Effective Date: October 1, 2024

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated.

Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until

reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

Effective Date: October 1, 2024

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated.

Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until

reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

	CARDIOVASCULAR
	ACE INHIBITORS
Preferred	Non-Preferred
enazepril tablet (generic for Lotensin®)	Accupril [®] Tablet
nalapril tablet (generic for Vasotec [®])	Altace [®] Capsule
sinopril tablet (generic for Prinivil [®] and Zestril [®])	captopril tablet (generic for Capoten [®])
mipril capsule (generic for Altace®)	enalapril solution (generic for Epaned [®]) - T/F of preferred agents not required for children < 12 years of age
	Epaned [®] Solution - T/F of preferred agents not required for children < 12 years of age
	fosinopril tablet (generic for Monopril®)

Effective Date: October 1, 2024

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated.

Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until

reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated.

Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until

reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

ANTIPARKINSON ANI	RESTLESS LEG SYNDROME AGENTS
Preferred	Non-Preferred
amantadine capsule / solution (generic for Symmetrel®)	Apokyn [®] Cartridge

Effective Date: October 1, 2024

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated.

Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until

reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at: https://www.nctracks.nc.gov/content/public/providers/pharmacy.html
More information on the PDL can be found at: https://medicaid.ncdhhs.gov/providers/programs-services/prescription-drugs/outpatient-pharmacy-services

Effective Date: October 1, 2024

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated.

Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until

reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at: https://www.nctracks.nc.gov/content/public/providers/pharmacy.html
More information on the PDL can be found at: https://medicaid.ncdhhs.gov/providers/programs-services/prescription-drugs/outpatient-pharmacy-services

Effective Date: October 1, 2024

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated.

Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until

reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

Effective Date: October 1, 2024

Revised 10.23.2024 for removing Vascepa® and moving icosapent ethyl capsule (generic for Vascepa®) to preferred for access and adding Freestyle Libre™ 3 Plus Sensor

Trial and failure (T/F) of two Preferred drugs are required unless only one Preferred option is listed or a T/F criteria exemption is otherwise indicated.

Not all therapeutic drug classes are included on the PDL. All drugs in the classes not included are considered Preferred. In addition to T/F criteria, clinical criteria (indicated in RED) may also apply. New to market products typically default to Non-Preferred status until

reviewed by the PDL Panel. These drugs are listed as TO BE REVIEWED. Drugs requiring prior authorization, clinical criteria and prior authorization request forms can be found at:

https://www.nctracks.nc.gov/content/public/providers/pharmacy.html
More information on the PDL can be found at: https://medicaid.ncdhhs.gov/providers/programs-services/prescription-drugs/outpatient-pharmacy-services

DIABETIC CONTINUOUS GLUCOSE MONITOR SUPPLIES
