Dear Patricia A. Jones:

**There will be a new way to get Medicaid health care**

Starting **July 1, 2021**, most people will get the same Medicaid services in a new way – through health plans.

A **health plan** is a group of doctors, hospitals and other providers. They work together to give you the health care you need. Everything will come from the same health plan. This includes – physical health, behavioral health and medicine. Some health plans provide added services like programs to help you quit smoking.

**NC Medicaid Direct** is North Carolina's current health care program for Medicaid members. It will continue to provide the same services including developmental disability, behavioral health, traumatic brain injury and substance use disorder services for members who need these special services.

Even if you previously chose a health plan, you will need to choose again. If you don't choose a health plan, we will choose one for you. You know your needs best, so it's better if you choose.

**Some things will stay the same**

Medicaid eligibility rules and processes are not changing.

Beginning **July 1, 2021**, you will get your same Medicaid services through NC Medicaid Direct. It will provide the same services currently covered for developmental disability, behavioral health, traumatic brain injury and substance use disorder.

**You can choose a different health plan.** NC Medicaid Direct is not the only choice. Medicaid services will be provided from health plans.

These health plans may **not** cover the same services for developmental disability, behavioral health, traumatic brain injury or substance use disorder. To learn more, call us at **1-833-870-5500** (TTY: 1-833-870-5588).

### If you decide to choose a health plan, there are 3 steps to enroll:

#### ① Choose a primary care provider (PCP)

- Your **PCP** could be your family doctor, clinic or other health care provider. Your PCP will help you with your health care needs. You can also choose a new PCP.
- You can choose a different PCP for each member.
- Health plans work with different PCPs. To keep your doctor, clinic or other provider as your PCP, find out which health plans they work with. Then choose one of those health plans.
- You can ask your provider which health plans they work with. Or you can call us at **1-833-870-5500** (TTY: 1-833-870-5588).
- You can also find a list of health care providers for each health plan at [ncmedicaidplans.gov](http://ncmedicaidplans.gov).

#### ② Choose a health plan

- If you want to keep your provider as your PCP, choose a health plan your PCP works with.
- Read the Health Plan Choice Guide that came with this letter. It tells you about the health plans and added services they offer.
- Choose the best one for you.
