes when medical or pharmacy clinical policy changes that may impact operational transactions (i.e. encounter submissions) are identified by BH I/DD Tailored Plan or by Department. The BH I/DD Tailored Plan shall not implement any system changes until testing is approved by the Department.

(d) The BH I/DD Tailored Plan shall adhere to any structural changes to encounter data submission file formats as determined and communicated by the Department.

(e) The BH I/DD Tailored Plan shall, in instances where the BH I/DD Tailored Plan is required to make structural changes to the EDI files that are submitted to the Department, schedule with the Department sufficient time to test and successfully submit the modifications into the specified Department test environment no less than sixty (60) days prior to the date the modified file will be submitted to the Department production environment.

(f) The BH I/DD Tailored Plan shall make changes or corrections to any systems, processes, or data transmission formats within a mutually agreed upon timeframe with the Department to comply with data quality standards as defined within this Contract.

(g) At the discretion of the Department, the BH I/DD Tailored Plan may be prohibited from submitted a specific encounter type to the Department’s Production Encounter Processing System if the Department identifies a high volume of compliance and/or critical errors (as determined by the Department). If any compliance issues are identified, the Department shall establish a performance improvement plan in order to monitor expected improvements from the BH I/DD Tailored Plan. In addition, if the BH I/DD Tailored Plan’s access to the Production Encounter Processing System is revoked, the BH I/DD Tailored Plan must actively test with the
Department until such time that the compliance or critical errors are remediated. Successful testing that would allow production access to be restored is expected to occur within thirty (30) Calendar Days. Any liquidated damages incurred by the BH I/DD Tailored Plan because of the loss of production access are the responsibility of the BH I/DD Tailored Plan.

(viii) Denied Claims Submitted as Encounters
(a) The BH I/DD Tailored Plan shall submit denied claims as encounters to support denial trend analysis.
(b) BH I/DD Tailored Plan submissions of denied claims as encounters must adhere to data quality editing and limited program editing.
(c) On denied claims submitted as encounters, the BH I/DD Tailored Plan shall include the primary and any corresponding secondary denial reason code(s) on the 837 (I) or 837 (P) transactions.
(d) Denied claims submitted as encounters must also include the same data content, including provider, member and service details, as a paid claim submitted as an encounter, except when the original claim was denied because it was submitted with insufficient information.
(e) The BH I/DD Tailored Plan shall submit files that represent paid, denied, and adjusted claims submitted as encounters using the ASC X12 837 transaction or the Department designated pharmacy encounter format.

(ix) Communication and Oversight
(a) If the BH I/DD Tailored Plan experiences a technical issue preventing encounter data submission, the BH I/DD Tailored Plan shall notify the Department via the approved communication method within the predefined timeline.
(b) The BH I/DD Tailored Plan shall propose a plan for resolution, including the estimated timeline, to the Department for approval via the approved communication method when there is an issue within the BH I/DD Tailored Plan’s system(s) or process(es) that prevents the BH I/DD Tailored Plan from submitting encounter data files as scheduled.
(c) The BH I/DD Tailored Plan shall attend recurring quarterly and ad hoc encounter management meetings with the Department.
(d) The BH I/DD Tailored Plan shall have a Department approved method to request ad hoc discussion sessions with the Department to address encounter data submission topics should the need arise outside of the Department reoccurring meeting schedule.

(x) Testing
(a) The BH I/DD Tailored Plan will be required to pass a testing phase for each of the encounter claim types identified by the Department before production encounter data will be accepted. The Department will provide a testing environment and adequate testing time for the BH I/DD Tailored Plan to validate all encounter types including encounters that trigger as many or all of the State’s edits as possible. The BH I/DD Tailored Plan shall pass the testing phase for all encounter claim type submissions at a time specified by the Department.
(b) The BH I/DD Tailored Plan shall submit the test encounters to the Department electronically according to the specifications included in the Department’s Encounter Submission Companion Guide and Encounter Data Manual.

