Journey to Modernization

NCDHHS Vision

To improve the health of North Carolinians through an innovative, whole-person centered, and well-coordinated system of care that addresses both the medical and non-medical drivers of health.

PDM/CVO Module Overview | Journey to Modernization

In 2017, Session Law 2017-57 authorized the replacement of current Medicaid Management Information System (MMIS) technologies with modular systems. As a result of this change, the following developments can be anticipated.

- 1. NC Medicaid Managed Care Transformation Roadmap will:
 - ✓ Ease the provider administrative burden
 - ✓ Modernize PDM/CVO technologies
 - ✓ Simplify and enable responsive access for Medicaid providers to participate in NC's Medicaid Program
- 2. PDM/CVO will be operational early 2024 and will:
 - ✓ Align with NC Medicaid Managed Care Transformation Roadmap
 - ✓ Streamline data intake and maintenance throughout provider lifecycle
 - ✓ Perform provider enrollment and credentialing on behalf of NCDHHS
 - ✓ Detect and prevent fraud, waste and abuse

Managed Care Commitments

PDM/CVO Module Overview | Journey to Modernization

North Carolina has matured its vision for the PDM/CVO as a core part of Transformation since Aug 2017

Improve User Experience

- Mitigates administrative burden of completing data entry across multiple plans
- Collects data using common accreditation standards
- Allows providers to delegate access within their organization allowing multiple users to complete an application
- Offers interactive enrollment process, automatically guided step-by-step and real-time online assistance
- Improves the notification process to streamline collaboration
- Simplifies registration for multipayer providers
- Offers enhanced security controls and protocols

Meet State Program Needs

- Addresses administrative burden of multiple credentialing standards across programs and health plans
- Utilizes nationally-recognized credentialing and accreditation standards
- Supports a multi-payer, multihealth plan program
- Matures data architecture and interfaces
- Establishes a representative centralized credentialing committee with multi-payers

Meet CMS Requirements

- Provides more efficient, economical, and effective administration of State plan
- Supports seamless coordination and integration, allowing interoperability
- Ensures HIPAA privacy, security, transaction and section 508 standards
- Increases flexibility to modify individual services efficiently and effectively to address the changing local and national health and human service environment
- Aligns with Centers for Medicare & Medicaid Services (CMS) requirements

PDM/CVO Module Implementation

PDM/CVO Module Overview | Implementation

How will NCDHHS acquire, test, and implement the new PDM/CVO module?

Acquire

- Define business driven requirements and expected outcomes
- Procure solution from the vendor that provides best value

Configure & Test

- Coordinate with NC Medicaid providers to proactively communicate changes and solicit design input
- Selected vendor will configure the module to meet NC Medicaid needs
- Solicit testing input from various provider communities

Implement

- Train users and implement module
- Ensure minimal disruption of services and smooth transition
- Demonstrate that operations staff are implementation ready
