Effective date January 1, 2025

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor Revised 12.06.2024 Olopatadine (OTC) was added to the PDL

Revised 12,23,2024 scopolamine patch (generic for Transderm-Scop®) moved to Preferred with effective date 12,27.24

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated. Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

https://www.nctracks.nc.gov/content/public/providers/pharmacy.html

AT	LZHEIMER'S AGENTS

Effective date January 1, 2025

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor Revised 12.06.2024 Olopatadine (OTC) was added to the PDL

Revised 12,23,2024 scopolamine patch (generic for Transderm-Scop®) moved to Preferred with effective date 12,27.24

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated. Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

Effective date January 1, 2025

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor Revised 12.06.2024 Olopatadine (OTC) was added to the PDL

Revised 12,23,2024 scopolamine patch (generic for Transderm-Scop®) moved to Preferred with effective date 12,27.24

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated. Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

https://www.nctracks.nc.gov/content/public/providers/pharmacy.html

Effective date January 1, 2025

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor Revised 12.06.2024 Olopatadine (OTC) was added to the PDL

Revised 12,23,2024 scopolamine patch (generic for Transderm-Scop®) moved to Preferred with effective date 12,27.24

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated. Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

Effective date January 1, 2025

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor Revised 12.06.2024 Olopatadine (OTC) was added to the PDL

Revised 12,23,2024 scopolamine patch (generic for Transderm-Scop®) moved to Preferred with effective date 12,27.24

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated. Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

https://www.nctracks.nc.gov/content/public/providers/pharmacy.html

LOW SEDATING ANTIHISTAMINE COMBINATIONS		
Quantity limit of 102 days supply per 12 months apply to all drugs in this class		
Preferred	Non-Preferred	
loratadine-D OTC tablet (generic for Claritin-D [®] OTC)	cetirizine-D OTC tablet (generic for Zyrtec-D® OTC)	
	Clarinex-D® Tablet	
	fexofenadine-D 12 Hour OTC Tablet (generic for Allegra-D® 12 Hour OTC)	
	fexofenadine-pseudoephedrine ER 24 hour tablet (generic for Allegra-D [®] 24 hour)	
	FIRST GENERATION ANTIHISTAMINES	
Preferred	Non-Preferred	
carbinoxamine solution	carbinoxamine tablet	
cyproheptadine syrup / tablet	clemastine tablet	
hydroxyzine capsule / solution / tablet	Karbinal [™] ER Suspension - T/F of immediate release carbinoxamine solution and cetirizine syrup required for coverage

Effective date January 1, 2025

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor Revised 12.06.2024 Olopatadine (OTC) was added to the PDL

Revised 12,23,2024 scopolamine patch (generic for Transderm-Scop®) moved to Preferred with effective date 12,27.24

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated. Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

Effective date January 1, 2025

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor Revised 12.06.2024 Olopatadine (OTC) was added to the PDL

Revised 12,23,2024 scopolamine patch (generic for Transderm-Scop®) moved to Preferred with effective date 12,27.24

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated. Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

Effective date January 1, 2025

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor Revised 12.06.2024 Olopatadine (OTC) was added to the PDL

Revised 12,23,2024 scopolamine patch (generic for Transderm-Scop®) moved to Preferred with effective date 12,27.24

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated. Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to

T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

https://www.nctracks.nc.gov/content/public/providers/pharmacy.html

N.C. Medicaid only covers, at point of sale, the designated preferred products listed below for blood glucose meters, diabetic test strips, control solutions, lancets, and lancing devices for Medicaid-primary recipients (dually eligible and third party recipients are not affected). These products are covered under the Outpatient Pharmacy Program and can be submitted to the pharmacy point-of-sale system with a prescription. Diabetic supplies, including other brands, can also be submitted under Durable Medical Equipment using the NDC and HCPCS code. Beneficiaries are allowed 1 covered meter every 2 years (730 days). For questions or assistance regarding diabetic supplies for Medicaid Direct members, please call the NC Tracks call center at 1-800-688-6696. *All blood glucose meters are billed using the NC Medicaid Free BIN Meter program. BIN 610524, PCN 1016, Group 40026479, ID 066499643.*