(xi) In the event of Contract termination or non-renewal, the BH I/DD Tailored Plan shall continue to submit encounter data, in the method defined by the Contract, for ninety (90) Calendar Days following the Contract termination effective date for adjudicated claims with the date of service (DOS) on or before the Contract termination or non-renewal effective date.
(xii) In instances where the Contract has been terminated for greater than ninety (90) Calendar Days from the contract termination effective date, the BH I/DD Tailored Plan shall submit encounter data in agreed upon intervals when the claim DOS is on or before the effective date of Contract termination.
7. Financial Requirements
   
i. Capitation Payments
   
   (i) Capitation rates will be set by the Department and developed in an actuarially sound manner, reflecting the contractual requirements and expectations of BH I/DD Tailored Plans. Capitation payments include monthly PMPM payments, maternity event payments and payments for additional directed payments to certain providers as required under the Contract. This solicitation includes the Medicaid Tailored Plan Draft Rate Book which is intended to include sufficient information to support entities in making business decisions related to responding to the RFA. Final rates will reflect the more recent historical experience and changes to program requirements not reflected in the Medicaid Tailored Plan Draft Rate Book.

   (ii) The Department shall set capitation rates in accordance with actuarially sound principles and practices and submit said rates to CMS for approval in advance of rate effective dates. More information on rate setting can be found in the Medicaid Tailored Plan Draft Rate Book. Further details will be provided after Contract Award.

   (iii) The Department shall set BH I/DD Tailored Plan capitation rates on a periodic basis, typically annually, using the most recent data available deemed appropriate for rate development by the Department and its actuary. Rates may be revised within a rating period based on program changes or at the discretion of the Department.

   (iv) The rating period shall generally be defined as the period from July 1st of one year through June 30th of the following year to align with the State Fiscal Year. Shorter rating periods may apply but will be contained within the State Fiscal Year unless otherwise specified by the Department.

   (v) The BH I/DD Tailored Plan shall supply, certify, and validate data to support rate setting, risk adjustment (applicable to Standard Plan PHPs) and the risk corridor program (as applicable), and qualified directed payments based on schedules to be provided by the Department after Contract Award.

   (vi) The Department has established a separate maternity event payment. This payment will be made to the BH I/DD Tailored Plan after the BH I/DD Tailored Plan submits required documentation of a successful delivery event, defined as a qualifying birth, to the Department. The required documentation and process for submission will be finalized prior to Contract Year 1 effective date, and annually thereafter, and included in an Amendment.

   (vii) The Department has established a separate payment outside of the capitation rate for Tailored Care Management for members enrolled in Medicaid. This payment will be made to the BH I/DD Tailored Plan for any month in which the member is engaged in Tailored Care Management. For members enrolled in NC Health Choice, the cost of Tailored Care Management is incorporated in the capitation rate, and the Department will not make separate payments for Tailored Care Management for these members.

   (viii) The Department will reimburse BH I/DD Tailored Plan for additional directed payments to providers as required under Section V.B.4.iv. Provider Payments (as allowed under 42 C.F.R. § 438.6(c)(1)(iii)(B)). The BH I/DD Tailored Plan is required to make these payments to certain providers but the payments are explicitly excluded from the prospective PMPM and maternity event capitation payments. The BH I/DD Tailored Plan shall provide the necessary data to support this process in a format and frequency to be defined by the Department.

   (ix) The Department will make capitation payments in accordance in with the Payment and Reimbursement term in Section III.C.36. Payment and Reimbursement.

   ii. Medical Loss Ratio
   
   (i) The Medical Loss Ratio (MLR) standards are to ensure the BH I/DD Tailored Plan is directing a sufficient portion of the capitation payments received from the Department to services and activities that improve health in alignment with the Department’s program goals and objectives.
(ii) The BH I/DD Tailored Plan shall calculate and report aggregate MLR on an annual basis aligned to the rating year on two (2) bases as follows:

(a) The BH I/DD Tailored Plan shall calculate the CMS-defined MLR experienced in a MLR reporting year as defined in 42 C.F.R. § 438.8 and 42 C.F.R. § 457.1203(c)-(f).

1. The numerator of the BH I/DD Tailored Plan’s CMS-defined MLR for a MLR reporting year shall be defined as the sum of the BH I/DD Tailored Plan’s incurred claims, expenditures for activities that improve health care quality, and the lesser of expenditures for fraud reduction activities or fraud reduction recoveries as defined in 42 C.F.R. § 438.8(e).

2. The denominator of the BH I/DD Tailored Plan’s CMS-defined MLR for a MLR reporting year shall equal the BH I/DD Tailored Plan’s adjusted premium revenue. The adjusted premium revenue shall be defined as the BH I/DD Tailored Plan’s premium revenue minus the BH I/DD Tailored Plan’s federal, state, and local taxes and licensing and regulatory fees as defined in 42 C.F.R. § 438.8(f).

(b) The BH I/DD Tailored Plan shall calculate the Department-defined MLR experienced in a MLR reporting year as the ratio of the numerator and denominator.

1. The numerator of the Department-defined MLR shall be calculated in a manner similar to the CMS-defined MLR with the following adjustments:

   i. The BH I/DD Tailored Plan is permitted to include expenditures made for voluntary contributions to health-related resources that align with the Department’s Quality Strategy and meet the following conditions:

      a) Meet standards established in the Department’s Quality Strategy that such contributions reflect meaningful engagement with local communities and are non-discriminatory with respect to individual members and North Carolina geographic areas, including rural areas.

      b) Meet standards established in the Department’s Quality Strategy that the expenditures are spent directly on improving outcomes for beneficiaries, such as housing initiatives or support for community-based organizations that provide meals, transportation or other essential services.

   ii. The BH I/DD Tailored Plan is prohibited from including in the Department-defined MLR numerator any of the following expenditures:

      a) Required additional directed payments to providers as required in the Contract and allowed under 42 C.F.R. § 438.6(c)(1)(iii)(B), that are reimbursed by the Department separate from the prospective PMPM capitation and maternity event payments.

      b) Payments to related providers that violate the Payment Limitations as required in the Contract.

   iii. The denominator of the Department-defined MLR shall be calculated in a manner similar to the CMS-defined MLR with the following adjustment:

      a) Payments from the Department to reimburse for required additional directed payments to providers shall be subtracted from the denominator along with any associated taxes and fees.

(iii) The following requirements apply to both the CMS-defined MLR and the Department-defined MLR:

(a) The BH I/DD Tailored Plan’s classification of activities that improve health care quality shall be subject to Department review and approval.

(b) The BH I/DD Tailored Plan shall ensure that the following expenditures are excluded from the numerator in both the CMS-defined MLR and Department-defined MLR:

   1. Interest or penalty payments to providers for failure to meet prompt payment standards;
(2) Fines and liquidated damages assessed by the Department or other regulatory authorities;
(3) Rebates paid to the Department if the BH I/DD Tailored Plan exceeds the minimum MLR threshold for a prior year;
(4) Voluntary contributions to health-related resources made in lieu of rebates paid to the Department if the BH I/DD Tailored Plan exceeds the minimum MLR threshold for a prior year; and
(5) The BH I/DD Tailored Plan shall exclude from the MLR numerator any non-claims costs defined in 42 C.F.R. § 438.8(e)(2)(v)(A), PBM fees and spread pricing, marketing or branding material, related party administrative payments and margin, and administrative costs not allowed as health care quality improvement including corporate allocations.

(c) The BH I/DD Tailored Plan shall aggregate data for all Medicaid eligibility groups covered under the Contract for purposes of calculating both the CMS-defined MLR and the Department-defined MLR.

(d) The BH I/DD Tailored Plan shall use a credibility adjustment, as defined in 42 C.F.R. § 438.8(h)(1)-(3), for plans with less than 380,000 member months in a MLR reporting year.

(e) Payments related to the Healthy Opportunities Pilot Program shall not be incorporated into the capitation payment nor into the MLR, unless otherwise required by CMS.

(f) All revenue, payments to providers and Tailored Plan expenditures related to Tailored Care Management shall be incorporated into the MLR except as otherwise excluded in Section V.B.7.b.

(g) The BH I/DD Tailored Plan shall comply with the MLR calculation requirements outlined in the MLR templates and associated instructions to be provided by the Department.

(iv) If the BH I/DD Tailored Plan’s Department-defined MLR is less than the minimum MLR threshold, the BH I/DD Tailored Plan shall do one of the following:
   (a) Remit to the Department a rebate equal to the denominator of the Department-defined MLR, multiplied by the difference between the minimum MLR threshold and the Department defined MLR;
   (b) Contribute to health-related resources targeted towards high-impact initiatives that improve health outcomes and the cost-effective delivery of care within the Regions and communities it serves, as described in Section V.B.3.x. Healthy Opportunities; a proposal for contributions must align with the Department’s Quality Strategy and be reviewed and approved by the Department;
   (c) Allocate a portion of the total obligation to contributions to health-related resources and the remaining portion to a rebate to the Department, with amounts for each at the discretion of the BH I/DD Tailored Plan.

(v) The minimum MLR threshold for the BH I/DD Tailored Plan shall be exactly eighty-eight percent (88%) as required by Section 5.(6)c. of Session Law 2015-245, as amended by Session Law 2018-49.

(vi) The BH I/DD Tailored Plan must attest to the accuracy of the calculation of the CMS-defined and Department-defined MLR in accordance with the MLR standards within the Contract when submitting the required MLR reports in accordance with 42 C.F.R. § 438.8(n).

(vii) The BH I/DD Tailored Plan shall require any third-party vendor providing claims adjudication activities to provide all underlying data associated with MLR reporting to the BH I/DD Tailored Plan within one hundred eighty (180) days of the end of the MLR reporting year or within thirty (30) days of being requested by the BH I/DD Tailored Plan, whichever comes sooner, regardless of current contractual limitations, to calculate and validate the accuracy of MLR reporting in accordance with 42 C.F.R. § 438.8(k)(3).
In any instance where the Department makes a retroactive change to the capitation payments for a MLR reporting year where the MLR report has already been submitted to the Department, the BH I/DD Tailored Plan shall:

(a) Re-calculate the MLR for all MLR reporting years affected by the change, and
(b) Submit a new MLR report meeting the applicable requirements in accordance with 42 C.F.R. § 438.8(m).

iii. Financial Management

(i) The Department’s financial management requirements were developed to monitor and promote program sustainability. The Department expects, and will rely upon, the BH I/DD Tailored Plan to be a good steward of Medicaid Managed Care resources, focusing expenditures on services and benefits that improve member health. The Department will pay the BH I/DD Tailored Plan a capitation payment that is set in an actuarially sound manner. The BH I/DD Tailored Plan is expected to manage BH I/DD Tailored Plan expenditures within the capitation payments and have access to sufficient capital to cover any losses the BH I/DD Tailored Plan experiences.

(ii) The BH I/DD Tailored Plan shall closely track and report their revenue and expenditures to demonstrate value to the Department as well as compliance with medical loss ratio standards. The Department will monitor BH I/DD Tailored Plan expenditures to evaluate program performance relative to benchmarks and support capitation rate setting, compliance reviews, and other functions necessary to operate the program.

(iii) Any financial arrangements between BH I/DD Tailored Plans and third parties should align with the parameters outlined in Section V.A.1.iv. Third Party (Subcontractor) Contractual Relationships.

(iv) Managing and Monitoring Cost Growth

(a) The BH I/DD Tailored Plan shall manage program costs while meeting the quality, access and other Department requirements under the Contract and federal and state laws and regulations.

(b) Pursuant to N.C. Gen. Stat. § 108D-65(6)a., risk-adjusted cost growth for the BH I/DD Tailored Plan’s members “must be at least two percentage (2%) points below national Medicaid spending growth as documented and projected in the annual report prepared for CMS by the Office of the Actuary for non-expansion states.”

(c) The Department shall monitor annual cost growth of BH I/DD Tailored Plan expenditures by Region and population cohort to most closely align with the populations reported in the CMS Office of the Actuary’s Actuarial Report on the Financial Outlook for Medicaid.

(d) The BH I/DD Tailored Plan shall provide reports as requested, and in the format prescribed, by the Department to demonstrate annual cost growth as outlined in Section VII. Attachment J. Reporting Requirements. Each such requested report shall include a narrative that summarizes cost drivers, an evaluation of programs in place to address those cost drivers, and plans for addressing future cost growth.

(v) Pharmacy Savings

(a) N.C. Gen. Stat. § 108D-65(6)b., requires that BH I/DD Tailored Plan spending for prescribed drugs, net of rebates, ensures the Department realizes a net savings for the spending on prescription drugs. To ensure net savings, the Department shall monitor BH I/DD Tailored Plan compliance with the Department’s Preferred Drug List and compliance with pharmacy claims encounter reporting.

(b) The BH I/DD Tailored Plan shall provide reports as requested, and in a format prescribed, by the Department to demonstrate net pharmacy savings as outlined in Section VII. Attachment J. Reporting Requirements.

(vi) Reinsurance

(a) The BH I/DD Tailored Plan shall have and maintain at all times an adequate plan for protection against insolvency, pursuant to the terms of this contract and N.C. Gen. Stat. § 122C. Any reinsurance or alternative arrangement proposed by the BH I/DD Tailored Plan is subject to
review and approval by the Department. The agreement must provide that the Department will be notified no less than 60 days prior to cancellation or reduction of coverage.

(b) The BH I/DD Tailored Plan shall purchase reinsurance to protect against the financial risk of high-cost individuals and shall submit to the Department proof of purchase or a proposal for an alternative mechanism for managing financial risk. The Department shall review the reinsurance arrangement or any such proposed alternative mechanism and shall notify the BH I/DD Tailored Plan of any required changes to the proposed reinsurance arrangement or alternative mechanism. The BH I/DD Tailored Plan shall maintain the reinsurance arrangement or alternative mechanism and submit any proposed changes to the Department for review and approval.

(c) The BH I/DD Tailored Plan shall provide the Department with a copy of the reinsurance policy specifying the costs and coverage terms or the documentation related to the approved alternative method of financial protection. The Department may require additional protections and documentation at any time.

(d) The Department reserves the right to revisit reinsurance requirements annually and to modify or establish the deductible threshold and coverage levels required by the Department, if, upon review of financial and encounter data or other information, fiscal concerns arise that a specific threshold is deemed warranted by the Department.

(e) The Department shall provide claims experience data or summaries providing a distribution of per Member per year claim spend to a BH I/DD Tailored Plan or its reinsurer within forty-five (45) calendar days of the request by the BH I/DD Tailored Plan.

(f) The BH I/DD Tailored Plan shall remain ultimately liable for the services rendered under the Contract. In the event of termination of the reinsurance agreement due to insolvency of the BH I/DD Tailored Plan or the reinsurance carrier, the BH I/DD Tailored Plan shall be fully responsible for all pending and unpaid claims.

(g) Any reinsurance agreements which cover expenses to be paid for continued benefits in the event of insolvency shall include Medicaid Managed Care Members as a covered class.

(h) The BH I/DD Tailored Plan shall notify the Department when the BH I/DD Tailored Plan incurs a claim against the reinsurance policy.

(vii) Financial Viability

(a) The BH I/DD Tailored Plan must have and maintain at all times adequate financial resources to guard against the risk of insolvency, pursuant to the terms of this contract and N.C. Gen. Stat. § 122C.

(b) The BH I/DD Tailored Plan must, by Day 1 of BH I/DD Tailored Plan launch, fully fund BH I/DD Tailored Plan capital reserves at twelve and a half percent (12.5%) of total expected annual BH I/DD Tailored Plan Medicaid capitation.

1. If a BH I/DD Tailored Plan fails to meet the Medicaid twelve and a half percent (12.5%) reserves requirement outlined in Section V.B.7.iii.(vii) Financial Viability by Day 1 of BH I/DD Tailored Plan launch, the BH I/DD Tailored Plan must submit a viable plan outlining how the BH I/DD Tailored Plan will meet these requirements by the end of Contract Year 2, for approval at the discretion of the Department. Financial reviews will be a part of the Readiness Review requirements outlined in Section V.A.1. vi. Readiness Reviews.

2. For a Tailored Plan to be considered viable at the time of readiness review and subsequently have their solvency plan evaluated, a BH I/DD Tailored Plan must document capital reserves of at least 9.0% of total expected annual BH I/DD Tailored Plan Medicaid capitation by Day 1 of BH I/DD Tailored Plan launch.

22 12.5% of expected annual BH I/DD Tailored Plan capitation is used as a proxy for appropriate Risk Based Capital (RBC) solvency standards. 300% RBC is approximately equal to 1.5 months of claims, or approximately 12.5%.
(c) The BH I/DD Tailored Plan shall maintain capital reserves of at least 9.0% of total expected annual BH I/DD Tailored Plan Medicaid Capitation as determined from the monthly, quarterly, and annual financial reporting schedules.

(1) If a BH I/DD Tailored Plan’s capital reserves fall below 9.0% of total expected annual BH I/DD Tailored Plan Medicaid Capitation in any quarterly statement, the BH I/DD Tailored Plan must submit a report to the Department that describes the reason for the decline in capital reserves, proposed corrective action to increase capital reserves, and projections of the impact of the corrective actions on the capital reserve levels.

(2) If a BH I/DD Tailored Plan’s capital reserves fall below 6.25% of total expected annual BH I/DD Tailored Plan Medicaid Capitation in any quarterly statement, the BH I/DD Tailored Plan must submit a report to the Department as described in Section V.B.7.iii.(vii)(c)(1) for Department review. The Department reserves the right to stipulate required corrective action for the BH I/DD Tailored Plan.

(3) If a BH I/DD Tailored Plan’s capital reserves fall below 4.0% of total expected annual BH I/DD Tailored Plan Medicaid Capitation in any quarterly statement, the Department reserves the right to place the BH I/DD Tailored Plan under the control of the regulator or initiate actions outlined in Section V.B.7.iii.(vii)(c)(2).

(d) The Department will provide expected annual BH I/DD Tailored Plan Medicaid Capitation revenue for use in these calculations. Medicaid capitation revenue will include monthly PMPM capitation payments and maternity event payments, but exclude all other managed care payments defined in Section 5.a of the Terms and Conditions (i.e. Tailored Care Management payments, monthly single stream allocations, additional directed payments to certain providers, and any Healthy Opportunity Pilot program payments.)

(e) For purposes of the capital requirements, capital reserves are defined as unobligated assets net of liabilities.

(f) The BH I/DD Tailored Plan must, at least ninety days (90) before the end of Contract Year 3, meet the solvency standards for PHPs set forth by the North Carolina Department of Insurance (DOI), as outlined in N.C. Gen. Stat. § 58-93-110, contingent upon legislative authority.

(g) The BH I/DD Tailored Plan shall maintain a Current Ratio above 1.0 as determined from the monthly, quarterly, and annual financial reporting schedules. The Current Ratio is defined as Current Assets divided by Current Liabilities. Current Assets include any short-term investments that can be converted to cash within five (5) Business Days without significant penalty. Significant penalty is a penalty greater than twenty percent (20%).

(1) If a BH I/DD Tailored Plan’s Current Ratio falls below 1.0 at any point in time, the BH I/DD Tailored Plan must submit a report to the Department that describes the reason for the decline, proposed corrective action to increase the ratio, and projections of the impact of the corrective actions.

(h) The BH I/DD Tailored Plan shall maintain a Defensive Interval Ratio above thirty (30) Calendar Days as determined from the monthly, quarterly, and annual financial reporting schedules. The Defensive Interval is defined as cash plus cash equivalents divided by Operating Expenses minus Non-Cash Expenses divided by the period measured in days.

(1) If a BH I/DD Tailored Plan’s Defense Interval Ratio falls below 30 days at any point in time, the BH I/DD Tailored Plan must submit a report to the Department that describes the reason for the decline, proposed corrective action to increase the ratio, and projections of the impact of the corrective actions.

(i) The BH I/DD Tailored Plan shall comply with financial viability standards related to liquidity to pay Medicaid Managed Care claims established by the Department.

(j) The Department may, at its discretion, implement a risk corridor program to provide additional protection to the BH I/DD Tailored Plan and the Department to address any uncertainty.
associated with pricing or enrollment. In the event the Department implements such a program, additional details of the program will be included in an amendment to this Contract.

(viii) Financial Accounting and Audit

(a) The BH I/DD Tailored Plans accounting records and supporting information related to all aspects of the Contract must be accumulated in accordance with Federal Acquisition Regulations (FAR), Generally Accepted Accounting Principles (GAAP), and this Contract. The Department will not recognize or pay services that cannot be properly substantiated by the BH I/DD Tailored Plan and verified by the Department. The BH I/DD Tailored Plan shall:

(1) Maintain accounting records for this Contract separate and apart from other corporate accounting records;

(2) Maintain records for all claims payments, refunds and adjustment payments to providers, capitation payments, interest income and payments for administrative services or functions and must maintain separate records for medical and administrative fees, charges, and payments;

(3) Ensure and provide access to the Department and/or its auditors or agents to the detailed records and supporting documentation for all costs incurred by the BH I/DD Tailored Plan. The BH I/DD Tailored Plan must ensure such access to its Subcontractors, including Affiliates, for any costs billed to or passed to the BH I/DD Tailored Plan;

(4) Maintain an accounting system that provides an audit trail containing sufficient financial documentation to allow for the reconciliation of billings, reports, and financial statements with all general ledger accounts;

(5) Provide copies of the most recent annual audit within thirty (30) calendar days of certification, to verify the BH I/DD Tailored Plan’s financial status, solvency, and viability; and

(6) Provide copies of the BH I/DD Tailored Plan’s annual cost allocation plan for the Department’s review at least sixty (60) calendar days prior to the start of the state fiscal year.

(b) The annual financial audit and cost allocation plans shall be subject to annual independent verification and audit by the Department or a firm(s) of the Department’s choosing, in accordance with the Office of Management and Budget (OMB) Circular A-133 and OMB Circular A-87. All such audits shall be arranged to occur at dates and times that are mutually agreeable, and the BH I/DD Tailored Plan shall be provided with reasonable notice of the Department’s intent to perform, or cause to be performed, any such audits. The costs for such audits shall be the responsibility of the Department.

(c) The BH I/DD Tailored Plan shall reimburse the Department, if reimbursement is sought, for reasonable costs incurred by the Department to perform examinations, investigations, audits, or other types of attestations the Department reasonably determines are necessary to ensure BH I/DD Tailored Plan compliance with this Contract. The use and selection of any external parties to conduct examinations, investigations, audits, or other types of attestations as well as the scope of work of examinations, investigations, audits, or other types of attestations are at the Department’s sole discretion.

(d) If, as a result of an audit or review of payments made to the BH I/DD Tailored Plan, the Department discovers a payment error or overcharge, the Department will notify the BH I/DD Tailored Plan of such error or overcharge. The Department will be entitled to recover such funds as an offset to future payments to the BH I/DD Tailored Plan, or to collect such funds directly from the BH I/DD Tailored Plan.

(1) The BH I/DD Tailored Plan must return funds owed to the Department within thirty (30) days after receiving notice of the error or overcharge, or interest will accrue on the amount due.
(2) The Department will calculate interest at twelve percent (12%) per annum, compounded daily. In the event that an audit reveals that errors in reporting by the BH I/DD Tailored Plan have resulted in errors in payments to the BH I/DD Tailored Plan, the BH I/DD Tailored Plan will indemnify the Department for any losses resulting from such errors, including the cost of audit.

8. Technical Specifications
   i. Data Exchange Model
      (i) The following diagram and accompanying matrix provides a point in time, high-level view of the primary data exchanges associated with the BH I/DD Tailored Plan, the Department, AMH+s/CMAs, and Department Vendors. As the program evolves and technical designs are finalized the data exchanges depicted below will change. The BH I/DD Tailored Plan will be responsible for implementing the data exchanges as defined by the Department.
      (ii) The Department anticipates changes to its Information Technology Systems. The BH I/DD Tailored Plan will update its Information Technology Systems to conform with any updates to the Department’s Information Technology System changes including but not limited to data exchanges and interfaces, file formats, data exchange frequencies, data exchange protocols and transports, source and target systems, and file size (i.e. number of records per file). The Department will provide test environments to allow adequate testing time.
